Young Researchers Margaret Mallett,2002-02-07 Informational kinds of reading are crucial in every lesson This book looks at how we can encourage children from the very beginning to think of themselves as young researchers using skills and strategies for clear purposes It argues that the creative

practitioner nurtures children's sense of wonder and curiosity about the world and all its phenomena Packed full of advice on how to use the most stimulating and exciting texts and the liveliest approaches the book celebrates the good practice of teachers and student teachers in a large number of classroom case studies The content includes a summary of the recent developments and a framework of principles to inform good practice in this challenging aspect of literacy chapters concentrating on particular age groups beginning with the nursery and ending with the later primary years and thus taking up an essentially developmental approach an assessment of recent research and how findings can be put to practical and creative use in the classroom A central message is that children benefit from collaborating with teachers and peers at every stage of finding out The spoken language energises informational reading and writing making the sharing of the fruits of children's research highly enjoyable This book will inspire you and lead to the very best practice **Turning the Page**

Fiona M. Collins, Jeremy Ridgman, 2006 Since the nineteenth century children's literature has been adapted for both the stage and the screen As the twentieth century progressed children's books provided the material for an increasing range of new media from radio to computer games from television to cinema blockbuster Although such adaptations are now recognised as a significant part of the culture of childhood and popular culture in general little has been written about the range of products and experiences that they generate This book brings together writers whose work offers contrasting perspectives on the process of adaptation and the varying transformations social historical and ideological that take place when a text moves from the page to another medium Linking all these contributions is an interest in the changing definition of children's literature and its target audience within an increasingly media rich society **The 20th Century** Mary Ellen

Media, Memory, and the First World War David Williams, 2009 Why does the Great War seem part of modern memory when its rituals of mourning and remembrance were traditional romantic even classical In this highly original history of memory David Williams shows how classic Great War literature including work by Remarque Owen Sassoon and Harrison was symptomatic of a cultural crisis brought on by the advent of cinema He argues that images from Geoffrey Malins hugely popular war film *The Battle of the Somme* 1916 collapsed social temporal and spatial boundaries giving film a new cultural legitimacy while the appearance of writings based on cinematic forms of remembering marked a crucial transition from a verbal to a visual culture By contrast today s digital media are laying the ground for a return to Homeric memory whether in History Television the digital Memory Project or the interactive war museum Of interest to historians classicists media and digital theorists literary scholars museologists and archivists *Media Memory and the First World War* is a comparative study that shows how the dominant mode of communication in a popular culture from oral traditions to digital media shapes the structure of memory within that culture

Variations of the Hero's Journey in Contemporary British, French and Australian Picture Books about the Great War Martin C. Kerby, Denise Burkhard, Alison Bedford, Marion Gymnich, Margaret M. Baguley, 2025-09-30 This book is grounded in the belief that every nation had its own Great War and that children s picture books are an important barometer of each country s national approach To explore the depiction of the Great War in modern Australian British and French children s picture books where this historical event is reimagined in different ways as a futile conflict as a painful victory and as part of one country s founding mythology this book uses the concept of the hero s journey as an underlying framework It claims that this monomythic pattern as developed by Joseph Campbell and modified by

Christopher Vogler not only informs all picture books selected for this project but can also be used to highlight the extent to which modern children's picture book authors and illustrators conform to their respective nation's cultural memory. It further maintains that the specific historical context of the Great War in these children's picture books can be used to identify a variant of the hero's journey: the ordinary soldier's journey. This analysis of children's picture books about the Great War through the lens of Campbell's hero's journey will be of interest to both students and researchers in the fields of children's literature, literary theory, history, cultural studies, and education.

Michael Foreman's Christmas Treasury Michael

Foreman, 1999-10-12 Filled with favourite songs, poems and stories for Christmas.

Historical Fiction for Children Fiona M. Collins, Judith Graham, 2013-10-18 Historical fiction has a great deal to offer as its readers and devotees have always known. The time is ripe, however, for the historical novel and historical picture book to be promoted more emphatically so that many more are made aware of the delight and learning to be found in the genre. The editors of this book invited authors, academic writers and teachers to reflect on the nature, scope, range and richness of historical fiction for children. What is collected here provides an overview of the field, a consideration of significant writers of historical fiction from the nineteenth century onwards, a sense of the various historical eras commonly explored: Stone Age to World War 2, a discussion of commonly raised issues, themes and topics such as child labor, slavery and migration, and a forum for writers to reveal their insights into the writing of historical fiction. Julian Atterton, Berlie Doherty, Michael Foreman and Philip Pullman have made contributions. It provides evidence of children and students engaging creatively with historical fiction.

Developing

Children's Critical Thinking through Picturebooks Mary Roche, 2014-07-25 This accessible text will show students and class teachers how they can enable their pupils to become critical thinkers through the medium of picturebooks. By introducing children to the notion of making meaning together through thinking and discussion, Roche focuses on carefully chosen picturebooks as a stimulus for discussion and shows how they can constitute an accessible multimodal resource for adding to literacy skills while at the same time developing in pupils a far wider range of literary understanding. By allowing time for thinking about and digesting the pictures as well as the text, and then engaging pupils in classroom discussion, this book highlights a powerful means of developing children's oral language ability, critical thinking and visual literacy while also acting as a rich resource for developing children's literary understanding. Throughout, Roche provides rich data and examples from real classroom practice. This book also provides an overview of recent international research on doing interactive read-alouds, on what critical literacy means, on what critical thinking means, and on picturebooks themselves. Lecturers on teacher education courses for early years or primary levels, classroom teachers, pre-service education students and all those interested in promoting critical engagement and dialogue about literature will find this an engaging and very insightful text.

Promoting Reading for Pleasure in the Primary School Michael Lockwood, 2008-06-24 Winner of the UKLA Author Award

2009 Lockwood has written a useful supportive book which will help teachers and librarians. He describes the background

and summarises the research and then proposes thoroughly practical programmes Carousel Michael Lockwood has produced an excellent practical overview and analysis of what works in the primary school to promote reading for pleasure Lockwood's work is grounded and valuable to those who need it most teachers in the classroom working hard to engender a love of reading English Drama Media This book is first class It puts the matter very clearly and succinctly and presents a great deal of evidence to support the argument that pleasure is not a frivolous extra but the very heart and essence of what reading is about It also gives readers plenty of ideas for carrying the principle into the classroom and for justifying it This is an excellent piece of work which I hope will find a place on every staffroom bookshelf Philip Pullman English primary school children are less likely to read for pleasure than their counterparts in many other countries This practical and focused book discusses the background to this situation and looks at how government initiatives have tried to address it Drawing on the author's own research project in order to identify good practice in promoting reading for enjoyment the book presents specific activities which teachers can use to develop their own whole school and classroom practice enabling them to put the fun back into reading Each chapter features case study material and provides examples of planning from schools that have successfully created thriving reading cultures through schemes such as reading assemblies book clubs library loyalty cards school book evenings and quizzes There is also an extensive annotated list of print and internet based resources Topics covered include Becoming a reading for pleasure school Promoting a love of reading in the early years Developing reading enjoyment in the later primary years Getting boys reading Promoting Reading for Pleasure in the Primary School is written for all those involved in education who would like to see as many children as possible develop a love of reading It will be particularly relevant for primary teachers teaching assistants trainee teachers advisers and consultants as well as teacher educators and researchers
