Sigurd's Lament Benjamin John Peters, 2017-07-14 In literature the advice often given is to show and not tell In academia it is the opposite tell and do not show Sigurd's Lament is a text that asks the question can scholarship show rather than tell On the surface it is the collected work of a mid twentieth century scholar Hawthorne Basil Peters who has curated the life's work of his father the translation of a Welsh epic into the alliterative meter of the English Revival The poem is produced in full but so too is the historic introduction commentary and academic apparatus Peters for the first time shares with the world his father's wonderful translation and his previously unpublished academic ideas In a text rife with distention however Peters draws the reader's attention to the unexpected flexibility of language and asks only one thing in return drink deeply For Sigurd's Lament is a text of the most serious play It is ambiguous and obfuscating and riddled with footnotes that have lurking within them like goblins in the weeds future tales of past narratives
