The second section of each chapter is told from Hollye's point of view as a medical expert. In addition to providing a glossary of important terms and resources, she addresses the physical and emotional aspects of treatment, highlights what patients can expect, and provides action steps including: What to do when facing a diagnosis; How to find the best and most supportive medical team; What questions to ask; What to expect at medical tests; How to talk with and support children; How to relieve or avoid side effects; How to be a supportive friend or family member; How to find Silver Linings.
