The Vanities By Terence Lawlor:

The Vanities Terence Lawlor, 2008 The Cinderella legend takes a star turn in this imaginative and contemporary retelling of the familiar tale Giselle is a savvy and stylish young woman with an unsurpassed talent for hairstyling Orphaned in childhood she has since been confined to the shadows of the palace by Carlotta Delight and Wilhelmina three of the most narcissistic and vain denizens of the court When the town ruler decides to end his reign he proclaims a grand ball where the citizen with the most amazing coiffure will be awarded the crown The three divas squabble to have Giselle execute their creations but when the contest day arrives her masterpiece is concealed by a voluminous hood In a stunning upset she takes a stand against useless vanity and demonstrates to the townspeople that a true leader must never be victim to fashion With one bold move Giselle changes her lot in life and transforms the very roots of society The exquisite collages and extravagant gatefold pages in this volume will captivate readers of all ages while clever rhyming verses celebrate the power of being genuine

Dialogue on Grief and Consolation Terence Lawlor O'Connell, 2009 Have you lost a loved one The loss can be inestimable the grief excruciating What helped you Did someone say something comforting Did someone offer a consolation which you resented Have you ever tried to comfort someone with a terminal illness or one who has lost a loved one Knowing how to help or what to say that is not trite insincere or superficial can be difficult The point of view of a grieving person is quite different from that of those who wish to offer comfort In a multicultural society such as ours anticipating the beliefs of the grieving person can be even more difficult This book explores the perspective of a grieving person It considers the merits and potential harm of alternative comfort strategies As a philosophical analysis of grief it emphasizes an understanding of the beliefs that underlie grief and the usefulness or dangers of emotions Because grief is so complex and sensitive a narrow approach runs the risk of alienating the grieving person The ideas in this book are expressed in a dialogue among three characters Their discussion is broad and fundamental Starting from the familiar consolation She is no longer suffering and the grieving person's resentment toward the expression the three friends articulate the value of life and the evils of death Their discussion enriches their understanding of grief Many consolations offered to mourners are poor arguments Even the better ones do their work best in the context of a greater understanding of grief
