Dick, 2011-11-08 A glimpse into the mind of the bestselling science fiction author through a collection of his personal metaphysical religious visionary writings Based on thousands of pages of typed and handwritten notes journal entries letters and story sketches The Exegesis of Philip K Dick is the magnificent and imaginative final work of an author who dedicated his life to questioning the nature of reality and perception the malleability of space and time and the relationship between the human and the divine Edited and introduced by Pamela Jackson and Jonathan Lethem this will be the definitive presentation of Dick s brilliant and epic final work In The Exegesis Dick documents his eight year attempt to fathom what he called 2 3 74 a postmodern visionary experience of the entire universe transformed into information In entries that sometimes ran to hundreds of pages Dick tried to write his way into the heart of a cosmic mystery that tested his powers of imagination and invention to the limit adding to revising and discarding theory after theory mixing in dreams and

The Hidden Pattern Ben Goertzel,2006 The Hidden Pattern presents a novel philosophy of mind intended to form a coherent conceptual framework within which it is possible to understand the diverse aspects of mind and intelligence in a unified way The central concept of the philosophy presented is the concept of pattern minds and the world they live in and co create are viewed as patterned systems of patterns evolving over time and various aspects of subjective experience and individual and social intelligence are analyzed in detail in this light Many of the ideas presented are motivated by recent research in artificial intelligence and cognitive science and the author's own AI research is discussed in moderate detail in one chapter However the scope of the book is broader than this incorporating insights from sources as diverse as Vedantic philosophy psychedelic psychotherapy Nietzschean and Peircean metaphysics and quantum theory One of the unique aspects of the patternist approach is the way it seamlessly fuses the mechanistic engineering oriented approach to intelligence and the introspective experiential approach to intelligence **The Three Stigmata of Palmer Eldritch** Philip Kindred

Dick,1998 [The Cambridge Companion to American Utopian Literature and Culture since 1945](#) Sherryl Vint,2024-05-16 Providing a comprehensive overview of American thought in the period following World War II after which the US became a global military and economic leader this book explores the origins of American utopianism and provides a trenchant critique

from the point of view of those left out of the hegemonic ideal Centring the voices of those oppressed by or omitted from the consumerist American Dream this book celebrates alternative ways of thinking about how to create a better world through daily practices of generosity justice and care The chapters collected here emphasize utopianism as a practice of social transformation not as a literary genre depicting a putatively perfect society and urgently make the case for why we need utopian thought today With chapters on climate change economic justice technology and more alongside chapters exploring utopian traditions outside Western frameworks this book opens a new discussion in utopian thought and theory The Postmodern Humanism of Philip K. Dick Jason P. Vest, 2009-02-17 From his 1952 short story Roog to the novels The Divine Invasion and VALIS few authors have had as great of an impact in the latter half of the 20th century as Philip K Dick In The Postmodern Humanism of Philip K Dick Jason Vest explores the work of this prolific subversive and mordantly funny science fiction writer He examines how Dick adapted the conventions of science fiction and postmodernism to reflect humanist concerns about the difficulties of maintaining identity agency and autonomy in the latter half of the 20th century In addition to an extensive analysis of the novel Now Wait for Last Year Vest makes intellectually provocative comparisons between Dick and the works of Franz Kafka Jorge Luis Borges and Italo Calvino He offers a detailed examination of Dick s literary relationship to all three authors illuminating similarities between Dick and Kafka that have not previously been discussed as well as similarities between Dick and Borges that scholars frequently note but fail to explore in detail Like Kafka Borges and Calvino Dick employs fantastic unreal and visionary fiction to reflect the disruptions dislocations and depressing realities of twentieth century life By comparing him to these other writers Vest demonstrates that Dick s fiction is a fascinating barometer of postmodern American life even as it participates in an international tradition of visionary literature **Philip K. Dick, Electric Shepherd** Bruce Gillespie, 1975 **The Multiverse as Theory in Postmodern Speculative Fictional Narratives** Angélica Cabrera Torrecilla, Francisco Sáez de Adana, 2024-11-15 The Multiverse as Theory in Postmodern Speculative Fictional Narratives considers the concept of the multiverse beyond the immediacy of being merely an excuse or scenario for the development of stories instead positioning the multiverse as a theoretical method in which speculative fiction narratives can explore diverse issues to bridge ideas across cultural social and philosophical analysis Taking a cross cultural approach the book centres around the critical engagements that literary and media texts have with the representations of the multiverse beyond considering this subject as a mere rhetorical flourish or a passing fad A diverse and international team of authors engage with the multiverse from the point of view of other worlds understanding it not as the appearance of another independent world but as the collision of two or more different worlds into one of them From this key finding the multiverse encourages us to pay attention to the influence that fiction exerts on narratives and world building providing possible frameworks to rethink critical aspects of temporality space self society and culture in contemporary times This pioneering work will interest students and scholars working in the areas of media and cultural studies comparative literature popular

culture studies speculative fiction and transmedia studies **The Cybernetic Imagination in Science Fiction** Patricia S. Warrick, 1980 Science fiction criticism Focuses on literary scientific material **Five Great Novels** Philip K. Dick, 2004 This volume contains *DO ANDROIDS DREAM OF ELECTRIC SHEEP* filmed as *BLADERUNNER* *MARTIAN TIME SLIP* *UBIK* *THE THREE STIGMATA OF PALMER ELDRITCH* and *A SCANNER DARKLY* Taken together they represent the best of Philip K. Dick's unique imagination In Dick's writing nothing is what it seems our sense of the world's order is fatally undermined and mass media tells us nothing but artful lies Films such as *THE MATRIX* and *THE TRUMAN SHOW* would not have been made but for Philip K. Dick His work has never been more timely **Crossroads in Literature and Culture** Jacek Fabiszak, Ewa Urbaniak-Rybicka, Bartosz Wolski, 2012-11-05 The book contains a selection of papers focusing on the idea of crossing boundaries in literary and cultural texts composed in English The authors come from different methodological schools and analyse texts coming from different periods and cultures trying to find common ground the theme of the volume between the apparently generically and temporarily varied works and phenomena In this way a plethora of perspectives is offered perspectives which represent a high standard both in terms of theoretical reflection and in depth analysis of selected texts Consequently the volume is addressed to a wide scope of both scholars and students working in the field of English and American literary and cultural studies furthermore it will be of interest also to students interested in theoretical issues linked with investigations into literature and culture *The Ex-Human* Michael Bérubé, 2024-05-28 Facing threats like climate change and nuclear warfare science fiction authors have conjured apocalyptic scenarios of human extinction Can such gloomy fates help us make sense of our contemporary crises How important is the survival of our species if we wind up battling for an Earth that has become an uninhabitable hellscape What other possible futures do narratives of the end of humanity allow us to imagine Michael Bérubé explores the surprising insights of classic and contemporary works of SF that depict civilizational collapse and contemplate the fate of *Homo sapiens* In a lively conversational style he considers novels by writers including Ursula K. Le Guin Margaret Atwood Liu Cixin Philip K. Dick and Octavia Butler as well as films that feature hostile artificial intelligence such as *2001 A Space Odyssey* *Blade Runner* and the *Terminator* and *Matrix* franchises Bérubé argues that these works portray a future in which we have become able to see ourselves from the vantage point of something other than the human Though framed by the possibility of human extinction they are driven by a vision of the ex-human a desire to imagine that another species is possible For all science fiction readers worried about the fate of humanity *The Ex-Human* is an entertaining yet sobering account of how key novels and films envision the world without us
