Norman, 2021-01-05 In a career that spanned over thirty years Iain M Banks became one of the best loved and most prolific writers in Britain with his space opera series concerned with the pan galactic utopian civilisation known as the Culture widely regarded as his most significant contribution to science fiction The Culture of The Culture focuses solely on this series providing a comprehensive thematic analysis of Banks s Culture stories

from *Consider Phlebas* to *The Hydrogen Sonata* It explores the development of Banks's political philosophical and literary thought arguing that the Culture offers both an image of a harmonious civilisation modelled on an alternative socialist form of globalisation and a critique of our neo liberal present As Joseph Norman explains the Culture is the result of an ongoing utopian process attempting through the application of technoscience to move beyond obstacles to progress such as imperialism capitalism the human condition religious dogma patriarchy and crises in artistic representation The Culture of The Culture defines Banks's creation as culture a utopian way of doing of being of seeing an approach an attitude and a lifestyle that has enabled and is evolving alongside utopia rather than an image of a static end state *Rethinking*

Democracy for Post-Utopian Worlds Jorge León Casero, Julia Urabayan, 2024-06-06 This book is both a conceptualization and detailed analysis of the current crisis in which modern utopian categories of political institutions find themselves as well as a reflection and clarification of the new dangers and opportunities facing post utopian politics in the making Met with those who believe that no more utopian political projects are possible the post utopian movement maintains a non fantastic or illusory character of being able to apply new great discourses and radically democratic historical narratives while respecting both the autonomy and emancipation of individuals as plurality and the socio cultural differences of communities With this purpose in mind the book is divided into five thematically differentiated sections the new utopian categories beyond modern epistemes the possibility of liberal utopian democracies without neoliberalism the opportunities of socialist empowerments and insurgencies the necessity of thinking in the space between two ages and the urgency to create eco political post utopias
