From the deeply unsettling to the possibly supernatural, these thirty-one border-crossing stories from around the world explore the uncanny in literature and delve into our increasingly unstable sense of self, home, and planet. *The Uncanny Reader: Stories from the Shadows* opens with The Sandman, E.T.A. Hoffmann's 1817 tale of doppelgangers and automatons, a tale that inspired generations of writers and thinkers to come. Growing Up a Woman Milena Kaličanin, Soňa Šnircová, 2015-10-13. This book explores contemporary transformations of the female Bildungsroman, showing that the intersection of the genre and gender brought to critical attention in the context of second-wave feminism remains of equal importance in the era of postfeminism. The female Bildung narrative has acquired an important position in twentieth and twenty-first century literature through its continuing depiction of female self-discovery and emancipation as a process of negotiating the traditional divisions of female and male roles in relation to the private and

public spaces Recognizing the seminal contribution of feminist criticism to the definition of the genre and the role of feminist cultural processes in its thematic developments this volume investigates more recent influences on the female Bildung narrative and the influence of the classic female Bildungsroman on contemporary cultural texts As a collection of fifteen essays written by international scholars the book offers a representative sample of the narratives of female development presenting a variety of genres including the novel the short story autobiography TV series and Internet video blogs and theoretical frameworks adopting hermeneutic postcolonial feminist and postfeminist perspectives In its diversity this volume reveals that despite the ongoing process of women s emancipation the heroine s struggle with the private public divide has remained throughout the twentieth century and in the first decades of the new millennium a central issue in stories about the female quest for self definition The book will be of interest to scholars and students in the fields of literary women and gender studies particularly those interested in the narratives of female development that represent American and British cultural contexts
