A History Of Christianity An Introductory Survey:

A History of Christianity Joseph Early, 2015-02-15 *A History of Christianity* examines the development of Christianity from its biblical foundations to modern times While seeking to be comprehensive historian Joseph Early Jr centers on key events people theological developments and conflicts that have shaped Christianity over its two thousand year history He also presents the development of Christianity within the social political and economic challenges of the times In doing so he paints a clear detailed and balanced picture of the opportunities and struggles faced by the church and the contributions made by significant people institutions and traditions *A History of Christianity* is an ideal introductory survey for

undergraduate students and any reader who desires to know more about the broad scope of Christianity **A History of Christianity** Joseph Early, 2015-02-15 *A History of Christianity* examines the development of Christianity from its biblical foundations to modern times and is an ideal introductory survey for undergraduate students and any reader who desires to know more about the broad scope of Christianity The Layperson's Library Robert A. Yost, 2020-12-30 In the spirit of Cyril Barber's classic work from the 1970s *The Minister's Library* and the author's 2017 book *The Pastor's Library* Robert Yost provides the same expert guidance now for a lay audience Finally laypersons who desire to study the Bible have an invaluable resource for the acquisition of research tools as well as general Christian reading From general reference works such as Bible atlases and concordances commentaries devotional works and theological studies to Christian biography and fiction this book is a trustworthy guide through the multiplicity of books that just seem to keep rolling off the presses Overwhelmed by the proliferation of Christian books on the shelves This handy guide is the book for you Jesus Before Constantine Doug E. Taylor, 2020-08-12 That's now but what about then There is much diversity in Christianity today in terms of what constitutes necessary core beliefs but what can we know about the earliest Christianity Until the major councils began in the fourth century were all who claimed to be Christian considered part of the church or was there more to it than just claiming a name Is there evidence for how the church understood core and necessary beliefs prior to Constantine's arrival in history and the Council of Nicea in AD 325 This book examines such questions Using only those materials that are accepted by most scholars on the subject whether they are Christian or not and focusing on the period from AD 30-250 a picture emerges showing what Christians held as a core belief as well as how flexible they were on this belief Only after identifying where the church stood in this period can we begin to understand whether others such as Ebionites Docetists and Marcionites would have been accepted as Christian A case is made based on writings from the church the Nag Hammadi and a completely secular tool from the twentieth century to find the conclusion to this question **Bonhoeffer's Reception of Luther** Michael P. DeJonge, 2017 This study considers the influence of Martin Luther's theology on Dietrich Bonhoeffer with particular reference to justification ecclesiology the doctrine of the two kingdoms and political ethics *1 Timothy, Volume 3* Paul S. Jeon, 2017-12-22 *1 Timothy* is one of the more controversial documents in the New Testament For years critical

scholars have rejected Pauline authorship highlighted the apparent misogynistic quality of the text and argued against any coherence in the letter Jeon takes a fresh look at the letter incorporating many recent advancements in NT scholarship In detail he demonstrates the macro and micro chiasmic arrangement of the entire letter and explains how the presumed first century audience would have heard and responded to an oral performance of the letter In doing so Jeon offers a fresh challenge to more popular ways of misunderstanding the letter and points a way forward for appropriating the letter both in academia and in the church

A Thematic Access-Oriented Bibliography of Jesus's Resurrection Michael J. Alter, 2019-12-31

The keystone of Christianity is Jesus's physical bodily resurrection Present day scholars can be significantly challenged as they forage through voluminous documents on the resurrection of Jesus The literature measures well over seven thousand sources in English language books alone This makes finding specific sources that are most relevant for specific scholarly purposes an arduous task Even when a specific book is relevant finding the parts of the book that are most relevant to the resurrection rather than other topics often requires additional effort A Thematic Access Oriented Bibliography of Jesus's Resurrection addresses these challenges in several ways First the bibliography organizes more than seven thousand English sources into twelve main categories and then thirty four subcategories which are designed to help you find the most relevant literature quickly and efficiently Embedded are pro and con arguments which support efficient access through brief annotations and then annotate the diversity and complexity of the field of religion by including sources that represent a diverse range of views theistic e.g. Christian Jewish Muslim etc. agnostic and nontheistic The objective of this bibliography is to provide convenient access to relevant sources from a variety of perspectives allowing you to browse or find the one source accurately and with ease

Christian Histories, Christian Traditioning Dale T. Irvin, 1998 Christian Histories Christian Traditioning provides a profound historical theological and constructive reading of Christian plurality Dale T Irvin grapples with the many traditions within the Christian tradition to show how plurality bears witness to a core tradition even as it subverts the claims of Western Christianity to be its sole normative expression The voices of emerging churches like those that resound through the centuries from long eclipsed churches in Persia Mesopotamia India Ethiopia and China together testify to Jesus as the Christ But they do so in ways that show that non Western traditions constitute an integral part of the mainstream while showing the need for Euro American tradition to give up its normative pretenses
