Medical Perspectives on Human Trafficking in Adolescents Kanani E. Titchen, Elizabeth Miller, 2020-07-01 Human trafficking is an increasingly large issue in medicine particularly for the adolescent population The pubertal and neurologic development of early and mid adolescence may serve as a foothold for trauma bonds and human trafficking To date there are few case studies of human trafficking in the medical literature More often these cases are missed and human trafficking patients are unlikely to disclose their victimization to their physicians for multiple reasons As a result physicians fail to ask key questions and fail to notice important red flags for human trafficking Research shows that this is primarily due to a lack of medical training and awareness and a resultant denial on the part of many physicians that victims of human trafficking present to their clinics or specialties

This book provides clinicians with a case based guide to scenarios they may encounter in their practice that involve human trafficking These cases include those involving sex trafficking and labor trafficking male and female and transgender victims victims from a range of racial ethnic geographic and socioeconomic backgrounds as well as presentations of adolescent and young adult victims to fields such as adolescent medicine general pediatrics neonatology rheumatology transplant medicine and obstetrics gynecology in addition to the stereotypical presentations to emergency departments Each case is followed by a discussion that highlights key aspects of human trafficking in adolescent and young adult patients These discussions also reference the growing body of research on human trafficking orient the reader to medico legal aspects of reporting human trafficking in the adolescent and young adult populations and feature useful questions exercises and resources to promote discussion among those medical professionals who interact with adolescent medicine and young adult patients Written by physicians legal advocates and lawyers **Medical Perspectives on Human Trafficking in Adolescents** is the definitive guide for all clinicians who care for adolescent patients It is also a useful resource for mental health professionals and social workers

She Needs Nay Dawson, 2024-03-21 Many of us look as though we're fine And that's just how we prefer it especially if members of a church full of people doing fine Few of us want to stick out or be seen as disruptive So we're reluctant to volunteer concerns or difficulties The problem is then that leaders easily assume that all is well Which suits them fine They can carry on with their plans and strategies But how different this impression would be if they took time to find out what people honestly think Nay Dawson's book *SHE NEEDS* has done just this she has given women the space and safety to share their actual experiences of church life She never pushes a theological agenda nor does she claim to offer a programme for how to respond She merely wants us all to listen to what so many have felt This is not an easy book to read as a result But it is important As Mark Meynell Langham Partnership writes in his foreword I'm sad this book had to be written But I am equally sure that it did Many people men as well as women will be very grateful to Nay for this helpful and challenging book
