 task which I have before me is at once less difficult and more delicate Although in more than one passage our anonymous
 author shews originality expresses his opinion discusses and sometimes sums up nevertheless he asks me to explain
 beforehand what in fact the occult sciences are to state their connection with one another to relate briefly their general
 history to try to explain them shortly and finally to shew their usefulness Hellenistic Astronomy Alan C. Bowen,Francesca

Astrology and the Twelve House Noel Eastwood, 2015-06-23 Psychological Astrology and the Twelve Houses will surprise you whether you are a complete beginner or a seasoned professional Noel Eastwood is an astrologer tarotist and has recently retired from his psychology practice He approaches astrology as an altered state of consciousness He walks you through the houses of the natal chart like a good travel guide who knows that sightseeing is not enough to make a journey memorable you need to experience the place for yourself meet the locals in small caf s discover hidden fountains and secret gardens This is a practice oriented work Noel takes every opportunity to demonstrate how astrological symbolism translates into the personality of an individual He picked four well known figures to illustrate the process of analysis on their charts What makes this book truly unique however is an invitation to meet your astrological archetypes To show where such an inner journey can take you Noel shares his personal meditations as if you were reading his private travel diary Also available as an audiobook Reviews Comprehensive and concise with great meditations and stories Lots of interesting insights The author is an excellent reader B I was very excited to read his book because it takes on some intensely personal subject matter from a psychological perspective which Noel is uniquely qualified to write about since he is that rare combination that I wish we had more of in the astrological world a practicing psychologist and astrologer His areas of expertise are Jungian and archetypal psychology astrology Tarot and Taoist meditation so he s well versed in the realms of the psyche My first impression once I got started reading is that this book is an ideal blend of serious subject matter handled with respect for the reader with just enough astrologese for the basic to medium advanced astrology student Noel does not overwhelm you with the level of detail that is automatically off putting for the beginner You won t be scared picking up this book in other words if you aren t an astrology

expert This is book is for the person who in my opinion would be dissatisfied with the superficial or cookbook style astrology book and is looking for something that goes deeper that explains the pieces of the self we don t usually discuss even in the astrological world but most people who want to understand their own and others psychology wish could be discussed with some depth and understanding of what s really going on in our psyches as expressed through our natal charts Speaking as a professional astrologer I personally got the most out of the very end of the book where Noel discusses houses as psychological defenses If you read this book for nothing else get it for the series of meditations Noel asks you to do those on their own are very valuable and I would suggest keeping a journal as you go to capture your responses A valuable book for the person looking for psychological self awareness AG I have studied astrology for years and buy a new book every now and then to enhance my understanding This book is the first in a long time that really had me intrigued and learning had my highlighter out Eastwood s combination of astrology and psychology knowledge experience makes the content easier to follow and provides a much deeper foundation on how to interpret the 12 houses what s in them and what s NOT and other key influences Looking forward to the next two books in this series J This book is exactly what I was looking for Excellent information presented in an entertaining and logical way For the serious student only I would advise I ve been on the metaphysical road pretty much since birth have studied astrology charts for over 25 years This book truly helped me synthesize an enormous amount of facts and data that constantly swim around in my head Noel Eastwood Thank you sir for taking the time and making the effort to help students like me on our sometimes strange and difficult yet always amazing personal journeys For me healing is the goal knowledge is the path and application practice are the keys This book makes a great contribution and I look forward to more from this author teacher AS *From Lived Experience to the Written Word* Pamela H. Smith,2022-09-30 How and why early modern European artisans began to record their knowledge In *From Lived Experience to the Written Word* Pamela H Smith considers how and why beginning in 1400 CE European craftspeople began to write down their making practices Rather than simply passing along knowledge in the workshop these literate artisans chose to publish handbooks guides treatises tip sheets graphs and recipe books sparking early technical writing and laying the groundwork for how we think about scientific knowledge today Focusing on metalworking from 1400 1800 CE Smith looks at the nature of craft knowledge and skill studying present day and historical practices objects recipes and artisanal manuals From these sources she considers how we can reconstruct centuries of largely lost knowledge In doing so she aims not only to unearth the techniques material processes and embodied experience of the past but also to gain insight into the lifeworld of artisans and their understandings of matter **The Star of Bethlehem and the Magi** George H. van Kooten,Peter Barthel,2015-11-02 This book is the fruit of the first ever interdisciplinary international scientific conference on Matthew s story of the Star of Bethlehem and the Magi held in 2014 at the University of Groningen and attended by world leading specialists in all relevant fields modern astronomy the ancient near eastern and Greco Roman worlds the history of

science and religion The scholarly discussions and the exchange of the interdisciplinary views proved to be immensely fruitful and resulted in the present book Its twenty chapters describe the various aspects of The Star the history of its interpretation ancient near eastern astronomy and astrology and the Magi astrology in the Greco Roman and the Jewish worlds and the early Christian world at a generally accessible level An epilogue summarizes the fact fiction balance of the most famous star which has ever shone

Cosmic symbolism Sepharial, 2015-10-06 We were slow to pick up on Sepharial Walter Gorn Old though he almost never used his birth name 1864 1929 As C E O Carter says he is brilliant at almost everything he touches Sepharial s writing on numerology remains unsurpassed Sepharial was more than a mere astrologer Reading his work it is obvious to me that he had the gift of omniscience which is the customary result of past life training in Jnana yoga Omniscience on a human level means that when one studies a subject closely one is able to understand new things about it not merely parrot old facts in new dress This ability often leads to a writing style which is sometimes and to some people frustrating to read Sepharial will blandly state what he knows to be true If you know how to read conceptually Sepharial is exciting If you like your facts cold Sepharial will leave you stranded
