Sherman's March in Myth and Memory Edward Caudill, Paul Ashdown, 2009-09-16 General William Tecumseh Sherman's devastating March to the Sea in 1864 burned a swath through the cities and countryside of Georgia and into the history of the American Civil War As they moved from Atlanta to Savannah destroying homes buildings and crops killing livestock and consuming supplies Sherman and the Union army ignited not only southern property but also imaginations in both the North and the South By the time of the general's death in 1891 when one said The March no explanation was required That remains true today Legends and myths about Sherman began forming during the March itself and took more definitive shape in the industrial age in the late nineteenth century Sherman's March in Myth and Memory examines the emergence of various myths surrounding one of the most enduring campaigns in the annals of military history Edward Caudill and Paul Ashdown provide a brief overview of Sherman's life and his March but their focus is on how these myths came about such as one description of a 60 mile wide path of destruction and how legends about Sherman and his campaign have served a variety of interests Caudill and Ashdown argue that these myths have been employed by groups as disparate as those endorsing the Old South aristocracy and its Lost Cause and by others who saw the March as evidence of the superiority of industrialism in modern America over a retreating

agrarianism Sherman's March in Myth and Memory looks at the general's treatment in the press among historians on stage and screen and in literature from the time of the March to the present day The authors show us the many ways in which Sherman has been portrayed in the media and popular culture and how his devastating March has been stamped into our collective memory **Through the Heart of Dixie** Anne S. Rubin, 2014 *Through the Heart of Dixie Sherman's March and American Memory* *The Spectre of Defeat in Post-War British and US Literature* David Owen, Cristina Pividori, 2021-01-22 It is a commonplace belief that history is written by the victorious However less recognised but equally common is the idea that the defeated also write history even if their particular account is rather different This collection looks at these matters from a novel and distinct perspective It essentially presents the idea that victors often perceive themselves as defeated by examining the ways in which the idea of defeat comes to dominate the victors own sense of superiority and achievement thereby undermining the certainties that victory is conventionally thought to create The contributions here discuss fiction mostly UK and US published since the First World War Through the frameworks of experience memory and post memory they examine this subliminal defeat basically as seen in conflict itself in the societies that it affects and in the individual lives of those who it destroys The result is an innovative literary account of the victorious yet somehow defeated Companion to Literature Abby H. P. Werlock, 2009 Praise for the previous edition Booklist RBB Twenty Best Bets for Student Researchers RUSA ALA Outstanding Reference Source useful Recommended for public libraries and undergraduates As It Was David Sarles, 2024-04-30 *As It Was* traces the challenges the author faces looking inward in traveling outward and discovering in American writers stories of flight loss guilt posturing and love the challenges confronting readers *Encyclopedia of the American Short Story* Abby H. P. Werlock, 2015-04-22 Two volume set that presents an introduction to American short fiction from the 19th century to the present **WLA**, 2009 *The Oxford Handbook of the Literature of the U.S. South* Fred Hobson, Barbara Ladd, 2016 The Oxford Handbook of the Literature of the U S South brings together contemporary views of the literature of the region in a series of chapters employing critical tools not traditionally used in approaching Southern literature It assumes ideas of the South global multicultural plural more Souths than South that would not have been embraced two or three decades ago and it similarly expands the idea of literature itself Representative of the current range of activity in the field of Southern literary studies it challenges earlier views of antebellum Southern literature as well as in its discussions of twentieth century writing questions the assumption that the Southern Renaissance of the 1920s 1930s and 1940s was the supreme epoch of Southern expression that writing to which all that had come before had led and by which all that came afterward was judged As well as canonical Southern writers it examines Native American literature Latina o literature Asian American as well as African American literatures Caribbean studies sexuality studies the relationship of literature to film and a number of other topics which are relatively new to the field *Bad Advice* Harold H. Bruff, 2009 A scathing critique of President Bush's legal advisors who expanded the reach of his executive powers while

creating highly controversial policies for fighting the War on Terror Argues that these advisors blinded by ideology provided largely bad legal advice that caused great harm and ultimately was unnecessary for national security

Encyclopedia of the American Novel Abby H. P. Werlock, 2015-04-22 Praise for the print edition no other reference work on American fiction brings together such an array of authors and texts as this *The Economist*, 2005 [A Late Encounter with the Civil War](#)

Michael Kreyling, 2014-02-01 In *A Late Encounter with the Civil War* Michael Kreyling confronts the changing nature of our relationship to the anniversary of the war that nearly split the United States When significant anniversaries arrive in the histories of groups such as families businesses or nations their members set aside time to formally remember their shared past This phenomenon this social or collective memory reveals as much about a group's sense of place in the present as it does about the events of the past So it is with the Civil War As a nation we have formally remembered two Civil War anniversaries the 50th and 100th We are now in the complicated process of remembering the war for a third time Kreyling reminds us that we were a different we for each of the earlier commemorations and that we are certainly different now and not only because the president in office for the 150th anniversary represents a member of the race for whose emancipation from slavery the war was waged These essays explore the conscious and unconscious mechanisms by which each era has staged written and thought about the meaning of the Civil War Kreyling engages the not quite conscious agendas at work in the rituals of remembering through fiction film graphic novels and other forms of expression Each cultural example wrestles with the current burden of remembering What are we attempting to do with a memory that to many seems irrelevant or so far in the past as to be almost irretrievable

The Civil War in Georgia John C. Inscoe, 2011-09-01 Georgians like all Americans experienced the Civil War in a variety of ways Through selected articles drawn from the New Georgia Encyclopedia www.georgiaencyclopedia.org this collection chronicles the diversity of Georgia's Civil War experience and reflects the most current scholarship in terms of how the Civil War has come to be studied documented and analyzed The Atlanta campaign and Sherman's March to the Sea changed the course of the war in 1864 in terms both of the upheaval and destruction inflicted on the state and the life span of the Confederacy While the dramatic events of 1864 are fully documented this companion gives equal coverage to the many other aspects of the war naval encounters and guerrilla warfare prisons and hospitals factories and plantations politics and

policies all of which provided critical support to the Confederacy's war effort The book also explores home front conditions in depth with an emphasis on emancipation dissent Unionism and the experience and activity of African Americans and women Historians today are far more conscious of how memory as public commemoration individual reminiscence historic preservation and literary and cinematic depictions has shaped the war's multiple meanings Nowhere is this legacy more varied or more pronounced than in Georgia and a substantial part of this companion explores the many ways in which Georgians have interpreted the war experience for themselves and others over the past 150 years At the outset of the sesquicentennial these new historical perspectives allow us to appreciate the Civil War as a complex and multifaceted experience for Georgians and for all southerners A Project of the New Georgia Encyclopedia Published in Association with the Georgia Humanities Council and the University System of Georgia GALILEO
