21 Ideas To Be More Productive Today:

The Communal Idea in the 21st Century ,2012-09-28 The idea of a better society as associated with the communal idea is investigated from both theoretical perspectives and through contemporary experiences around the world This idea leaves nobody indifferent Whatever the hardship that its concretization implies however once it does materialize it cannot as such avoid new challenges tensions and unexpected claims This means at varying degrees negations of and removals from the utopian inspiration Humans are able to create unprecedented conditions of life under most ambitious inspirations but are unable to safeguard their achievements from change alterations and contradictions In this however another aspect of the utopian realizations is that they ultimately leave room for new utopist thinking and enrolment As far indeed the utopian inspiration draws its vitality from potent civilizational codes its renewal from ashes is as unavoidable as its self betrayal through materialization Contributors included Eliezer Ben Rafael Rami Degany Amitai Etzioni Maria F lling Albers Yiftah Goldman Ruth Kark Yossi Katz John Lehr Graham Meltzer Bill Metcalf Timothy Miller Yaacov Oved Michal Palgi Donald E Pitzer Shulamit Reinhartz Lyman Tower Sargent Gy rgy Sz ll Menachem Topel Katherine Trebeck and Chris Warhurst

Jacques Ellul and the Technological Society in the 21st Century Helena M. Jerónimo, José Luís Garcia, Carl Mitcham, 2013-07-08 This volume rethinks the work of Jacques Ellul 1912 1994 on the centenary of his birth by presenting an overview of the current debates based on Ellul s insights As one of the most significant twentieth century thinkers about technology Ellul was among the first thinkers to realize the importance of topics such as globalization terrorism communication technologies and ecology and study them from a technological perspective The book is divided into three sections The first discusses Ellul s diagnosis of modern society and addresses the reception of his work on the technological society the notion of efficiency the process of symbolization de symbolization and ecology The second analyzes communicational and cultural problems as well as threats and trends in early twenty first century societies Many of the issues Ellul saw as crucial such as energy propaganda applied life sciences and communication continue to be so In fact they have grown exponentially on a global scale producing new forms of risk Essays in the final section examine the duality of reason and revelation They pursue an understanding of Ellul in terms of the depth of experience and the traditions of human knowledge which is to say on the one hand the experience of the human being as contained in the rationalist sociological and philosophical traditions On the other hand there are the transcendent roots of human existence as well as revealed knowledge in the mystical and religious traditions The meeting of these two traditions enables us to look at Ellul s work as a whole but above all it opens up a space for examining religious life in the technological society
