Reframing Randolph Andrew E. Kersten,Clarence Lang,2015-01-09 At one time Asa Philip Randolph 1889 1979 was a household name As president of the all black Brotherhood of Sleeping Car Porters BSCP he was an embodiment of America s multifaceted radical tradition a leading spokesman for Black America and a potent symbol of trade unionism and civil rights agitation for nearly half a century But with the dissolution of the BSCP in the 1970s the assaults waged against organized labor in the 1980s and the overall silencing of labor history in U S popular discourse he has been largely forgotten among large segments of the general public before whom he once loomed so large Historians however have not only continued to focus on Randolph himself but his role either direct or via his legacy in a wide range of social political cultural and even religious milieu and movements The authors of Reframing Randolph have taken Randolph s dusty portrait down from the wall to reexamine and reframe it allowing scholars to regard him in new and often competing lights This collection of essays gathers for the very first time many genres of perspectives on Randolph Featuring both established and emergent intellectual voices this project

seeks to avoid both hagiography and blanket condemnation alike The contributors represent the diverse ways that historians have approached the importance of his long and complex career in the main political social and cultural currents of twentieth century African American specifically and twentieth century U S history overall The central goal of Reframing Randolph is to achieve a combination of synthetic and critical reappraisal

Irish Nationalists and the Making of the Irish Race Bruce Nelson,2013-12-26 This is a book about Irish nationalism and how Irish nationalists developed their own conception of the Irish race Bruce Nelson begins with an exploration of the discourse of race from the nineteenth century belief that race is everything to the more recent argument that there are no races He focuses on how English observers constructed the native and Catholic Irish as uncivilized and savage and on the racialization of the Irish in the nineteenth century especially in Britain and the United States where Irish immigrants were often portrayed in terms that had been applied mainly to enslaved Africans and their descendants Most of the book focuses on how the Irish created their own identity in the context of slavery and abolition empire and revolution Since the Irish were a dispersed people this process unfolded not only in Ireland but in the United States Britain Australia South Africa and other countries Many nationalists were determined to repudiate anything that could interfere with the goal of building a united movement aimed at achieving full independence for Ireland But others including men and women who are at the heart of this study believed that the Irish struggle must create a more inclusive sense of Irish nationhood and stand for freedom everywhere Nelson pays close attention to this argument within Irish nationalism and to the ways it resonated with nationalists worldwide from India to the Caribbean

The New Abolition Gary Dorrien, 2015-09-29. The black social gospel emerged from the trauma of Reconstruction to ask what a new abolition would require in American society. It became an important tradition of religious thought and resistance, helping to create an alternative public sphere of excluded voices and providing the intellectual underpinnings of the civil rights movement. This tradition has been seriously overlooked despite its immense legacy. In this groundbreaking work, Gary Dorrien describes the early history of the black social gospel from its nineteenth-century founding to its close association in the twentieth century with W. E. B. Du Bois. He offers a new perspective on modern Christianity and the civil rights era by delineating the tradition of social justice theology and activism that led to Martin Luther King Jr.

American Democratic Socialism Gary Dorrien, 2021-09-14. A sweeping ambitious history of American democratic socialism from one of the world's leading intellectual historians and social ethicists. Dorrien is supremely qualified for the task he has set himself in this very thoughtful, necessary, and timely book. Maurice Isserman, author of *The Other American: The Life of Michael Harrington*. Democratic socialism is ascending in the United States as a consequence of a widespread recognition that global capitalism works only for a minority and is harming the planet's ecology. This history of American democratic socialism from its beginning to the present day interprets the efforts of American socialists to address and transform multiple intersecting sites of injustice and harm. Comprehensive, deeply researched, and highly original, this book offers a luminous synthesis of secular and religious socialisms, detailing both their intellectual and their organizational histories.

The Black Box Henry Louis Gates, Jr., 2025-03-18. A New York Times Notable Book. Henry Louis Gates is a national treasure. Here he returns with an intellectual and at times deeply personal meditation on the hard-fought evolution and the very meaning of African American identity, calling upon our country to transcend its manufactured divisions. Isabel Wilkerson, author of *The Warmth of Other Suns* and *Caste*. This is a literary history of Black America, but it is also an argument that African American history is inextricable from the history of African American literature. The New York Times A

magnificent foundational reckoning with how Black Americans have used the written word to define and redefine themselves in resistance to the lies of racism and often in heated disagreement with one another over the course of the country's history. Distilled over many years from Henry Louis Gates Jr.'s legendary Harvard introductory course in African American studies, *The Black Box: Writing the Race* is the story of Black self-definition in America through the prism of the writers who have led the way. From Phillis Wheatley and Frederick Douglass to W. E. B. Du Bois and Booker T. Washington to Zora Neale Hurston and Richard Wright, James Baldwin and Toni Morrison, these writers used words to create a livable world, a home for Black people destined to live out their lives in a bitterly racist society. It is a book grounded in the beautiful irony that a group formed legally and conceptually by its oppressors to justify brutal subhuman bondage transformed itself through the word into a community joined in overcoming one of history's most pernicious lies. Out of that contested ground has flowered a resilient, creative, powerful, diverse culture of people who have often disagreed markedly about what it means to be Black and about how best to use the past to create a more just and equitable future. This is the epic story of how, through essays and speeches, novels, plays, and poems, a long line of creative thinkers has unveiled the contours of and resisted confinement in the black box inside which this nation, within a nation, has been assigned, willy nilly, from the nation's founding through to today. This is a book that records the compelling saga of the creation of a people.

Food and Multiculture Alex Rhys-Taylor, 2020-05-12 In this book, Alex Rhys-Taylor offers a ground-breaking sensory ethnography of East London. Drawing on the multicultural context of London, one of the most cosmopolitan cities in the world, he explores concepts such as gentrification, class antagonism, new ethnicities, and globalization. Rhys-Taylor shows how London is characterized by its rich history of socioeconomic change and multiculturalism, exploring how its smells and food are integral to understanding both its history and the reality of London's urban present. From the fiery chillies sold by street grocers, which are linked to years of cultural exchange through cuisines of origin like jellied eels, to hybridized dishes such as the chicken katsu wrap, sensory experiences are key to understanding the complex cultural genealogies of the city and its social life. Each of the eight chapters combines micro-histories of ingredients such as fried chicken, bush meat, and curry sauce, featuring narratives from individuals that provide a unique, engaging account of the evolution of taste and culture through time and space. With its innovative methodology, this is a highly original contribution to the fields of sensory studies, food studies, urban studies, and cultural studies.

America's First Black Socialist Nikki M. Taylor, 2012-12-01 This authoritative biography chronicles the pioneering work of a nineteenth-century Black abolitionist and civil rights activist. Growing up in the free state of Ohio before the Civil War, Peter H. Clark dedicated himself to the abolitionist cause. In pursuit of equal citizenship for African Americans, Clark was at various times a loyal supporter of the Republican Party and an advocate for the Democrats and the country's first Black socialist. Clark led the fight for African Americans' access to Ohio's public schools and became the first Black principal in the state. *America's First Black Socialist* draws upon speeches, correspondence, and outside commentary to provide a balanced

account of this influential yet neglected figure Charting Clark's changing allegiances and ideologies from the antebellum era through the 1920s this comprehensive biography illuminates the life and legacy of an important activist while also highlighting the black radical tradition that helped democratize America

Duke, 2018-10-15 Caribbean Studies Association Gordon K and Sybil Lewis Award Honorable Mention The initial push for a federation among British Caribbean colonies might have originated among colonial officials and white elites but the banner for federation was quickly picked up by Afro Caribbean activists who saw in the possibility of a united West Indian nation a means of securing political power and more In Building a Nation Eric Duke moves beyond the narrow view of federation as only relevant to Caribbean and British imperial histories By examining support for federation among many Afro Caribbean and other black activists in and out of the West Indies Duke convincingly expands and connects the movement's history squarely into the wider history of political and social activism in the early to mid twentieth century black diaspora Exploring the relationships between the pursuit of Caribbean federation and black diaspora politics Duke convincingly posits that federation was more than a regional endeavor it was a diasporic black nation building undertaking with broad support in diaspora centers such as Harlem and London deeply immersed in ideas of racial unity racial uplift and black self determination A volume in this series New World Diasporas edited by Kevin A Yelvington

The West Georgios Varouxakis, 2025-07-08 A comprehensive intellectual history of the idea of the West How did the West come to be used as a collective self designation signaling political and cultural commonality When did Westerners begin to refer to themselves in this way Was the idea handed down from the ancient Greeks or coined by nineteenth century imperialists Neither writes Georgios Varouxakis in *The West* his ambitious and fascinating genealogy of the idea The West was not used by Plato Cicero Locke Mill or other canonized figures of what we today call the Western tradition It was not first wielded by empire builders It gradually emerged as of the 1820s and was then Varouxakis shows decisively promoted in the 1840s by the French philosopher Auguste Comte whose political project incidentally was passionately anti imperialist The need for the use of the term the West emerged to avoid the confusing or unwanted consequences of the use of Europe The two overlapped but were not identical with the West used to differentiate from certain others within Europe as well as to include the Americas After examining the origins Varouxakis traces the many and often astonishingly surprising changes in the ways in which the West has been understood and the different intentions and consequences related to a series of these contested definitions While other theories of the West consider only particular aspects of the concept and its history if only in order to take aim at its reputation Varouxakis's analysis offers a comprehensive account that reaches to the present day exploring the multiplicity of current and not least prospective future meanings He concludes with an examination of how since 2022 definitions and membership of the West have been reworked to consider Ukraine as the evolution and
