

The background of the entire slide is a photograph of an oil pumpjack (jackalope) in a desert environment. The pumpjack is a tall, dark metal structure with a complex lattice of beams and a long, thin rod extending upwards. It is situated in a dry, scrubby landscape with low-lying bushes and a clear blue sky. In the distance, there are low, hazy mountains. The overall tone of the image is arid and industrial.

A Handbook For Ranch Managers:

A Handbook for Ranch Managers Jimmy T. Labaume, Ph.d., 2013-09 The philosophy of the author as well as the publisher is that ranch management should be approached from the view that the land the livestock the people and the money are one a single integrated whole But once that is understood and constantly kept in mind a close examination of each of these elements is permissible Furthermore due to the linear limitations of the written word each of these management areas has to be treated separately In keeping with that Part I deals with the management of the natural resources Part II covers livestock production and Part III deals with the people and the money The book is a comprehensive source of information on all aspects of managing the working ranch Not only would it make an excellent basic text for a university program in Ranch Management no professional ranch manager s reference bookshelf should be without it because it is a comprehensive reference manual for managing the working ranch The information in the appendices alone is worth the price of the book Farm and Ranch Management Manual American Society of Farm Managers and Rural Appraisers. Farm and Ranch Management Manual Committee, 1980
