Dbe English Second Language Paper 1 2014:

Handbook of Research on Inclusive and Accessible Education Maguvhe, Mbulaheni Obert, Mpya, Nwacoye Gladness, Sadiki, Marubini Christinah, 2024-02-16 In the vast expanse of education a pervasive issue remains in the marginalization and lack of visibility of individuals with disabilities Despite a strong desire for inclusivity recent research suggests that fewer than 5% of children with disabilities in 51 countries across sub Saharan Africa and South Asia are enrolled in primary school This exclusion is not solely in enrollment numbers even those who manage to attend face learning environments ill equipped to adapt to their needs leading to further isolation Girls with disabilities in particular endure heightened vulnerability to abuse reflecting a systemic failure to provide an environment that fosters equality dignity and respect for all The Handbook of Research on Inclusive and Accessible Education emerges as an inspiration for change providing a profound solution to the persistent issue of exclusion The book encapsulates a collective effort to reimagine education It advocates for a paradigm shift moving away from the confinement of special schools and towards inclusive mainstream settings By addressing controversies sharing successes and outlining prospects the book serves as a comprehensive guide for special school governing bodies curriculum advisors university lecturers and all stakeholders committed to reshaping education

South African Schooling: The Enigma of Inequality Nic Spaull, Jonathan D. Jansen, 2019-11-05 This volume brings together many of South Africa's leading scholars of education and covers the full range of South African schooling from financing and policy reform to in depth discussions of literacy numeracy teacher development and curriculum change The book moves beyond a historical analysis and provides an inside view of the questions South African scholars are now grappling with Are there different and preferential equilibria we have not yet thought of or explored and if so what are they In practical terms how does one get to a more equitable distribution of teachers resources and learning outcomes While decidedly local these questions resonate throughout the developing world South Africa today is the most unequal country in the world The richest 10% of South Africans lay claim to 65% of national income and 90% of national wealth This is the largest 90/10 gap in the world and one that is reflected in the schooling system Two decades after apartheid it is still the case that the life chances of most South African children are determined not by their ability or the result of hard work and determination but instead by the colour of their skin the province of their birth and the wealth of their parents Looking back on almost three decades of democracy in South Africa it is this stubbornness of inequality and its patterns of persistence that demands explanation justification and analysis This is a landmark book on basic education in South Africa an essential volume for those interested in learning outcomes and their inequality in South Africa The various chapters present conceptually and empirically sophisticated analyses of learning outcomes across divisions of race class and place The book brings together the wealth of decades of research output from top quality researchers to explore what has improved what has not and why Prof Lant Pritchett Harvard University There is much

wisdom in this collection from many of the best education analysts in South Africa No surprise that they conclude that without a large and sustained expansion in well trained teachers early childhood education and adequate school resources South Africa will continue to sacrifice its people s future to maintaining the privileges of the few Prof Martin Carnoy Stanford University Altogether one can derive from this very valuable volume if not an exact blueprint for the future then certainly at least a crucial and evidence based itinerary for the next few steps Dr Luis Crouch RTI *Forging the Golden Urn* Max Oidtmann,2018-07-31 In 1995 the People s Republic of China resurrected a Qing era law mandating that the reincarnations of prominent Tibetan Buddhist monks be identified by drawing lots from a golden urn The Chinese Communist Party hoped to limit the ability of the Dalai Lama and the Tibetan government in exile to independently identify reincarnations In so doing they elevated a long forgotten ceremony into a controversial symbol of Chinese sovereignty in Tibet In *Forging the Golden Urn* Max Oidtmann ventures into the polyglot world of the Qing empire in search of the origins of the golden urn tradition He seeks to understand the relationship between the Qing state and its most powerful partner in Inner Asia the Geluk school of Tibetan Buddhism Why did the Qianlong emperor invent the golden urn lottery in 1792 What ability did the Qing state have to alter Tibetan religious and political traditions What did this law mean to Qing rulers their advisors and Tibetan Buddhists Working with both the Manchu language archives of the empire s colonial bureaucracy and the chronicles of Tibetan elites Oidtmann traces how a Chinese bureaucratic technology a lottery for assigning administrative posts was exported to the Tibetan and Mongolian regions of the Qing empire and transformed into a ritual for identifying and authenticating reincarnations *Forging the Golden Urn* sheds new light on how the empire s frontier officers grappled with matters of sovereignty faith and law and reveals the role that Tibetan elites played in the production of new religious traditions in the context of Qing rule *Differentiation in the Teaching of English Second Language in the Primary School* Transvaal (South Africa).
