The Unwinding An Inner History Of The New America By George Packer:

The Unwinding George Packer, 2013-06-10 America is in crisis In the space of a generation it has become more than ever a country of winners and losers as industries have failed institutions have disappeared and the country's focus has shifted to idolise celebrity and wealth George Packer narrates the story of America over the past three decades bringing to the task his empathy with people facing difficult challenges his sharp eye for detail and a gift for weaving together engaging narratives The Unwinding moves deftly back and forth through the lives of its people including Dean Price the son of tobacco farmers who becomes an evangelist for a new economy in the rural South Tammy Thomas a factory worker in the industrial Midwest attempting to survive the collapse of her city Jeff Connaughton a political careerist in Washington and Peter Thiel a Silicon Valley billionaire Their stories are interspersed with biographical sketches of the era's leading public figures from Oprah Winfrey to Steve Jobs to create a rich wise and very human portrait of the USA in these hard times The Unwinding portrays a superpower coming apart at the seams its elites and institutions no longer working leaving ordinary people to improvise their own schemes for salvation George Packer is also the author of *The Assassin's Gate* which was named one of the ten best books of 2005 by the New York Times and won the Helen Bernstein Book Award A tour de force A fascinating journey through an America that has largely remained hidden from view There are echoes of Don DeLillo's *Underworld* in the scope of Packer's vision and his deft eye for language and detail Sunday Business Post The Unwinding Save Time Summaries Staff, 2013-08-21 SAVE TIME by the early 1980s as the crack epidemic began to sweep the inner cities at the same time that looser regulations started to sweep Wall Street the wealth of America started to unwind Today with phrases like jobless recovery still being used to describe the economy even the most optimistic observers are forced to wonder if America should now be classified as has been a country that sustains itself on the memory of its greatness rather than on its actual merits In telling the story of America's unwinding he doesn't state his own opinions about the matter too blatantly preferring instead to rely upon the personal narratives of individual Americans to paint his portrait of what went wrong He provides intimate exclusive profiles of fascinating characters such as Jeff Connaughton a former Senate adviser to current Vice President Joe Biden Connaughton left Capitol Hill to blow the whistle on the tactics Wall Street uses to control Congress and block any meaningful regulation and reform Colin Powell former Secretary of State and Chairman of the Joint Chiefs Jay Z Grammy Award winning rapper Dean Price a struggling biofuels entrepreneur Sam Walton the founder of Wal-Mart Through it all Packer expertly weaves them together to document the decay of social structures and institutions that began in the 1960s and that has carried through to the present day This unwinding has created greater freedoms in certain ways but has also made life in America more uncertain than ever before Gazing at America's past four decades through the eyes of the many characters Packer has selected the reader is left with an uneasy feeling that things in the United States at least for the working class and middle class are destined to get worse before they get better FROM START TO FINISH IN JUST 20

American Labyrinth Raymond Haberski, Jr., Andrew Hartman, 2018-12-15 American Labyrinth contains a stimulating and useful collection of essays by historians reflecting on American intellectual history As a whole the book convinces the reader that the field of intellectual history is enjoying a renaissance The book will be especially prized by intellectual historians but historians of many different persuasions will find these essays rewarding too Choice Intellectual history has never been more relevant and more important to public life in the United States In complicated and confounding times people look for the principles that drive action and the foundations that support national ideals American Labyrinth demonstrates the power of intellectual history to illuminate our public life and examine our ideological assumptions This volume of essays brings together 19 influential intellectual historians to contribute original thoughts on topics of widespread interest Raymond Haberski Jr and Andrew Hartman asked a group of nimble sharp scholars to respond to a simple question How might the resources of intellectual history help shed light on contemporary issues with historical resonance The answers all rigorous original and challenging are as eclectic in approach and temperament as the authors are different in their interests and methods Taken together the essays of American Labyrinth illustrate how intellectual historians operating in many different registers at once and ranging from the theoretical to the political can provide telling insights for understanding a public sphere fraught with conflict In order to understand why people are ready to fight over cultural symbols and political positions we must have insight into how ideas organize enliven and define our lives Ultimately as Haberski and Hartman show in this volume the best route through our contemporary American labyrinth is the path that traces our practical and lived ideas

Modernity, Metatheory, and the Temporal-Spatial Divide Michael Kimaid, 2015-03-27 This book is about how modernity affects our perceptions of time and space Its main argument is that geographical space is used to control temporal progress by channeling it to benefit particular political economic and social interests or by halting it altogether By incorporating the ancient Greek myth of the Titanomachy as a conceptual metaphor to explore the elemental ideas of time and space the author argues that hegemonic interests have developed spatial hierarchy into a comprehensive system of technocratic monoculture which interrupts temporal development in order to maintain exclusive power and authority This spatial stasis is reinforced through the control of historical narratives and geographical settings While increasingly comprehensive the author argues that this state of affairs can best be challenged by focusing on the development of unmappable places which presently exist within the socio spatial matrix of the modern world

Dispossessed Noelle Stout, 2019-06-04 In the aftermath of the 2008 financial crisis more than 14 million U S homeowners filed for foreclosure Focusing on the hard hit Sacramento Valley Noelle Stout uncovers the predacious bureaucracy that organized the largest bank seizure of residential homes in U S history Stout reveals the failure of Wall Street banks mortgage

assistance programs backed by over 300 billion of federal funds to deliver on the promise of relief Unlike the programs of the Great Depression in which the government took on the toxic mortgage debt of Americans corporate lenders and loan servicers ultimately denied over 70 percent of homeowner applications In the voices of bank employees and homeowners Stout unveils how call center representatives felt about denying appeals and shares the fears of families living on the brink of eviction Stout discloses the impacts of rising inequality on homeowners from whites who felt their middle class life unraveling to communities of color who experienced a more precipitous and dire decline Trapped in a Kafkaesque maze of mortgage assistance borrowers began to view debt refusal as a moral response to lenders as seemingly mundane bureaucratic dramas came to redefine the meaning of debt and dispossession

Contemporary Australian Literature

Nicholas Birns, 2015-12-01 Australia has been seen as a land of both punishment and refuge Australian literature has explored these controlling alternatives and vividly rendered the landscape on which they transpire Twentieth century writers left Australia to see the world now Australia's distance no longer provides sanctuary But today the global perspective has arrived with a vengeance In Contemporary Australian Literature A World Not Yet Dead Nicholas Birns tells the story of how novelists poets and critics from Patrick White to Hannah Kent from Alexis Wright to Christos Tsiolkas responded to this condition With rancour concern and idealism modern Australian literature conveys a tragic sense of the past yet an abiding vision of the way forward Birns paints a vivid picture of a rich Australian literary voice one not lost to the churning of global markets but in fact given new life by it Contrary to the despairing of the critics Australian literary identity continues to flourish And as Birns finds it is not one thing but many In this remarkable bold and fearless book Nicholas Birns contests how literary cultures are read how they are constituted and what they stand for In examining the nature of the barriers between public and private utterance and looking outside the absurdity of the rules of genre Birns has produced a redemptive analysis that leaves hope for revivifying a world not yet dead John Kinsella

American Tricksters William J. Jackson,2014-12-18 Tricksters are known by their deeds Obviously not all the examples in *American Tricksters* are full blown mythological tricksters like Coyote Raven or the Two Brothers found in Native American stories or superhuman figures like the larger than life Davy Crockett of nineteenth century tales Newer expressions of trickiness do share some qualities with the Trickster archetype seen in myths Rock stars who break taboos and get away with it heroes who overcome monstrous circumstances crafty folk who find a way to survive and thrive when the odds are against them men making spectacles of themselves by feeding their astounding appetites in public all have some

Levack,2022 Distrust of public institutions which reached critical proportions in Britain and the United States in the first two decades of the twenty first century was an important theme of public discourse in Britain and colonial America during the early modern period Demonstrating broad chronological and thematic range the historian Brian P Levack explains that trust in public institutions is more tenuous and difficult to restore once it has been betrayed than trust in one s family friends and neighbors because the vast majority of the populace do not personally know the officials who run large national institutions Institutional distrust shaped the political legal economic and religious history of England Scotland and the British colonies in America It provided a theoretical and rhetorical foundation for the two English revolutions of the seventeenth century and the American Revolution in the late eighteenth century It also inspired reforms of criminal procedure changes in the system of public credit and finance and challenges to the clergy who dominated the Church of England the Church of Scotland and the churches in the American colonies This study reveals striking parallels between the loss of trust in British and American institutions in the early modern period and the present day *Building the Empire State* Brian Phillips Murphy,2015-04-22

Building the Empire State examines the origins of American capitalism by tracing how and why business corporations were first introduced into the economy of the early republic Brian Phillips Murphy follows the collaborations between political leaders and a group of unelected political entrepreneurs including Robert R Livingston and Alexander Hamilton who persuaded legislative powers to grant monopolies corporate status in order to finance and manage civic institutions Murphy shows how American capitalism grew out of the convergence of political and economic interests wherein political culture was shaped by business strategies and institutions as much as the reverse Focusing on the state of New York a onetime mercantile colony that became home to the first American banks utilities canals and transportation infrastructure projects *Building the Empire State* surveys the changing institutional ecology during the first five decades following the American Revolution Through sustained attention to the Manhattan Company the steamboat monopoly the Erie Canal and the New York Erie Railroad Murphy traces the ways entrepreneurs marshaled political and financial capital to sway legislators to support their private plans and interests By playing a central role in the creation and regulation of institutions that facilitated private commercial transactions New York State s political officials created formal and informal precedents for the political economy throughout the northeastern United States and toward the expanding westward frontier The political economic and legal consequences organizing the marketplace in this way continue to be felt in the vast influence and privileged position
