King, 2015-06-02 Excerpt from Handbook in Woodwork and Carpentry for Teachers and Normal Schools This series consists of five volumes four of which are intended as textbooks for pupils in manual training industrial trade technical or normal schools The fifth book of the series the Handbook in Woodwork and Carpentry is for the use of teachers and of normal students who expect to teach the subjects treated in the other four volumes Of the pupils volumes the first two Elements of Woodwork and Elements of Construction are adapted to the needs of students in manual training schools or in any institution in which elementary woodwork is taught whether as purely educational handwork or as preparatory to a high or trade school course in carpentry or vocational training The volumes Constructive Carpentry and Inside Finishing are planned with special reference to the students of technical industrial or trade schools who have passed through the work of the first two volumes or their equivalent The subjects treated are those which will be of greatest value to both the prospective and the finished workman For the many teachers who are obliged to follow a required course but who are allowed to introduce supplementary or optional models under certain conditions and for others who have more liberty and are able to make such changes as they see fit this series will be found perfectly adaptable regardless of the grades taught To accomplish this the material has been arranged by topics which may be used by the teacher irrespective of the sequence as each topic has to the greatest extent possible been treated independently About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that

W. Riley,2017-05-30 Excerpt from A Manual of Carpentry and Joinery IN writing this book the needs of carpenters and joiners who are studying the scientific principles of their work have been borne in mind throughout Students who are attending classes at Technical Institutes to prepare for the examinations of the City and Guilds of London Institute in Carpentry and Joinery will find that the following chapters have the same aims as their syllabus inasmuch as they are intended to develop an appreciation of general principles rather than to encourage empirical methods of work In fact the educational ideal underlying the syllabus of the City and Guilds of London Institute has constantly guided the author The simplest types of construction have been dealt with most fully and the principles they embody have been emphasised continually Without going into great detail these rules have then been applied to more complicated examples for a long experience has convinced the author that a student who has grasped the fundamental facts of a subject requires a minimum of guidance in more advanced work About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works      **A Manual of Carpentry and Joinery** J.
