Literary Location and Dislocation of Myth in the Post/Colonial Anglophone World, 2017-11-01 The English speaking world today is so diverse that readers need a gateway to its many postcolonial narratives and art forms This collection of essays examines this diversity and what brings so many different cultures together Whether Indian Canadian Australasian or Zimbabwean the stories discussed focus on how artists render experiences of separation belonging and loss The histories and transformations postcolonial countries have gone through have given rise to a wide range of myths that retrace their birth evolution and decline Myths have enabled ethnic communities to live together the first section of this collection dwells on stories which can be both inclusive and exclusive under the aegis of nation While certain essays revisit and retell the crucial role women have played in mythical texts like the Mahabharata others discuss how settler colonies return to and reappropriate a past in order to define themselves in the present Crises clashes and conflicts which are at the heart of the second section of this book entail myths of historical and cultural dislocation They appear as breaks in time that call for reconstruction and redefinition a chief instance being the trauma of slavery with its

deep geographical and cultural dislocations. However, the crises that have deprived entire communities of their homeland and their identity are followed by moments of remembrance, reconciliation, and rebuilding. As the term postcolonial suggests, the formerly colonized people seek to revisit and re-investigate the impact of colonization before committing it to collective memory. In a more specifically literary section, texts are read as mythopoeia foregrounding the aesthetic and poetic issues in colonial and postcolonial poems and novels. The texts explored here study in different ways the process of mythologization through images of location and dislocation. The editors of this collection hope that readers worldwide will enjoy reading about the myths that have shaped and continue to shape postcolonial communities and nations.

Witchcraft Myths in American Culture Marion Gibson, 2012-08-21. A fascinating examination of how Americans think about and write about witches, from the real witches tried and sometimes executed in early New England to modern reimaginings of witches as pagan priestesses, comic strip heroines, and feminist icons. The first half of the book is a thorough re-reading of the original documents describing witchcraft prosecutions from 1640-1700, and a rethinking of these sources as far less coherent and trustworthy than most historians have considered them to be. The second half of the book examines how these historical narratives have transformed into myths of witchcraft still current in American society, writing, and visual culture. The discussion includes references to everything from Increase S. Mather and Edgar Allan Poe to Joss Whedon, the writer-director of *Buffy the Vampire Slayer*, which includes a Wiccan character, and *The Blair Witch Project*.

Myths, Narratives and Welfare States Bent Greve, 2020-12-25. This unique book explores the question of whether different myths and narratives have an impact on the development of welfare states. After discussing the various definitions of myths and narratives, Bent Greve disentangles their relationship with the welfare state, referring also to debates on welfare chauvinism, deservingness, and retrenchment.

The Limits of Freedom of Contract Michael J. Trebilcock, 1997-03-25 Our legal system is committed to the idea that private markets and the law of contracts that supports them are the primary institutions for allocating goods and services in a modern economy Yet the market paradigm this book argues leaves substantial room for challenge For example should people be permitted to buy and sell blood bodily organs surrogate babies or sexual favors Is it fair to allow people with limited knowledge about a transaction and its consequences to enter into it without guidance from experts
