Dominelli,2013-10-29 Social work is the profession that claims to intervene to enhance people s well being However social workers have played a low key role in environmental issues that increasingly impact on people s well being both locally and globally This compelling new contribution confronts this topic head on examining environmental issues from a social work perspective Lena Dominelli draws attention to the important voice of practitioners working on the ground in the aftermath of environmental disasters whether these are caused by climate change industrial accidents or human conflict The author explores the concept of green social work and its role in using environmental crises to address poverty and other forms of structural inequalities to obtain more equitable allocations of limited natural resources and to tackle global socio political forces that have a damaging impact upon the quality of life of poor and marginalized populations at local levels The resolution of these matters is linked to community initiatives that social workers can engage in to ensure that the quality of life of poor people can be enhanced without costing the Earth This important book will appeal to those in the fields of social work social policy sociology and human geography It powerfully reveals how environmental issues are an integral part of social work s remit if it is to retain its currency in the modern world and emphasize its relevance to the social issues that societies have to resolve in the twenty first century Father Involvement in Canada Jessica Ball,Kerry J. Merlinda Weinberg,2016-03-17 In the helping professions codes of ethics and decision making models have been the primary vehicles for determining what constitutes ethical practice These strategies are insufficient since they assume that shared meanings exist and that the contradictory universal principles of codes can be reconciled Also these tools do not emphasize the significance of context for ethical practice This book takes a new critical theoretical approach which involves exploring how social workers construct what is ethical in their work especially when they are positioned at the intersection of multiple paradoxes including that of two opposing responsibilities in society namely to care for others but also to prevent others from harm The book is built on narratives from actual front line workers and therefore is more applicable and grounded for practitioners and students offering many suggestions for sound practice It illustrates that an understanding of ethics differs

from worker to worker and is heavily influenced by context workers values and what they take up as the primary discourses that frame their perceptions of the profession While recognizing the oppressive potential of social work the book is rooted in a perspective that ethical practice can contribute to a more socially just society **Racialization, Crime, and Criminal Justice in Canada** Wendy Chan,Dorothy Chunn,2014-04-29 Race still matters in Canada and in the context of crime and criminal justice it matters a lot In this book the authors focus on the ways in which racial minority groups are criminalized as well as the ways in which the Canadian criminal justice system is racialized Employing an intersectional analysis Chan and Chunn explore how the connection between race and crime is further affected by class gender and other social relations The text covers not only conventional topics such as policing sentencing and the media but also neglected areas such as the criminalization of immigration poverty and mental illness **Cruel but Not Unusual** Ramona Alaggia,Cathy Vine,2013-05-21 Violence in families and intimate relationships affects a significant proportion of the population from very young children to the elderly with far reaching and often devastating consequences Cruel but Not Unusual draws on the expertise of scholars and practitioners to present readers with the latest research and thinking about the history conditions and impact of violence in these contexts For this new edition chapters have been updated to reflect changes in data and legislation New chapters include an examination of trauma from a neurobiological perspective a critical analysis of the gender symmetry debate a debate that questions the gendered nature of intimate violence and an essay on the history and evolution of the women s movement dedicated to addressing violence against women which advances theoretical developments that remind readers of the breadth of inclusivity that should be at the heart of working in this field

**Transnational Social Support** Adrienne Chambon,Wolfgang Schröer,Cornelia Schweppe,2013-06-17 In the context of ever increasing globalization transnational systems of support have emerged in response to the needs of transnational families labour forces and the communities within which they are located This volume will be the first to systematically address transnational support research from a theoretical and empirical perspective making the concept of transnationality part of the core knowledge structure of social work **Abolition in Social Work and Human Services** Ian Kelvin Hyslop,Bob Pease,2025-09-11 Globally social workers are committed to human rights and challenging unjust social structures However their close ties to the state often reinforce such systems of oppression The first to apply abolitionist theory from international perspectives to social work this book examines this contradiction exploring whether social work can embrace radical change while operating within state structures Bringing together scholars from the United States Canada England Ireland Scotland Finland Australia and Aotearoa New Zealand it explores alternatives for addressing issues such as child protection mental health violence against women drug use violent extremism homelessness and Indigenous sovereignty Essential reading for academics researchers students human service practitioners and social activists this book interrogates the implications of social work s complicity with systems that perpetuate oppression and social injustice **Succeeding**

**Together?** Kelly Gallagher-MacKay, 2017-04-24 Growing attention has focused on the education of children in the child welfare system particularly those in foster care but ninety two percent of children in the child welfare system stay with their parents and their educational needs receive little attention Succeeding Together is an institutional ethnography that analyses front line accounts from mothers teachers and child welfare workers to explore the educational issues facing abused and neglected children outside of foster care Kelly Gallagher Mackay examines the complex policy framework and underlying assumptions that shape the practice of collective responsibility for this vulnerable group shining a light on the implications of their status in between private and public responsibility Gallagher Mackay breaks down collective responsibility into three areas surveillance and the duty to report child welfare s poorly defined responsibility to provide educational supports and the privatized nature of teachers professional responsibility for caring The involvement of child welfare represents a public judgment that there should be strong proactive and coordinated intervention to ensure protection and well being Succeeding Together reveals significant shortfalls in coordination and commitment to the well being of society s most vulnerable
