Moments of Capital Eli Jelly-Schapiro, 2023-03-21 Undertaken at the interface of critical theory and world literature Moments of Capital sets out to grasp the unity and heterogeneity of global capital in the postcolonial present Eli Jelly Schapiro argues that global capital is composed of three synchronous moments primitive accumulation expanded reproduction and the synthetic dispossession facilitated by financialization and privatization These moments correspond to distinct economic and political forms and distinct strands of theory and fiction Moments of Capital integrates various intellectual traditions from multiple trajectories of Marxist thought to Weberian inquiries into the spirit of capitalism to anticolonial accounts of racial depredation to reveal the concurrent interrelation of the three moments of capital The book's literary readings meanwhile make vivid the uneven texture and experience of capitalist modernity at large Analyzing formally and thematically diverse novels works by Fiston Mwanza Mujila Marlon James Jennifer Egan Eugene Lim Rafael Chirbes Neel Mukherjee Rachel Kushner and others Jelly Schapiro evinces the different patterns of feeling and consciousness that register and hypothesize a way beyond the contradictions of capital This book develops a new conceptual key for the mapping of contemporary theory world literature and global capital itself

Death and the Rock Star Catherine Strong, Barbara Lebrun, 2016-03-03 The untimely deaths of Amy Winehouse 2011 and Whitney Houston 2012 and the resurrection of Tupac Shakur for a performance at the Coachella music festival in April 2012 have focused the media spotlight on the relationship between popular music fame and death If the phrase sex drugs and rock n roll ever qualified a lifestyle it has left many casualties in its wake and with the ranks of dead musicians growing over time so the types of death involved and the reactions to them have diversified Conversely as many artists who fronted the rock n roll revolution of the 1950s and 1960s continue to age the idea of dying young and leaving a beautiful corpse which gave rise for instance to the myth of the 27 Club no longer carries the same resonance that it once might have done This edited collection explores the reception of dead rock stars rock being taken in the widest sense as the artists discussed belong to the genres of rock n roll Elvis Presley disco Donna Summer pop and pop rock Michael Jackson Whitney Houston Amy Winehouse punk and post punk GG Allin Ian Curtis rap Tupac Shakur folk the Dutchman Andr

Hazes and world music Fela Kuti When music artists die their fellow musicians producers fans and the media react differently and this book brings together their intertwining modalities of reception The commercial impact of death on record sales copyrights and print media is considered and the different justifications by living artists for being involved with the dead through covers sampling and tributes The cultural representation of dead singers is investigated through obituaries biographies and biopics observing that posthumous fame provides coping mechanisms for fans and consumers of popular culture more generally to deal with the knowledge of their own mortality Examining the contrasting ways in which male and female dead singers are portrayed in the media the book **Timescapes of Waiting**, 2019-08-26 Timescapes of Waiting explores the intersections of temporality and space by examining various manifestations of spatial im mobility The individual articles approach these spaces from a variety of academic perspectives including the realms of history architecture law and literary and cultural studies in order to probe the fluid relationships between power time and space The contributors offer discussion and analysis of waiting spaces like ante chambers prisons hospitals and refugee camps and also of more elusive spaces such as communities and nation states Contributors Olaf Berwald Elise Brault Dreux Richard Hardack Kerstin Howaldt Robin Kellermann Amanda Lagji Margaret Olin Helmut Puff Katrin R der Christoph Singer Cornelia Wchter Robert Wirth **It Takes a Storyteller to Know a Storyteller** Julia Nikiel, 2023-01-23 If it is indeed impossible to think beyond capitalism then capital has become reality If global capitalism organizes reality through the stories it weaves capital is as strong as its fictions If capital is reality and capital is fiction then reality as such is fiction as well It is by reading this fiction for both patterns and inconsistencies that contemporary individuals can challenge global capital and unveil its hypocrisies and it is by fighting fiction with fiction i e projecting new realities such as those in the post millennial novels by William Gibson Douglas Coupland and Dave Eggers that people can imagine the world anew *Representing (Post)Human Enhancement Technologies in Twenty-First Century US Fiction* Carmen Laguarda-Bueno, 2022-10-07 This work studies three twenty first century novels by Richard Powers Dave Eggers and Don DeLillo as representative of a new trend of US fiction concerned with the topic of the technological augmentation of the human condition The different chapters provide from the double perspective of the optimistic transhumanist philosophy and the more balanced approach of critical posthumanism an overview of the narrative strategies used by the writers to explore the possibilities that biotechnology digital technologies and cryonics open up to transcend our human limitations while also warning their readers of their most nefarious consequences Ultimately the book puts forward the claim that even if the writers approach the subject from a variety of perspectives and using different narrative styles and techniques they all share a critical posthumanist fear that an unrestrained and unquestioned use of technology for enhancement purposes may bring about disembodiment and dehumanization Focus On: 100 Most Popular 2010s Comedy-drama Films Wikipedia contributors, **A Hologram for the King** Conor Gleeson, Mike O'Neill, 2017 *The Public Mind and the Politics of Postmillennial U.S.-American Writing*

Jolene Mathieson, Marius Henderson, Julia Lange, 2022-08-22 In the last twenty years how has U S American writing and the reading public responded to the complexity of an American culture resolutely situated in a larger highly politicized globalized world undergoing radical change The 20th century modes of realism and postmodernism have been succeeded by writerly practices that are that are invested in the idea of embodied authenticity and that are relatable to neorealism whether it be via outright affirmation or critical experimentation and appropriation The individual case studies mark the ways in which postmillennial U S American writing is marked by an ongoing awareness toward complexity and the entanglement of writers and the reading public with pressing political concerns and at times oppressive social and economic discursive and structural formations These contributions further attest to how narrative and structural complexity grammatical and lexical sophistication and social nuance endure as the main literary modes of confronting 21st century political life This volume is thus of interest for both the study of U S American political culture and U S American literature **On the Aisle Volume 4**

The Great Recession in Fiction, Film, and Television

Kirk Boyle, Daniel Mrozowski, 2013-10-17 The Great Recession in Fiction Film and Television Twenty First Century Bust Culture sheds light on how imaginary works of fiction film and television reflect refract and respond to the recessionary times specific to the twenty first century a sustained period of economic crisis that has earned the title the Great Recession This collection takes as its focus Bust Culture a concept that refers to post crash popular culture specifically the kind mass produced by multinational corporations in the age of media conglomeration which is inflected by diminishment influenced by scarcity and infused with anxiety The multidisciplinary contributors collected here examine mass culture not typically included in discussions of the financial meltdown from disaster films to reality TV hoarders the horror genre to reactionary representations of women Christian right radio to Batman television characters of color to graphic novels and literary fiction The collected essays treat our busted culture as a seismograph that registers the traumas of collapse and locate their pop artifacts along a spectrum of ideological fantasies social erasures and profound fears inspired by the Great Recession What they discover from these unlikely indicators of the recession is a mix of regressive progressive and bemused texts in need of critical translation

Ugly White People Stephanie Li, 2023-10-10 Whiteness revealed an analysis of the destructive complacency of white self consciousness White Americans are confronting their whiteness more than ever before with political and social shifts ushering in a newfound racial awareness And with white people increasingly seeing themselves as distinctly racialized not simply as American or human white writers are exposing a self awareness of white racialized behavior from staunch antiracism to virulent forms of xenophobic nationalism Ugly White People explores representations of whiteness from twenty first century white American authors revealing white recognition of the ugly forms whiteness can take Stephanie Li argues that much of the twenty first century has been defined by this rising consciousness of whiteness because of the imminent shift to a majority minority population and the growing diversification of America's political social and cultural institutions The result is literature that more directly grapples with whiteness as its own construct rather than a wrongly assumed norm Li contextualizes a series of literary novels as collectively influenced by changes in racial and political attitudes Turning to works by Dave Eggers Sarah Smarsh J D Vance Claire Messud Ben Lerner and others she traces the responses to white consciousness that breed shared manifestations of ugliness The tension between acknowledging whiteness as an identity built on domination and the failure to remedy inequalities that have proliferated from this founding injustice is often the source of the ugly whiteness portrayed through these narratives The questions posed in Ugly White People about the nature and future of whiteness are vital to understanding contemporary race relations in America From the

election of Trump and the rise of white nationalism to Karen memes and the war against critical race theory to the pervasive pattern of behavior among largely liberal leaning whites Li elucidates truths about whiteness that challenge any hope of national unity and most devastatingly the basic humanity of others Retail e book files for this title are screen reader friendly
