Chris Peck, 2013-10-24 This book and its author grew up together The 1960s in America transformed everyone who lived through this amazing time in our nation s history Civil rights laws were fought for and passed women began to find a voice and break down barriers Immigrant workers and Native Americans raised their voices We became a smarter more aware nation for a while The Vietnam War became a symbol of those times The music helped define us and the illegal use of banned substances gave some of us the temporary courage to face the insanity head on The ranch is a mostly accurate first person account of one young man s strange journey from gung ho high school student to landing himself in the middle of the world s most dangerous navy Our hero slowly evolves into a war resister who gets into the exact amount of trouble to get assigned to a horse ranch in the U S Navy There are a few rants that I included for mostly therapeutic reasons and several well chosen fits of profanity that help to paint the military experience as it was and I believe still is to this day I consider this book funny and thoughtful but then I m severely prejudiced I wrote this back cover account myself because George Carlin and Joseph Heller had busy schedules in the afterlife and I don t know Sara Silverman yet The Ranch is my first attempt at being considered a writer I have plans to write a second book which will document my experience as a telephone man in Northeast New Jersey There will be plenty of danger sex drugs and rock and roll with a hint of The Sopranos so don t spoil my enthusiasm and buy this book Thanks America Simply Indispensable Janice Gilmore-See, 2010-08-13 A structured approach to advocacy for K 12 school librarians focuses their energy on an active path that showcases library programs and resources and expresses the essential role librarians serve in school and student success Keeping a library program vital

requires regular reflection about current practices and a willingness to implement changes that will position the library and library staff should they be threatened with elimination Simply Indispensable An Action Guide for School Librarians helps librarians do just that The book begins with an explanation of the need to act and then offers a systematic approach to taking action Each chapter is devoted to an active path attracting patrons interacting with teachers parents administrators and the community communicating reacting to situations working for reinstatement if the worst happens and more The book covers advocacy from the subtle exercise of developing excellent programs to the overt outreach of Legi Days Additionally there is specific information about what to do when the RIF notice or pink slip arrives or if cuts are made including how to properly close a library After putting these actions into effect school librarians will have a cadre of supporters ready to speak for them should the need arise
