Harvey, 2012-02-01 *Labyrinths of Exemplarity* presents the first comprehensive in depth study of the problem of exemplarity or how we move between the general and the particular in order to try to understand our world The author s focus ranges from the most basic and fundamental issues of what examples are and where they come from to the complex key issues of how examples function in the discourses they inhabit and what this functioning tells us about the nature of examples or exemplarity itself The problem is treated especially in connection to Rousseau and Aristotle with reference to deconstruction especially Derrida and the range of Western metaphysics Ultimately a new theory of examples is offered one not drawn from the assumptions made by earlier philosophers but rather from the usage and functioning of examples in philosophical discourse Haunting Modernity and the Gothic Presence in British Modernist Literature Daniel Darvay, 2016-09-02 This book explores the complex relationship between British modernism and the Gothic tradition over several centuries of modern literary and cultural history Illuminating the blind spots of Gothic criticism and expanding the range of cultural material that falls under the banner of this tradition Daniel Darvay focuses on how late nineteenth and early twentieth century British writers transform the artifice of Gothic ruins into building blocks for a distinctively modernist architecture of questions concerns images and arguments To make this argument Darvay takes readers back to early exemplars of the genre thematically rooted in the English Reformation tracing it through significant Victorian transformations to finally the modernist period Through writers such as Oscar Wilde Joseph Conrad Virginia Woolf E M Forster and D H Lawrence this book ultimately expands the boundaries of the Gothic genre and provides a fresh new approach to better understanding the modernist movement *A Star-crossed Golden Age* Frederick A. The Spirituality of Mazes and Labyrinths Gailand MacQueen,2005 In this full colour beautifully illustrated book Gailand MacQueen uses myth history and personal experience to explore the spiritual meanings of mazes and labyrinths Convinced that labyrinths and mazes have much to teach us Gailand MacQueen invites readers on a sometimes mystical sometimes mysterious journey of spiritual discovery Heidegger and Leibniz R. Cristin,1998-07-31 Cristin philosophy U of

Trieste begins by analyzing the concept of foundation reason as a different option made by the two German philosophers Heidegger and Heidegger. He characterizes Heidegger's critique as a reflection on the meaning and essence of reason and the foundation representing a considerable displacement of them such that infallible theoretical mechanisms and indubitable phenomenal substrata no longer exist. He then discusses what the two think about thinking and suggests that they may come close to agreeing on what Heidegger calls meditating. Finally, he ponders the hypothesis that Heidegger's thinking on Being contains an original mingling of rational and meditating thought that echoes inchoate concepts in Leibniz.

Portland, OR. *Labyrinths of Democracy* Heinz Eulau, Kenneth Prewitt, 1973. *The Idea of the Labyrinth from Classical Antiquity through the Middle Ages* Penelope Reed Doob, 2019-03-15. Ancient and medieval labyrinths embody paradox according to Penelope Reed Doob. Their structure allows a double perspective: the baffling, fragmented prospect confronting the maze-treader within and the comprehensive vision available to those without. Mazes simultaneously assert order and chaos; artistry and confusion articulated clarity and bewildering complexity; perfected pattern and hesitant process. In this handsomely illustrated book, Doob reconstructs from a variety of literary and visual sources the idea of the labyrinth from the classical period through the Middle Ages. Doob first examines several complementary traditions of the maze topos, showing how ancient historical and geographical writings generate metaphors in which the labyrinth signifies admirable complexity while poetic texts tend to suggest that the labyrinth is a sign of moral duplicity. She then describes two common models of the labyrinth and explores their formal implications: the unicursal model with no false turnings, found almost universally in the visual arts; and the multicursal model with blind alleys and dead ends characteristic of literary texts. This paradigmatic clash between the labyrinths of art and of literature becomes a key to the metaphorical potential of the maze as Doob's examination of a vast array of materials from the classical period through the Middle Ages suggests. She concludes with linked readings of four labyrinths of words: Virgil's *Aeneid*, Boethius' *Consolation of Philosophy*, Dante's *Divine Comedy*, and Chaucer's *House of Fame*, each of which plays with and transforms received ideas of the labyrinth as well as reflecting and responding to aspects of the texts that influenced it. Doob not only provides fresh theoretical and historical perspectives on the labyrinth tradition but also portrays a complex medieval aesthetic that helps us to approach structurally elaborate early works. Readers in such fields as Classical literature, Medieval Studies, Renaissance Studies, comparative literature, literary theory, art history, and intellectual history will welcome this wide-ranging and illuminating book.

Light in the Labyrinth Constantino Vincent Riccardi, 2013-04-05. WHAT MAKES A TERRORIST? HOW DOES ATROCIOUS MADNESS DEVELOP? WHAT TURNS A HUMAN BEING INTO A MONSTER BEAST? Some answers to these questions lie in the human proclivity to worship the finite, to project and serve idols, and thus to bring destruction to the idolaters and to others. The psychological, philosophical, theological dynamics of idol formation and idol worship are worked out in *Light in the Labyrinth*.
