Little Exercise for Young Theologians Helmut Thielicke, 1997-01-17 **Thinking Theologically about Language Teaching** Cheri L. Pierson, Will Bankston, 2017-08-31 Christians can often overlook the need to bring their daily vocations in accord with the reality created sustained and purposed through Christ This is no less true for language teachers who find themselves at a difficult interdisciplinary crossroads where the paths of linguistics culture and education merge This challenge should not discourage these educators but instead aid them in their journey to form a pedagogy rooted in theological truths from Scripture one that provides a nuanced approach that glorifies God in a manner specific to the language classroom The contributors of this book outline why and how theology must inform teaching methods so that Christian language educators might better serve their students with both faith and excellence thereby pointing them to the communicative God whose image they bear **Christian Theology and African Traditions** Matthew Michael, 2013-05-21 Christian theology is increasingly recognized to be now a non western enterprise since the high concentrations of Christians in the world are no longer found in the Western societies Christian Theology and African Traditions takes seriously this present recognition of the southward movement of Christianity from the western world to a non western setting It seeks to reposition Christian theology and faith to engage the African traditions in classical category of theology proper bibliology anthropology Christology pneumatology soteriology ecclesiology and eschatology and provides unique insights and problems that these classical and systematic categories poses to African Christianity Similarly it provides theological blueprint for non Africans who are interested in knowing the nature and shape of the Christian theology in non western settings Consequently Christian Theology and African Traditions goes beyond the mere criticism of Western misrepresentation of African traditions to seeing how the Christian theology in its systematic character engages the African traditions With this methodological template the work describes in the space of twelve chapters the different classical teachings of the Christian faith on God scriptures spirits and demons the nature of the human person the persons of Christ salvation the Holy Spirit the church and the future life in dialogue with some specific traditions of the African people Library Journal Melvil Dewey, Richard Rogers Bowker, L. Understanding and Developing Theological Education Bernhard Ott,2016-01-31 Historically education has been driven from behind the history and above the educational institution Traditions and adherence requirements have led to inflexible models of school leadership that are focused on administration and rife with educational politics In contrast today s theological landscape needs institutions with a grassroots driven educational system looking to a future that is biblically and theologically grounded This publication an English translation from the original German focuses on the leadership and curriculum development required for such a paradigm shift Ott comprehensively assesses trends in current theological education across the world with detailed reference to wider trends in global tertiary education Written primarily for those in leadership roles at theological schools and training institutions this handbook is an essential resource for equipping the next generation of leaders in theological education **Contemporary Authors** ,1969
