Beyond Intellect and Reasoning Acres A Stowe, 2022-03-31 The purpose of this book is to draw readers attention to various legal intricacies associated with deploying self directed artificial intelligence systems AIS particularly emphasizing the limits of the law vis vis liability problems that may emerge within third party contracts With the advent of today s ostensive Amazon Halo or Alexa consumers are having to conclude contracts e g sale of goods and distant financial services in much more complex cybernetic environments Generally with one party acting in the capacity of a human being while the other as an autonomous thing device AIS with capabilities well beyond that of humans representing the interests of others not just other humans Yet traditional jurisprudence is limited in scope for holding these systems legally accountable if they were to malfunction and cause harm Interestingly within the

judicial system itself the use of AIS is more prevalent now including within the criminal justice system in some jurisdictions In the United States for instance AIS algorithms are utilized to determine sentencing and bail processing Still jurists find themselves limited to traditional legal methodologies and tools when tackling novel situations brought about by these systems For example traditional strict liability concept as applied in tort law typically ties responsibility to the person s e g AIS developers influencing the decision making process In contract law particularly where third parties are concerned AIS are equated to tools for the purposes of traditional strict liability rules Thus binding anyone on whose behalf they would have acted irrespective of whether such acts were intentional or foreseeable British Books ,1898 **Popular Science** ,1983-08 Popular Science gives our readers the information and tools to improve their technology and their world The core belief that Popular Science and our readers share The future is going to be better and science and technology are the driving forces that will help make it better
