[Moments that Matter in the Learning and Development of Children](#) Kelly Ann Kolodny, 2020-08-01

Moments that Matter in the Learning and Development of Children: Reflections from Educators explores the significant moments that unfold for young people in their schooling from the perspectives of teachers and school staff. Educators often reflect on moments as being a critical piece of their work with children. They can help make things better for students and produce a difference in lives. They are meaningful for young people as well as consequential for teachers and school staff as they reflect on the outcomes of their efforts. Yet as they are difficult to define and capture, these moments often are not studied for the value they offer. This book promotes awareness of these moments as well as their connected meanings and possibilities. Recognizing the significance of moments extends an opportunity to situate schooling in broader contexts and to understand learners as whole embodied beings engaged in social interactions, making sense of their surrounding world and generating transformations in it. When educators reflect deeply about the possibilities connected to the moments they share with children, they recognize the multitude of opportunities that support their learning and development. They become awake to some of moments' promises.
