## **Honey And Vinegar Incentives Sanctions And Foreign Policies:**

**Honey and Vinegar** Richard N. Haass, Meghan L. O'Sullivan, 2001-09-19 Buttressed by input from scholars diplomats and observers with an intimate knowledge of U S foreign policy Honey and Vinegar examines engagement strategies that primarily involve the use of positive incentives The book contends that although engagement has received little scrutiny relative to other more punitive foreign policy approaches it has great potential as a tool for modifying the behavior of regimes with which the United States has significant disagreements Heightened awareness of the costs associated with the use of sanctions or military force has catalyzed a search for policy alternatives In this quest to find other appropriate policy options for pursuing foreign policy goals strategies of engagement warrant serious consideration As argued in these pages the use of incentives rather than penalties may be particularly well suited to the post Cold War world where globalization has made the economic isolation of any country difficult to achieve At the same time the collapse of the Soviet Union has meant that American carrots may be especially savory to many regimes once reliant on Soviet support Paradoxically engagement can be a good choice even when it fails in that it can open the door for other policy options For instance the two years in which America tried to engage Saddam Hussein before the Gulf War worked to the advantage of the United States later After Iraq's invasion of Kuwait in 1990 American efforts to build a military coalition to oppose Iraq were facilitated by the sense in the region that the United States had earlier pursued a conciliatory policy but to no avail Contributors to this volume have provided seven cases exploring episodes of engagement relations between the United States and China Europe's Critical Dialogue with Iran U S engagement with Iraq from 1988 to 1990 U S efforts to engage North Korea the combination of U S persuasion and coercion toward South Africa in the apartheid era the les

### **US Foreign Policy and the Rogue State**

**Doctrine** Alex Miles, 2013 Concerns over Iran's nuclear programme North Korea's nuclear brinkmanship and in the past Iraq's apparent pursuit of WMD have captured the world's attention and dominated the agenda of the American foreign policy establishment But what led policymakers and the US military to emphasise the threat of rogue states at the end of the Cold War Going behind the vivid language of the axis of evil and portrayals of undeterrable and reckless rogue states this work demonstrates how the rogue state doctrine satisfied both domestic and international goals in the Clinton and George W Bush administrations underpinning efforts to maintain US leadership and hegemony It offers a clear picture of the policymaking process taking a broad historical approach that places the actions of US officials towards Iraq Iran North Korea Libya and Cuba in a wider context Through an understanding of the long standing influences on the US approach we are better able to appreciate why for instance regime change dominated the post 9 11 agenda and led to the overthrow of Saddam Hussein Explaining in detail how the tackling of rogue states became a central aim of US foreign policy Miles examines whether there was continuity between the Clinton and Bush approach He moves on to highlight the influence of Congress on the implementation of US policies and the difficulties the US faced in selling its approach to allies and adapting its hard line

strategies to reflect developments within the targeted states By considering the impulses and drivers behind the development of the rogue states approach this work will extend the scope of existing work in the field and will be of interest to scholars and policymakers alike US Foreign Policy After the Cold War Fraser Cameron,2006-03-20 Since the success of the best selling first edition the world has remained fascinated with US foreign policy not least because of the far reaching consequences of the US led invasion of Iraq This fully updated textbook follows the events of the past two and a half years including the 2004 presidential campaign whilst still providing a comprehensive introduction to all aspects of American foreign policy Chapter headings include from colony to superpower the post Cold War decade the role of Congress the media and public opinion the US and terrorism Examining the administrations of George Bush Bill Clinton and George W Bush it explains the complex interaction between the institutions of power the key actors and the non governmental organizations to give a complete picture of foreign policy With a complete glossary of terms this textbook is ideal for those studying American politics or international relations Companion website available at [www.routledge.com/textbooks/0415358655](http://www.routledge.com/textbooks/0415358655) **Terrorism and U.S. Foreign Policy** Paul R. Pillar,2001-01-01 In this critical study a career CIA officer provides a guide to constructing and executing counter terrorist policy urging that it be formulated as an integral part of broader US foreign policy

Sanctions for Nuclear Disarmament and Non-Proliferation Armend Bekaj,Peter Wallensteen,2024-09-02 This book examines the interplay between sanctions and nuclear disarmament and non proliferation The volume aims to tackle three separate but closely intertwined issues It aims to revisit the debate on and deconstruct the concept of sanctions to provide a working theoretical framework to differentiate between positive sanctions or incentives or carrots and negative sanctions to identify the actors who may initiate sanctions i e states regional and or international organizations to ascertain the legality and legitimacy of such sanctions taking place to problematize and discuss the utility of sanctions and so on It aims to disentangle the concepts of nuclear disarmament and non proliferation particularly in light of the most recent geopolitical global shifts on nuclear powers interplay taking place in the background of the war in Ukraine and rising tensions in Southeast Asia and so on Finally it aims to conjoin the cause and effect cases between the application of sanctions on the one hand and the decision by states to pursue nuclear disarmament and non proliferation on the other By doing so the volume helps to update and stimulate the academic and policy debate on the inter relation between sanctions and nuclear disarmament and non proliferation This book will be of much interest to students of nuclear non proliferation economic sanctions security studies and International Relations **German Foreign Policy in the Gulf** Helmut Hubel,Lars Berger,Matthias Heise,2005-02-15 German foreign policy towards the Arab Gulf can only be understood within the context of the European Union and the policies of its major EU partners For analytical purposes German and European policies towards Iran Iraq and the GCC countries have to be investigated separately Regarding Iran the European consensus on the need to engage the Iranian leaderships has enabled Germany to pursue its interests in maintaining political cooperation and

economic ties Yet the policy of critical dialogue had only very modest results and it remains doubtful whether the recent British French German initiative concerning international safeguards on Iran's nuclear program will be successful Concerning Iraq Germany under the Red Green government has abandoned its traditional role as an intra European mediator between the independent French Middle East policy and the British position of close cooperation with the US While a common position with France on the question of the legitimacy of military action against the Iraqi regime reflects intensive German French cooperation on a broad range of European problems it also marks the first time that the Federal Republic openly disagreed with the US on a matter of war and peace With regard to the relations with the GCC countries the strong US military presence will continue to put limits on the level of Germany's and the EU's influence German and European policy makers will have to take into account that the political elites of the Arab Gulf states will look toward Washington rather than Paris or Berlin for the foreseeable future On the other hand Germany's current energy policy emphasizing the importance of renewable sources and suppliers from outside the Middle East could further shift the focus of Germany's economic interests in the region toward expanding trade in a way that increases market shares for Germany's export oriented economy while not threatening the survival of domestic industries through competitive imports Because of the significant impact the Gulf's oil resources have on the stability of the global energy market Germany's economic well being will ensure its continuing interest in the region

The Prevention and Intervention of Genocide Samuel Totten, 2017-09-08

Over the last twenty years the world has witnessed four major genocides There was the genocide in Iraq 1988 in Rwanda 1994 in Srebrenica 1995 and in Darfur 2003 and continuing Most observers agree there is an urgent need to assess the international community's efforts to prevent genocide and to intervene once a genocide is under way in an effective and timely manner This volume the latest in a widely respected series on the subject of genocide provides an overview of a host of issues germane to this task The book begins with a cogent discussion of the issues of prevention and intervention during the Cold War years The second chapter discusses the abject failures and moderate though in some cases highly controversial successes at prevention and intervention carried out in the 1990s and early 2000s Further chapters examine latest efforts to develop an effective genocide early warning system and examine the complexity of and barriers to prevention The pros and cons of sanctions and the problems of enforcement and evaluation their effectiveness are then discussed Conflicts between state sovereignty and the protection of threatened populations are examined both in historical context and by incorporating the latest thinking Later chapters treat the issue of intervention why and how it has met with only limited success Concentrating on Rwanda and Srebrenica chapter 8 discusses various peace operations that were abject failures and those that were moderately successful The concept of an anti genocide regime is examined in terms of progress in developing such a regime as well as what the international community must do in order to implement it Chapters discuss key issues related to post genocidal periods those that need to be addressed in order to establish stability in a wounded land and populace as well

as to prevent future genocides The final chapter asks whether bringing perpetrators to justice has any impact in breaking impunity ensuring deterrence and bringing about reconciliation The contributors to the volume are all noted scholars some of whom specialize in the study of genocide and others who specialize in such areas as early warning peacekeeping and sanctions

Sanctions and the Search for Security David Cortright, George A. Lopez, Linda Gerber, International Peace Academy, 2002 Cortright and Lopez both of the Kroc Institute for International Peace Studies U of Notre Dame follow up on their earlier work *The Sanctions Decade* by examining some of the UN changes in sanctions design since 1999 and suggesting that still further changes need to be carried out Noting that it has now become evident that the full scale strangulation of a national economy fails to produce political compliance Recent sanctions against the Taliban in Afghanistan and the Taylor government in Liberia are seen as a laudable refinement but a move from seeing sanctions as solely a punishment towards seeing them as also a form of persuasion is recommended Annotation copyrighted by Book News Inc Portland OR

**Parochial Global Europe** Alasdair R. Young, John Peterson, 2014-04 Argues that trade policy is composed of multiple distinct policies each presenting distinct societal preferences pattern of political institutions and range of government preferences Analyzes EU trade policy as a tool of foreign policy including promoting development encouraging human rights and environmental protection and punishing security threats

**Inside the Situation Room** Hillary Rodham Clinton, Keren Yarhi-Milo, 2025-09-15 Combining decades of diplomacy and world renowned scholarship *Inside the Situation Room* bridges the gap between politics and academia to illuminate how world leaders make decisions in times of crisis For decades people have sought to understand how and why decisions are made in times of crisis but very few get the opportunity to witness leaders decision making process The result has been a persistent disconnect between the theory and the practice of decision making Now a former US Secretary of State has joined forces with a world renowned scholar to bridge that gap first in their ground breaking class at Columbia University's School of International and Public Affairs and now in the pages of this book In *Inside the Situation Room* Secretary Hillary Rodham Clinton and Dr Keren Yarhi Milo bring together insights from more than a dozen leading policymakers and scholars so readers can experience a masterclass in global policy and crisis decision making The book includes everything from the psychology and mechanics of threat assessment the role of advisors the effects of group think and trust real life stories of diplomatic efforts and covert operations how women have shaped decisions over peace and security and the impact of public opinion *Inside the Situation Room* offers an insider look at how decisions

are actually made what theoretical insights might be useful to current and future generations of leaders and where research still needs to be done This book will serve as the first step toward a new standard engagement more active iterative collaboration among two communities scholars and practitioners who have a great deal to contribute and learn from one another

**North Korean Nuclear Operationality** Gregory J. Moore, 2014-01-01 What are the consequences of a successful nuclear program in North Korea Despite near universal opposition to North Korea's moves to acquire nuclear weapons Pyongyang is determined to succeed It is only a matter of time before the North Koreans are able to combine their extant nuclear weapons capabilities with a viable delivery system The threat multiplies in light of the North Koreans having already demonstrated the willingness and ability to sell nuclear technology materials and know how to other nuclear aspirants In *North Korean Nuclear Operationality* Gregory J Moore asks leading experts in Asian and security studies to consider the international consequences of a North Korea with operational nuclear weapons How will South Korea China Japan and Russia react and does it mean an arms race in the region is inevitable How should the United States handle the situation both diplomatically and strategically North Korea has already destabilized the nuclear nonproliferation regime by being the only country ever to withdraw from the Nuclear Non Proliferation Treaty and then openly test nuclear weapons What are the repercussions for the nonproliferation regime of a successful North Korean move to nuclear weapons operationality Given the importance of these issues and the lack of transparency surrounding North Korean politics *North Korean Nuclear Operationality* offers critical and timely insight A foreword by Graham T Allison founding dean of the John F Kennedy School of Government at Harvard University sets the stage for a rigorous look at the threats North Korea poses to regional security and the nuclear nonproliferation regime

*China's Coercion of States in the Asia-Pacific Region* Maximilian Ernst, 2025-02-11 This book explains why China chooses to coerce Asia Pacific regional states despite the risk of such actions creating a backlash and complicating its strategic calculus China's coercion of neighboring states often a variation of heavy informal economic sanctions combined with diplomatic pressure and gray zone coercive measures has been increasingly observable in the past decade It has become an important tool in China's foreign policy toolbox and is frequently used by Beijing to shape the security political environment of the Asia Pacific The book begins with an appreciation of China's complicated geopolitical exposition and an understanding that such coercion creates backlash since the target state will likely be alienated and pushed into closer security cooperation with the United States China's main geopolitical rival Through two in depth case studies of Chinese coercion targeting the Philippines and South Korea respectively the book demonstrates that first the reason China coerces is that the secondary state engages in actions that fundamentally threaten China's security interests and second it will coerce these states only if other policy options geared to change the secondary state's course of action have not worked Employing balance of power theory and particularly wedge strategies the book solves a pertinent research question and improves our knowledge of contemporary security politics in the

**China's Gambit** Ketian Zhang, 2023-12-14 Emerging from an award winning article in International Security China s Gambit examines when why and how China attempts to coerce states over perceived threats to its national security Since 1990 China has used coercion for territorial disputes and issues related to Taiwan and Tibet yet China is curiously selective in the timing target and tools of coercion This book offers a new and generalizable cost balancing theory to explain states coercion decisions It demonstrates that China does not coerce frequently and uses military coercion less when it becomes stronger resorting primarily to non militarized tools Leveraging rich empirical evidence including primary Chinese documents and interviews with Chinese and foreign officials this book explains how contemporary rising powers translate their power into influence and offers a new framework for explaining states coercion decisions in an era of economic interdependence particularly how contemporary global economic interdependence affects rising powers foreign security policies

**International Cooperation** I. William Zartman, Saadia Touval, 2010-06-03 Considers multilateralism and other approaches to international cooperation identifying further areas for research into the issues of international relations

**International Interests in the Gulf Region** The Emirates Center for Strategic Studies and Research, 2004-03-11 Major powers have long pursued their interests across the Arabian Gulf region particularly since the discovery of oil By virtue of their power and influence in world affairs and in international forums the interests of Russia France Germany the United States and Britain are especially notable in the region This publication seeks to consider the various interests of these states in terms of Arabian Gulf s security energy social development commerce and trade as well as the region s role in the war against international terrorism Undoubtedly the strategic importance of the region lies in its vast capacity to fulfill global energy requirements by supplying oil at lower prices than any other oil producing region This invokes the adage that when it comes to foreign policy states have no true allies only interests The present day dynamics of the Gulf region clearly demonstrate this dictum Moreover international interest in the region has increased substantially in the wake of the cataclysmic events of September 11 2001 and the subsequent terrorist attacks attributed to the al Qaeda organization and its affiliates which in large degree stem from the Middle East This fact has brought an unwanted focus on the internal dynamics of several states throughout the region Regional security for oil production and supply on the one hand and political transformation and human development on the other are the driving forces behind the involvement of influential international players in the region The vehicle to achieve these goals has increasingly been seen by the five principle powers as the promotion of internal political reform in several of the region s oil producing states The future stability and development of the Gulf region is of the utmost concern to the United States Britain Russia Germany and France As the contributing authors relate the region is important for a variety of reasons and not one of the five powers adopted a laissez faire approach For each the need for energy security and the reduction of the threat of terrorism emanating from the region cannot be underscored whether set in the context of direct national interests or in the context of international economic political and security relations
