of Jane Austen's novels. The carefully selected sources range from landmark essays in the history of criticism to journalism and contemporary opinion and little published documentary material such as letters and diaries. Significant pieces of criticism from later periods are also included in order to demonstrate the fluctuations in an author's reputation. Each volume contains an introduction to the writer's published works, a selected bibliography and an index of works, authors and subjects. The Collected Critical Heritage set will be available as a set of 68 volumes and the series will also be available in mini sets selected by period in slipcase boxes and as individual volumes.

The Fiction of George Gissing Lewis D. Moore, 2014-01-10

Most of George Gissing's 23 novels have a certain air of autobiography despite Gissing's frequent arguments that his fictional plots bear little resemblance to his own life and experiences. Starting with *Workers in the Dawn* 1880, almost all of Gissing's fictional works are set in his own time period of late Victorian England and five of his first six novels focus on the working class poor that Gissing would have encountered frequently during his early writing career. While most recent criticism focuses on Gissing's works as biographical narratives, this work approaches Gissing's novels as purely imaginative works of art, giving him the benefit of the doubt regardless of how well his books seem to match up with the events of his own life. By analyzing important themes in his novels and recognizing the power of the artist's imagination, especially through the critical works of Coleridge, Wordsworth, Shelley and Keats, the author reveals how Gissing's novels present a lived feel of the world Gissing knew firsthand. The author asserts that at most Gissing used his personal experiences as a starting point to transform his own life and thoughts into stories that explain the social, personal and cultural significance of such experiences.

Hutcheon, 2021-06-22. This collection explores Gissing's place in the narrative of fin de siècle literature. Together, chapters here theorise how late Victorian spatial and generic norms are confronted, explored and performed in Gissing's works. In addition to presenting new readings of the major novels and introducing readers to lesser-known works, the collection advocates Gissing's importance as a journalist, short story and travel writer. It also recognises Gissing as a central proponent
