Regulating Football Steve Greenfield, Guy Osborn, 2001-06 Football in Europe has undergone massive changes over the last decade Regulating Football gets behind the headlines to look at the impact of ever increasing commercialisation and the commodification of football The essence of the book is football as it is played refereed managed bought sold and consumed the authors capture the life and action of the game as seen from the perspective of the numerous participants and place these experiences within a sociological economic and legal context which reflects the increasing commodification of the sport Exploring the ways in which the game is regulated the authors question whether we have reached the point where commercial issues have superseded the club and even the game of football itself The role of players agents officials governing bodies and the media are all explored The authors pay attention to levels of violence both on and off the field in both the professional and amateur forms of the game Racism in the game is also surveyed with particular emphasis placed on efforts to combat racism on and off the pitch

British Sport - a Bibliography to 2000 Richard Cox, 2013-12-16 Volume three of a bibliography documenting all that has been written in the English language on the history of sport and physical education in Britain It lists all secondary source material including reference works in a classified order to meet the needs of the sports historian

International Sport: A Bibliography, 2000 Richard William Cox, 2013-10-23 There has been an explosion in the quantity of sports history literature published in recent years making it increasingly difficult to keep abreast of developments The annual number of publications has increased from around 250 to 1 000 a year over the last decade This is due in part to the fact that during the late 1980s and 90s many clubs leagues and governing bodies of sport have celebrated their centenaries and produced histories to mark this occasion and commemorate their achievements It is also the result of the growing popularity and realisation of the importance of sport history research within academe This international bibliography of books articles conference proceedings and essays in the English language is a one stop for the sports historian to know what is new

A Football Compendium Peter J. Seddon, Cynthia McKinley, British Library, 1999 This bibliography is an entertaining and knowledgeable tribute to the beautiful game The second edition features over 2000 new entries including greatly increased coverage of football films and music making over 7000 references to books and other items in total
