Reading-Writing Connections Mary F. Heller, 1999-04-01 Reading Writing Connections From Theory to Practice is an extraordinary language arts methods text that enables elementary and middle school teachers to create classroom environments where all students can become lifelong readers and writers Focusing on developmentally appropriate methods and materials this remarkably readable book empowers a new generation of teachers to integrate reading writing listening and speaking in K-8 classrooms Heller's highly accessible writing style makes this book suitable as a primary text for undergraduate and graduate courses in language arts reading writing and literacy Special features of this second edition include a vision of how to transform cutting edge theory and research into classroom practice that utilizes integrated language arts instruction a unique developmental perspective with separate chapters on teaching methods and materials for kindergarten primary 1-3 intermediate 4-6 and middle grades 7-8 instructional guidelines that offer generous detailed suggestions for applying theory to practice plus For You to Try and For Your Journal exercises that encourage critical thinking and reflection and a wealth of classroom vignettes examples of students oral and written language illustrations and figures that accentuate interesting and informative theory research and practice In addition Reading Writing Connections offers expanded content on the impact of sociocultural theory and the whole language movement on the teaching of reading and writing across the curriculum greater emphasis on cultural diversity including new multicultural children's literature booklists that complement the general children's literature bibliographies and current information on alternative assessment emerging technologies the multiage classroom reader response to literature and thematic teaching Reminiscing Our Heritage Danny Walsh, 2017-07-05 This book is designed to be used by anybody working with older adults in residential nursing and day care facilities It provides a wealth of reminiscence material which can be used in a number of ways to rekindle memories and provide stimulating activity such as quizzes and discussion Each year covered in the book is divided into the sections Major events On the home front Music Television Screen and page Sport and Do you remember Many

sections can be easily turned into quizzes and it would be simple to form a quiz from each year's material. One cannot cover all that happened in these years nor highlight all the associations each event or fact triggers so the material is intended to be expanded on by the memories it triggers in clients during discussion. So for example where a film title is mentioned ask if people can recall the stars of the film its plot and how it ended. The Major events section will trigger lots of opinions too as it covers the political events of the decades so try to get the groups to discuss the ethical and moral dilemmas these posed at the time. The book is intended for use with individuals and groups but you will discover that in a group one person's memories will trigger another's and so what seems like a small topic can last for the whole session as we all try to tell our personal tales. While the content has a UK bias it also covers the major world events of the decades but I have included a blank page for each year for you to record your own personal landmarks and achievements and also those of your local town or community specialising in older adults mental health to a deeper level. *The Publishers Weekly*, 1998 Focus on
