Célestin, E. DalMolin, 2016-09-23 Bringing together history literature and popular culture this book provides a cultural history of France from a period of dominance in the mid 19th century to one of decline or crisis in the first few years of the third millennium Contains both chronological narrative and a selection of primary documents in translation **Eating and Being Steven** Shapin, 2024-11-20 What we eat who we are and the relationship between the two Eating and Being is a history of Western thinking about food eating knowledge and ourselves In modern thought eating is about what is good for you not about what is good Eating is about health not about virtue Yet this has not always been the case For a great span of the past from antiquity through about the middle of the eighteenth century one of the most pervasive branches of medicine was known as dietetics prescribing not only what people should eat but also how they should order many aspects of their lives including sleep exercise and emotional management Dietetics did not distinguish between the medical and the moral nor did it acknowledge the difference between what was good for you and what was good Dietetics counseled moderation in all things where moderation was counted as a virtue as well as the way to health But during the nineteenth century nutrition science began to replace the language of traditional dietetics with the vocabulary of proteins fats carbohydrates and calories and the medical and the moral went their separate ways Steven Shapin shows how much depended upon that shift and he also explores the extent to which the sensibilities of dietetics have been lost Throughout this rich history he evokes what it felt like to eat during another historical period and invites us to reflect on what it means to feel about food as we now do Shapin shows how

the change from dietetics to nutrition science fundamentally altered how we think about our food and its powers our bodies and our minds The Pleasures of the Table Brillat-Savarin, 2011 The Secret of Cooking Bee Wilson, 2023-09-26 One of The New Yorker's Fifteen Essential Cookbooks A New York Times WBUR Here fast medium and slow ragus and seven ways to cook a carrot Alongside thoughts on how to cook when you re alone with children or just plain tired Bee offers 140 recipes including the simplest chicken stew even the pickiest of eaters aka children will love Zucchini and Herb Fritters a Grated Tomato and Butter Pasta Sauce with or without shrimp and other ways of making your box grater work for you salads to savor like a tuna salad with anchovy dressing leisurely projects like an Aromatic All Purpose Curry Powder and quicker food for friends try Bulgar and Eggplant Pilaf with pistachio and lemon the loveliest red curry sauce you can make in your instant pot universal desserts or those gluten free and dairy free sweets that you can serve no matter who comes over like a Vegan Pear Lemon and Ginger Cake With advice on seasoning cleaning up and choosing the best equipment Wilson reimagines modern cooking and brings the spark back into everyday meals As Bee says There's still magic in the kitchen if vou know where to look Shall we cook Routledge International Handbook of Food Studies Ken Albala, 2013-05-07 Over the past decade there has been a remarkable flowering of interest in food and nutrition both within the popular media and in academia Scholars are increasingly using foodways food systems and eating habits as a new unit of analysis within their own disciplines and students are rushing into classes and formal degree programs focused on food Introduced by the editor and including original articles by over thirty leading food scholars from around the world the Routledge International Handbook of Food Studies offers students scholars and all those interested in food related research a one stop easy to use reference guide Each article includes a brief history of food research within a discipline or on a particular topic a discussion of research methodologies and ideological or theoretical positions resources for research including archives grants and fellowship opportunities as well as suggestions for further study Each entry also explains the logistics of succeeding as a student and professional in food studies This clear direct Handbook will appeal to those hoping to start a career in academic food studies as well as those hoping to shift their research to a food related project Strongly interdisciplinary this work will be of interest to students and scholars throughout the social sciences and humanities The History of Rioja Wine Ludger Mees, 2022-07-21 This title was a prize winner at the OIV International Organisation of Vine and Wine Awards 2023 The History of Rioja Wine offers an informative chronological and in depth account of Rioja wine from the mid nineteenth century to the present This book illuminates the fascinating and largely unknown success story of Rioja wine Drawing on illustrative sources the volume traces the economic social cultural and political evolution of Rioja wine from the 1850s to the present day concluding with a reflection on the lesson its appealing success story offers to any lover of history and wine The book is adorned with historical photographs throughout the majority previously unpublished An ideal companion both for students interested in Spanish history and wine enthusiasts more generally this volume offers readers the opportunity to uncork the
