Growth and Development of Computer Aided Innovation Runhua Tan, Guozhong Cao, Noel Leon, 2009-08-19 This volume constitutes the refereed proceedings of the Third IFIP WG 5.4 Working Conference on Computer Aided Innovation CAI 2009 held in Harbin China in August 2009. The papers deal with advanced approaches in education and training, data mining, text mining, semantic Web optimization and innovation shape and topology generators, design automation, integration of CAI methods and tools into engineering innovation process and engineering information pipeline, innovation in collaborative networks of enterprises, professional virtual communities as well as engineering design. **Management of Technology**

Hans J. Thamhain, 2005-05-25 vorgestellt werden die modernsten Managementkonzepte, Hilfsmittel und Methoden, die auch in technologieintensiven Unternehmensbereichen einwandfrei funktionieren. Schwerpunkte liegen auf Prozessintegration, Managementwerkzeugen und Personalentwicklung. Applying Innovation David O'Sullivan, Lawrence Dooley, 2008-06-23 A step by step approach to applying high impact innovation principles in any organization. Innovation is an important force in creating and sustaining organizational growth. Effective innovation can mean the difference between leading with a particular product, process or service and simply following the pack. Innovation transforms mediocre companies into world leaders and ordinary organizations into stimulating environments for employees. Applying Innovation combines the key ingredients from areas including innovation management, strategic planning, performance measurement, creativity, project portfolio management, performance appraisal, knowledge management and teams to offer an easily applied recipe for enterprise growth. Authors David O'Sullivan and Lawrence Dooley map out the main concepts of the innovation process into a clear, understandable framework: the innovation funnel. Unlike other texts for this course, Applying Innovation goes beyond methodologies and checklists to offer an invaluable step by step approach to actually applying high impact innovation in any organization using a knowledge management system, whether for a boutique firm or one comprised of thousands of individuals. Key Features: Adopts a practical approach to overseeing innovation that focuses on useful tools and techniques rather than on theory and methodologies. Offers student activities within the text for immediate application of key concepts reinforcing retention and comprehension. Teaches students to build and apply effective innovation management systems for any organization successfully regardless of the firm's size or structure. Intended Audience: Applying Innovation is designed for undergraduate and graduate courses such as Innovation Management, Project Management, Strategic Planning and Performance Management in fields of business science and engineering. This book appeals to instructors who want to reduce the chalk and talk and increase the hands-on practicality of their courses in innovation management.
