Athletes' Careers Across Cultures Natalia B. Stambulova, Tatiana V. Ryba, 2013-06-07 *Athletes Careers Across Cultures* is the first book of its kind to bring together a truly global spread of leading sports psychology career researchers and practitioners into one comprehensive resource. This extensive volume traces the evolution of athlete career research through a cultural lens and maps the complex topography of athletes' careers across national boundaries, exploring how social and cultural discourses shape their development. The area of athlete career development has traditionally been dominated by a Western perspective, an imbalance which has had a considerable influence on the shaping of career studies more generally. Stambulova and Ryba adopt a more culturally sensitive approach, offering a comprehensive analytical review of athlete career research and assistance in 19 different nations. The authors employ diverse theoretical, methodological and practical ideas to demonstrate how local knowledge enables a better understanding of the dynamics of cultural diversity within the field. *Athletes Careers Across Cultures* considers the cultural praxis of athletes' careers as a practical implication of the cultural turn. As such, it will stimulate the development of culturally situated career research and assistance and be an invaluable and internationally relevant resource for academics, professionals and students working in sport and exercise psychology.

Athletes' Careers Across Cultures Natalia B. Stambulova, Tatiana V. Ryba, 2013. First Published in 2013. Routledge is an imprint of Taylor & Francis, an informa company. **Career Transitions in Sport** David Lavalley, Paul Wylleman, 2000. This book was written for sport psychologists and other practitioners who are concerned with the well-being of athletes who are facing the difficult transition from a sports career and the regret, anxiety and identity loss that can accompany retirement. This is a groundbreaking collaboration by international scholars providing an overview of empirical, theoretical and applied perspectives on sports career transitions. *Athlete Learning in Elite Sport* Natalie Barker-Ruchti, 2019-02-05. Elite athletes lead a particular way of life which creates significant learning and shapes their selves. This is the first sociological, pedagogical text to conceptualise athlete learning in elite sport and across athletic careers. It outlines theories of learning and argues for a cultural perspective capturing contextual influence, temporal changes, individual dispositions and subjectivity. Presented in three parts: landscaping elite sport and theorising athlete learning; showcasing athletes' learning in elite sport; and informing research and practice, the book features nine international, multi-contextual and multi-experience case studies of athletes' careers, experiences and learning across individual and team sports such as boxing, rugby, basketball, hockey and gymnastics. This is fascinating reading for students, researchers and practitioners in sport organisations, sports coaching, coach education and sport sociology and pedagogy.
