WOLFGANG HERRNDORF

Tschick By Wolfgang Herrndorf

Gijs Mom

Tschick By Wolfgang Herrndorf:

Why We Took the Car Wolfgang Herrndorf, 2014-02-06 Mike doesn't get why people think he's boring. Sure he doesn't have many friends. OK, zero friends. And everyone laughs at him when he reads his essays out loud in class. And he's never invited to parties. But one day Tschick, the odd new boy at school, shows up at Mike's house out of the blue. He dares him to go on a road trip with him. No parents, no map, no destination. Will they get hopelessly lost in the middle of nowhere? Probably. Will they meet crazy people and get into serious trouble? Definitely. But will they ever be called boring again? Not a chance. You will see the world with different eyes after reading this novel. Rolling Stone Winner of the German Teen Literature Prize.

Tschick Wolfgang Herrndorf, 2011-02-01 Zwei Jungs. Ein geknackter Lada. Eine Reise voller Umwege durch ein unbekanntes Deutschland. Mutter in der Entzugsklinik. Vater mit Assistentin auf Geschäftsreise. Maik Klingenberg wird die großen Ferien allein am Pool der elterlichen Villa verbringen. Doch dann kreuzt Tschick auf. Tschick, eigentlich Andrej Tschichatschow, kommt aus einem der asiatischen Hochhäuser in Hellersdorf. Hat es von der Förderschule irgendwie bis aufs Gymnasium geschafft und wirkt doch nicht gerade wie das Musterbeispiel der Integration. Außerdem hat er einen geklauten Wagen zur Hand. Und damit beginnt eine unvergessliche Reise ohne Karte und Kompass durch die sommerglühende deutsche Provinz. Auch in fünfzig Jahren wird dies noch ein Roman sein, den wir lesen wollen. Aber besser man fängt gleich damit an.

Felicitas von Lovenberg Frankfurter Allgemeine Zeitung [Spaces of Adolescence](#) Anna Stemmann, 2023-03-13 Adolescence is a phase of transition, change, and upheaval. These processes are often translated into movements through space in literary representations. The narrated space is to be read in its construction and semantics as a complex symbol carrier that is able to connect different dimensions with one another. The study develops with reference to cultural scientific spatial theories a methodical model to analyze current youth novels from a topographical perspective and thus to discuss the interweaving of space, movement, and growing up. In the cultural studies and narratological view of narrative spaces of adolescence, new trends and developments in youth literature after 2000 manifest themselves. This book is a translation of the original German 1st edition *Räume der Adoleszenz* by Anna Stemmann, published by J.B. Metzler, part of Springer Nature, in 2019. The translation was done with the help of artificial intelligence machine translation by the service DeepL.com. A subsequent human revision was done primarily in terms of content so that the book will read stylistically differently from a conventional translation. Springer Nature works continuously to further the development of tools for the production of books and on the related technologies to support the authors.

The Routledge Handbook of German Language Teaching Ruth Whittle, 2024-09-16 The Routledge Handbook of German Language Teaching evaluates and addresses multifaceted, multilevel needs of students and teachers within teaching German as a foreign as well as a second language through taking a transcultural approach. Each contribution starts with the author situating themselves in the geographical and institutional context in which they teach, as well as the way in which they teach, for example in person or online. This acknowledges the

Handbook s internationally widespread contributors from countries with different histories in terms of cultural linguistic and educational diversity more generally and the teaching of German in particular The chapters reflect their voices and consider language learners as people who have their own identities Material such as plays poems short literary texts rap singing and drawing are discussed in this book as being influential for language learners from beginner level and beyond This book proposes that learning happens by both the teachers and the learners going on a journey and both changing the outlook on each other and themselves along that journey Alongside this questions are asked with respect to curricula and the relation between speaking German and belonging in a German speaking country This Handbook will primarily appeal to teachers and instructors of German as well as those training to become German language instructors Moreover the book will appeal to researchers interested in the linguistic and theoretical aspects of German language teaching

Heimat and Migration

Josef Stuart Len Cagle, Thomas Herold, Gabriele Maier, 2023-02-20 Discourses of Heimat and of migration both negotiate questions of identity belonging and integration moreover despite the reemergence of right wing racist and exclusionary uses of the term Heimat there are in fact more recent German language cultural texts that problematize and challenge a view of Heimat as a community that excludes the Other than there are promulgating it This volume addresses the parallel proliferation of discourses of Heimat and of migration in contemporary German language culture and demonstrates that the entanglement of migration and Heimat can be productive it can help us to reframe what it means to have a home to lose one find one or belong to one

The Wounded Self Nina Schmidt, 2018 Takes the recent wave of German autobiographical writing on illness and disability seriously as literature demonstrating the value of a literary disability studies approach

The Book's Road in the Age of Digitization Janina Krieger, 2023-01-28 Although every area of life is permeated by digital processes the majority of Germans seem to resist digital alternatives with regard to the activity of reading The printed book continues to enjoy much greater popularity than the eBook This seems surprising since the entire communication behavior has moved to digital devices So what lies behind this Why are there still printed books in digital times Previous studies of the printed book have focused primarily on its media future as this seemed threatened by digitization In this work Janina Krieger instead examines the past from three perspectives in order to gain insights into the present While other studies always chose one method and these mostly belonged to the quantitative approach here three subjects are identified which are examined with different methods and in their combination can provide an answer to the research question the consumers of literature the readers literature itself the selected genre is the novel and the media theories of the 20th century which have already dealt with media change
