*A Lawyer Writes* Christine Nero Coughlin, Joan Malmud, Joan Malmud Rocklin, Sandy Patrick, 2008 Whether you are starting law school or preparing to start the practice of law you need to learn the essential skills and theory of your trade *A Lawyer Writes* puts the reader in the place of a first year attorney tasked with real life assignments In doing so it teaches law students not only how to succeed in law school but also how to succeed in the practice of law The book uses graphics and visual samples to demonstrate the variety of ways in which attorneys write effectively showing best practices in both traditional and electronic environments Speaking to its reader in a straightforward manner *A Lawyer Writes* communicates essential skills and theories so that they will be retained for a lifetime of legal practice     Methods in Medical Ethics Jeremy Sugarman, Daniel P. Sulmasy, 2010-10-15 Medical ethics draws upon methods from a wide array of disciplines including anthropology economics epidemiology health services research history law medicine nursing philosophy psychology sociology and theology In this influential book outstanding scholars in medical ethics bring these many methods together in one place to be systematically described critiqued and challenged Newly revised and updated chapters in this second edition include philosophy religion and theology virtue and professionalism casuistry and clinical ethics law history qualitative research ethnography quantitative surveys experimental methods and economics and decision science This second edition also includes new chapters on literature and sociology as well as a second chapter on philosophy which expands the range of philosophical methods discussed to include gender ethics communitarianism and discourse ethics In each of these chapters contributors provide descriptions of the methods critiques and notes on resources and training *Methods in Medical Ethics* is a valuable resource for scholars teachers editors and students in any of the disciplines that have contributed to the field As a textbook and reference for graduate students and scholars in medical ethics it offers a rich understanding of the complexities involved in the rigorous investigation of moral questions in medical practice and research     **The African American Law School Survival Guide** Evangeline M. Mitchell, 2006     Legal Writing from the Top Down: Better Writing for Lawyers (2nd Ed.) Timothy Perrin, 2010-04-28 *Legal Writing from the Top Down* is the renamed and thoroughly revised second edition of Timothy Perrin's best selling *Better Writing for Lawyers* The original book published by the Law Society of Upper Canada Ontario in 1990 was required reading for every new lawyer in that province It has been licensed for use in courses as far afield as Singapore Hong Kong and Australia This new edition incorporates new research on how to write effectively and new tools you can use to become a better more persuasive lawyer     *The Craft of Research, 2nd edition* Wayne C. Booth, Gregory G. Colomb, Joseph M. Williams, 2008-04-15 Since 1995 more than 150 000 students and researchers have turned to *The Craft of Research* for clear and helpful guidance on how to conduct research and report it effectively Now master teachers Wayne C Booth Gregory G Colomb and Joseph M Williams present a completely revised and updated version of their classic handbook Like its predecessor this new edition reflects the way researchers actually work in a complex circuit of thinking

writing revising and rethinking It shows how each part of this process influences the others and how a successful research report is an orchestrated conversation between a researcher and a reader Along with many other topics The Craft of Research explains how to build an argument that motivates readers to accept a claim how to anticipate the reservations of thoughtful yet critical readers and to respond to them appropriately and how to create introductions and conclusions that answer that most demanding question So what Celebrated by reviewers for its logic and clarity this popular book retains its five part structure Part 1 provides an orientation to the research process and begins the discussion of what motivates researchers and their readers Part 2 focuses on finding a topic planning the project and locating appropriate sources This section is brought up to date with new information on the role of the Internet in research including how to find and evaluate sources avoid their misuse and test their reliability Part 3 explains the art of making an argument and supporting it The authors have extensively revised this section to present the structure of an argument in clearer and more accessible terms than in the first edition New distinctions are made among reasons evidence and reports of evidence The concepts of qualifications and rebuttals are recast as acknowledgment and response Part 4 covers drafting and revising and offers new information on the visual representation of data Part 5 concludes the book with an updated discussion of the ethics of research as well as an expanded bibliography that includes many electronic sources The new edition retains the accessibility insights and directness that have made The Craft of Research an indispensable guide for anyone doing research from students in high school through advanced graduate study to businesspeople and government employees The authors demonstrate convincingly that researching and reporting skills can be learned and used by all who undertake research projects New to this edition Extensive coverage of how to do research on the internet including how to evaluate and test the reliability of sources New information on the visual representation of data Expanded bibliography with many electronic sources
