The Subject of Crusade Marisa Galvez,2020-04-10 In the Middle Ages religious

crusaders took up arms prayed bade farewell to their families and marched off to fight in holy wars These Christian soldiers also created accounts of their lives in lyric poetry putting words to the experience of personal sacrifice and the pious struggle associated with holy war The crusaders affirmed their commitment to fighting to claim a distant land while revealing their feelings as they left behind their loved ones homes and earthly duties Their poems and related visual works offer us insight into the crusaders lives and values at the boundaries of earthly and spiritual duties body and soul holy devotion and courtly love In *The Subject of Crusade* Marisa Galvez offers a nuanced view of holy war and crusade poetry reading these lyric works within a wider conversation with religion and culture Arguing for an interdisciplinary treatment of crusade lyric she shows how such poems are crucial for understanding the crusades as a complex cultural and historical phenomenon Placing them in conversation with chronicles knightly handbooks artworks and confessional and pastoral texts she identifies a particular crusade idiom that emerged out of the conflict between pious and earthly duties Galvez fashions an expanded understanding of the creative works made by crusaders to reveal their experiences desires ideologies and reasons for taking up the cross

The First Crusade Peter Frankopan, 2016-10-17 According to tradition the First Crusade began at the instigation of Pope Urban II and culminated in July 1099 when thousands of western European knights liberated Jerusalem from the rising menace of Islam But what if the First Crusade's real catalyst lay far to the east of Rome In this groundbreaking book countering nearly a millennium of scholarship Peter Frankopan reveals the untold history of the First Crusade Nearly all historians of the First Crusade focus on the papacy and its willing warriors in the West along with innumerable popular tales of bravery tragedy and resilience In sharp contrast Frankopan examines events from the East in particular from Constantinople seat of the Christian Byzantine Empire The result is revelatory The true instigator of the First Crusade we see was the Emperor Alexios I Komnenos who in 1095 with his realm under siege from the Turks and on the point of collapse begged the pope for military support Basing his account on long ignored eastern sources Frankopan also gives a provocative and highly original explanation of the world changing events that followed the First Crusade The Vatican's victory cemented papal power while Constantinople the heart of the still vital Byzantine Empire never recovered As a result both Alexios and Byzantium were consigned to the margins of history From Frankopan's revolutionary work we gain a more faithful understanding of the way the taking of Jerusalem set the stage for western Europe's dominance up to the present day and shaped the modern world

Warfare, Crusade and Conquest in the Middle Ages John France, 2023-04-21 This volume brings together a series of articles by John France published over a span of more than forty years covering a number of aspects of the military and crusading history of the Middle Ages both in Europe and the Near East An interest in understanding how war worked and why informs a first group of articles ranging from Carolingian armies to the organisation of war in the 13th century The focus then turns to the Crusades the most ambitious conquests of the era with a set of studies on the First Crusade and others on the manner and conduct of warfare in the territories of the Latin East The volume also includes a major unpublished analysis co-authored with Nicholas Morton of the problems faced by the local Islamic powers in the early Crusading period reminding us that an army is only as strong as its enemies permit and suggesting that the crusaders should be seen in this light

Writing the Early Crusades Marcus Graham Bull, Damien Kempf, 2014 A pioneering approach to contemporary historical writing on the First Crusade looking at the texts as cultural artefacts rather than simply for the evidence they contain The First Crusade 1095-1101 was the stimulus for a substantial boom in Western historical writing in the first decades of the twelfth century beginning with the so-called eyewitness accounts of the crusade and extending to numerous second-hand treatments in prose and verse From the time when many of these accounts were

first assembled in printed form by Jacques Bongars in the early seventeenth century and even more so since their collective appearance in the great nineteenth century compendium of crusade texts the *Recueil des historiens des croisades* narrative histories have come to be regarded as the single most important resource for the academic study of the early crusade movement But our understanding of these texts is still far from satisfactory This ground breaking volume draws together the work of an international team of scholars It tackles the disjuncture between the study of the crusades and the study of medieval history writing setting the agenda for future research into historical narratives about or inspired by crusading The basic premise that informs all the papers is that narrative accounts of crusades and analogous texts should not be primarily understood as repositories of data that contribute to a reconstruction of events but as cultural artefacts that can be interrogated from a wide range of theoretical methodological and thematic perspectives
