Sometimes we aren't meant to see how life will unfold. Samantha Mathers never foresaw herself returning to Gem Creek and she never saw her Gran becoming sick, not even with the gift of premonition she was born with. Then again, Sam's gift doesn't work like that. If it did, she would have known her feelings for Nash Orsin would come rushing back the second she saw him. She would have also known to trust her gut and her bear when it comes to Damon Kincaid, the persistent snake shifter intent on using her gift for his benefit. However, Sam's gift clearly has a few blind spots. Cherished. Sometimes the past comes back to haunt you. Liam Orsin wants one thing this Thanksgiving: for it to be the best one his mate has ever had. In fact, he and his bear have made it their mission. All seems to be going well until a small pack of coyotes start lurking around the campground. Their presence was a hindrance enough, but then a familiar face is spotted among them. Someone has come back, and maintaining the safety of his clan and his mate shifts front and center in Liam's mind. Suddenly surviving the holiday without any casualties seems most important.

Bulls, Bears and a Croupier Matthew Kidman, 2011-10-11 An experienced Australian fund manager explains how the share market can be a fun and simple place to operate if you take the right approach. The share market is awash with new opportunities to profit everyday as millions of shares in thousands of companies change hands. Even if half of your decisions go wrong, you still have a genuine chance of generating a profit like the pros. It really is the easiest game on earth. Despite all of this, the share market has lost its appeal for many people since the onset of the GFC. In *Bulls, Bears and a Croupier*, Matthew Kidman explains why a new bull market with the potential to increase stock prices tenfold is just around the corner and readers need to prise open their wallets. With more than a decade of experience as a professional fund manager, Kidman deconstructs the share market, explodes the myths, and turns traditional thinking on its head to show new and experienced investors alike that the share market can be a lot of fun and you can make a lot of money. You just have to know how.
