

The background is a vibrant, painterly illustration. In the foreground, a woman's face is depicted with a soft, ethereal glow, her eyes closed or looking down. Her hair is dark and flowing. The background features a sunset or sunrise scene with a bright, glowing sun or moon low on the horizon, casting a warm, orange and red light across the sky. The overall style is dreamlike and artistic, with a focus on light and color.

**The Visitor** Sheri S. Tepper, 2013-08-29 Sheri Tepper one of the foremost science fiction writers in the world gives us an exciting evocative and thought provoking tale where science and magic meet head on A group of colonists waking every few hundred years to see what s been happening on the planet they fled to from a dying Earth watch as the systems and rules they set in place so long ago become debased and decayed The corrupt leaders govern by oppression but technological resources run low and the knowledge of how to replace them is lost in the mists of time Instead the power hungry leaders turn to sorcery of the blackest kind kindled by pain and despair And when they launch a religious crusade to wipe out all those who won t conform to the government s ever more stringent dictates not even the original colonists the new gods are safe from the ravaging sorcery fuelled armies of the righteous *The Sheri S. Torrecilla, Francisco Sáez de Adana, 2024-11-15 The Multiverse as Theory in Postmodern Speculative Fictional Narratives considers the concept of the multiverse beyond the immediacy of being merely an excuse or scenario for the development of stories instead positioning the multiverse as a theoretical method in which speculative fiction narratives can explore diverse issues to bridge ideas across cultural social and philosophical analysis Taking a cross cultural approach the book centres around the critical engagements that literary and media texts have with the representations of the multiverse beyond considering this subject as a mere rhetorical flourish or a passing fad A diverse and international team of authors engage with the multiverse from the point of view of other worlds understanding it not as the appearance of another independent world but as the collision of two or more different worlds into one of them From this key finding the multiverse encourages us to pay attention to the influence that fiction exerts on narratives and world building providing possible frameworks to rethink critical aspects of temporality space self society and culture in contemporary times This pioneering work will interest students and scholars working in the areas of media and cultural studies comparative literature popular culture studies speculative fiction and transmedia studies **Sheri S Tepper SF Gateway Omnibus** Sheri S.
