English Language Teacher Education in Changing Times Liz England, Lía D. Kamhi-Stein, Georgios Kormpas, 2023-03-28

This volume addresses challenges that the field of English language teacher education has faced in the past several years. The global pandemic has caused extreme stress and has also served as a catalyst for new ways of teaching, learning, and leading. Educators have relied on their creativity and resiliency to identify new and innovative teaching practices and insights that inform the profession going forward. Contributors describe how teacher educators have responded to the specific needs and difficulties of educating teachers and teaching second language learners in challenging circumstances around the world and how these innovations can transform education going forward into the future. Paving the way for a revitalized profession, this book is essential reading for the current and future generations of TESOL scholars, graduate students, and professors.

English Language Education in Rural Contexts, 2023-06-05. Reaching out into the rural English teaching and learning environment led to compiling these chapters that exemplify the possibilities and achievements of teachers worldwide. Often with overly large classes, isolation, and few resources, English instruction leads to extrinsic success for their students with future educational, professional, and economic outcomes. In other instances, the fruits of teachers' labor become intrinsic motivators for learners who value learning and critical thinking. English in the international curriculum has perceived value for developing human and social capital, as indicated in these authors' personal and professional journeys. This volume was originally begun by Paul Chamness Iida, who sadly passed away in June 2021. The editors have done their best to complete this project as he envisioned and share this work in his honor. Contributors are Mary Frances Agnello, Md Al Amin Naoko Araki, Monica A.
