A Land Of Two Halves An Accidental Tour Of New Zealand:

A Land of Two Halves Joe Bennett, 2005 After fifteen years in New Zealand Joe Bennett asked himself where on earth he was Joe Bennett went to New Zealand for a one year job Fifteen years later he s still there What could it be about these two small islands on the edge of the world that kept this otherwise restless traveller for a decade and a half longer than planned There was only one way to find out He packed his bags said farewell to his dog and stuck out his thumb And waited to see where the locals took him **BOOK JACKET** **New Zealand** Roselynn Smelt, Yong Jui Lin, Joel Newsome, 2018-04-15

New Zealand has captured the imagination of foreign travelers and citizens for centuries Some of the world s most beautiful landscapes are found within this island nation New Zealand society honors indigenous peoples the environment and its culture In this exciting book engaging facts informative sidebars and vibrant photographs tell the story of modern New Zealand including its culture landscape history and people **Toxic and Intoxicating Oil** Patricia Widener, 2021-03-12 When oil and gas exploration was expanding across Aotearoa New Zealand Patricia Widener was there interviewing affected residents and environmental and climate activists and attending community meetings and anti drilling rallies Exploration was occurring on an unprecedented scale when oil disasters dwelled in recent memory socioecological worries were high campaigns for climate action were becoming global and transitioning toward a low carbon society seemed possible Yet unlike other communities who have experienced either an oil spill or hydraulic fracturing or offshore exploration or climate fears or disputes over unresolved Indigenous claims New Zealanders were facing each one almost simultaneously Collectively these grievances created the foundation for an organized civil society to construct and then magnify a comprehensive critical oil narrative in dialogue practice and aspiration Community advocates and socioecological activists mobilized for their health and well being for their neighborhoods and beaches for Planet Earth and Planet Ocean and for terrestrial and aquatic species and ecosystems They rallied against toxic climate altering pollution the extraction of fossil fuels a myriad of historic and contemporary inequities and for local just and sustainable communities ecologies economies and or energy sources In this allied ethnography quotes are used extensively to convey the tenor of some of the country s most passionate and committed people By analyzing the intersections of a social movement and the political economy of oil Widener reveals a nuanced story of oil resistance and promotion at a time when many anti drilling activists believed themselves to be on the front lines of the industry s inevitable decline *Going Places* Robert Burgin, 2013-01-08 Successfully navigate the rich world of travel narratives and identify fiction and nonfiction read alike with this detailed and expertly constructed guide Just as savvy travelers make use of guidebooks to help navigate the hundreds of countries around the globe smart librarians need a guidebook that makes sense of the world of travel narratives *Going Places A Reader s Guide to Travel Narratives* meets that demand helping librarians assist patrons in finding the nonfiction books that most interest them It will also serve to help users better understand the genre and their own reading interests The book examines the subgenres of the travel narrative

genre in its seven chapters categorizing and describing approximately 600 titles according to genres and broad reading interests and identifying hundreds of other fiction and nonfiction titles as read alike and related reads by shared key topics. Drowning by Accident Elizabeth Meinhard, 2022-02-15 Drowning By Accident explains why it is so easy to drown where accidents happen and how to save lives by early rescue and resuscitation More than 600 people die by drowning in Britain every year Swimming is promoted as a particularly safe form of exercise so that swimmers forget or ignore the dangers of frigid lakes swollen rivers incoming tides or outgoing rip currents Drowning accidents take place because we don't recognise water as a hostile environment We overestimate the strength and endurance of our bodies and underestimate the power and deceptiveness of water Year after year victims lose their lives in typical drowning accidents often sinking so quickly and silently that nearby family friends and onlookers fail to notice the tragedy taking place close beside them Babies drown in baths Toddlers drown in garden ponds School children fall off rafts Teenagers strike too far from the shore Pensioners wade into rivers to save their dogs Victims often die within minutes of sinking beneath the surface A quarter of those who reach hospital alive will also die while others survive with severe permanent brain damage This means that it is vitally important for parents grandparents teachers lifeguards and lawmakers to recognise the risks and prevent drowning accidents before they take place
