The Pilgrim's Guide to the Workplace Agustin Chevez, 2022-08-29. This is an Open Access book. Hoping to incubate a unique idea about workplace design, Dr. Agustin Chevez walked in isolation for 42 days from Melbourne to Sydney. His pilgrimage delivered 34 Signposts, a collection of insights which hold the promise to guide us to a better place to work. While firmly positioned within the shifting context of work, the Signposts point away from reactive solutions with a short shelf life. Instead, these markers are infused with a diversity of thought instilled by Agustin's pilgrimage and reclaim the forgotten qualities of solitude, boredom, adversity, and absurdity as mechanisms to deliver innovation and create improved working environments. On his way to Sydney, Agustin relied on maps and people with local knowledge of the lands he traversed. Similarly, in this book, he consults people with local knowledge in various design disciplines: management and technology, as he navigates the many regions of the workplace and work practices covered by the Signposts. When he reaches the end of the known trails, he starts laying paths that take us closer to where the Signposts converge. Agustin writes from the perspective of a pilgrim, architect, workplace consultant, and researcher, and invites you to join him as a fellow pilgrim. You will be rewarded with a journey that revisits our assumptions about the way we use space to host the ever-evolving notion of work, an expedition leading not only to better versions of the workplace but a better version of ourselves. This book takes about three hours to read, and it could take a lifetime to fully extract all the benefits that it contains. This does not suggest that there are not immediate benefits available from reflecting on and applying the Signposts that are core to the book's intellectual contribution.

Peer Review extract: [Reframing Pilgrimage](#) European Association of Social Anthropologists, 2004. This book proposes a radical new agenda for pilgrimage studies, considering such travel as just one of the twenty-first century's many forms of cultural mobility. Prioritizing anthropological arguments about mobility, locality, and belonging over analyses of traditional religious studies, contributors examine the meanings of pilgrimage in world religions as well as in non-religious contexts such as roots tourism.

P 1 **Pilgrimage, Landscape, and Identity** Marion Grau, 2021. *Pilgrimage Landscape and Identity: Reconstructing Sacred Geographies in Norway* explores the ritual geography of a pilgrimage system that arose around medieval saints in Norway, a country now being transformed by petroleum riches, neoliberalism, migration, and global warming. The study maps how pilgrims, hosts, church officials, and government officials participate in reshaping narratives of landscape, sacrality, and pilgrimage as a symbol of life journey, nation identity, Christianity, and Protestant reflections on the durability of medieval Catholic saints.
