The Era of Authoritarian Neoliberalism Ernesto Gallo, 2025-07-28 We live in an era of crises How should we address them Many turn to experts particularly economists or technologists Others look to strong authoritarian leaders as seen in China or Russia Some advocate a return to the nation state rejecting globalization and targeting immigrants But what about democracy Are we prepared to abandon it This book argues that since the 1970s neoliberalism has increasingly favored authoritarian solutions It s time to break this cycle and strive for a more just fair green and equitable planet

of the development of British racism and of imperialism and its aftermath Classifying Elections in Britain Christopher Kirkland, 2019-11-15 This book seeks to understand and classify differences that exist between a variety of elections in Britain It moves beyond first and second order classifications developed following the European Parliamentary Elections in 1979 to include elections of devolved administrations such as the Scottish Parliament local mayors or the Police and Crime Commissioner Elections Drawing upon a range of elections the book develops a new classification based on the interactions that exist between voters the media and political parties In doing so it argues that alongside voters political parties and the media can and do prioritize certain elections The author explores the role of each group within elections individually through case studies The final chapter then offers an overall means of understanding the levels of salience attached to each election

Racism and Austerity Mike Cole, 2025-06-24 This powerful book analyses racism within Britain's Tory Party along with its immigration policies and imposition of austerity exposing how 14 years of Tory rule deepened inequality and division With vivid examples

from the Windrush scandal and Grenfell tragedy to Islamophobia Cole reveals how hostile environment policies the age of austerity and brutal budget cuts have shaped lives and communities Combining sharp analysis with historical context the book uncovers how these issues are deeply tied to capitalism and class struggles In the light of the rise of the far right in Britain and offering both immediate solutions and a vision for systemic change this crucial work challenges us to imagine a fairer more compassionate society grounded in justice and solidarity

Choosing party leaders Andrew Denham, Peter Dorey, Andrew S. Roe-Crines, 2020-05-15 How political parties choose their leaders and why they choose the leaders they do are questions of fundamental importance in contemporary parliamentary democracies This book examines political leadership selection in the two dominant parties in recent British political history exploring the criteria and skills needed by political leaders to be chosen by their parties While the Conservative Party's strong record in office owes much to ability to project an image of leadership competence and governing credibility the Labour Party has struggled with issues of economic management leadership ability and ideological splits between various interpretations of socialism The authors argue that the Conservatives tend towards a unifying figure who can lead the Party to victory whereas the Labour Party typically choose a leader to unite the party behind ideological renewal Exploring the contemporary political choices of leaders like Boris Johnson and Jeremy Corbyn this book offers a timely insight into the leadership processes of Britain's major political players

The Responsibility to Protect and the International Criminal Court Serena Sharma, 2015-12-22 This book provides an account of how the responsibility to protect R2P and the International Criminal Court ICC were applied in Kenya In the aftermath of the disputed presidential election on 27 December 2007 Kenya descended into its worst crisis since independence The 2007/08 post election crisis in Kenya was among the first situations in which there was an appeal to both the responsibility to protect and a responsibility to prosecute Despite efforts to ensure compatibility between R2P and the ICC the two were far from coherent in this case as the measures designed to protect the population in Kenya undermined the efforts to prosecute perpetrators This book will highlight how the African Union sponsored mediation process effectively brought an end to eight weeks of bloodshed while simultaneously entrenching those involved in orchestrating the violence Having secured positions of power politicians bearing responsibility for the violence set out to block prosecutions at both the domestic and international levels eventually leading the cases against them to unravel As this book will reveal by utilising the machinery of the state as a shield against prosecution the Government of Kenya reverted to an approach to sovereignty that both R2P and the ICC were specifically designed to counteract This book will be of interest to students of the Responsibility to Protect humanitarian intervention African politics war and conflict studies and IR Security Studies in general

Power, Politics and Territory in the 'New Northern Ireland' Elizabeth DeYoung, 2023-10-15 Winner of the ACIS Donald Murphy Prize for Distinguished First Book 2023 In the wake of the Good Friday Agreement the redevelopment of the former Girdwood Army Barracks in North Belfast was hailed as a symbol of hope for Northern Ireland It was a major investment in a

former conflict zone and an internationally significant peacebuilding project Instead of adhering to the tenets of the Agreement sectarianism dominated the regeneration agenda Throughout the process politicians community groups and paramilitaries wrangled over the site s future and territorial contest won out over housing need After eleven years of negotiation and 11.7 million the EU funded Girdwood Community Hub opened its doors to the public in 2016 but its impact has been underwhelming The Hub s redevelopment is a microcosm of the peace process itself and the ways in which post Agreement politics have failed to deliver a shared future for the people of Northern Ireland twenty five years on This ethnography provides a lively account of Girdwood s redevelopment and a wry critique of the fractious political context around it Through flânerie and encounter the author brings us across peace walls into community meetings and behind the scenes of decision making in Northern Ireland Girdwood s story also sheds light on how power politics and territory intersect in divided cities globally

Democratic Incongruities D. Judge, 2014-03-07 Clear disparities exist between notions of representative democracy and political practice in Britain Alternative models of democracy however have their own incongruities in trying to marry representation and democracy This book analyses the mismatches in democratic theories and between theory and practice in British representative democracy

[Online Reporting of Elections](#) Einar Thorsen, 2014-10-29 This book contributes to debates concerning online reporting of elections and the challenges facing journalism in the context of democratic change The speed of technological adaptation by journalists and their audiences means online news is gradually becoming a normalised part of media landscapes across the world Journalists monitor social media for insight into the political process and as an instant indication of public sentiment rather than waiting for press releases and opinion polls Citizens are actively participating in online political reporting too through publishing eyewitness accounts political commentary crowd sourcing and fact checking information of political manifestos and media reports alike It is therefore growing increasingly important to understand how political journalism is evolving through new communicative forms and practices in order to critique its epistemological role and function in democratic societies and examine how these interventions influence daily online political reporting across different national contexts This volume covers comparative research based studies across a range of national contexts and electoral systems including Australia ten African countries the European Union Greece the Netherlands India Iran Sweden the UK and the USA This book was originally published as a special issue of Journalism Practice

The Decade in Tory Russell Jones, 2022-10-27 In 2020 the United Kingdom reached a bewildering milestone ten successive years of Conservative rule In that decade there were three prime ministers each in turn described as the worst leader we ever had ministerial resignations by the hundred and an unrelenting stream of ineffectual divisive bum slurry oozing from 10 Downing Street The Decade in Tory is an inglorious rollicking and entirely true account of ten years of demonstrable lies relentless incompetence epic waste serial corruption official police investigations anti democratic practices abuse of power dereliction of duty and hundreds of thousands of avoidable deaths With his

signature scathing wit Russell Jones breaks down the government's interminable failures year by year covering everything from David Cameron's pledge to tackle inequality which reduced UK life expectancy for the first time since 1841 through the bewildering storm of lies and betrayals that led to Brexit devastating education cuts serial mismanagement of the NHS and Boris Johnson's calamitous response to the Covid 19 pandemic It will leave you gasping and wondering can things possibly get any worse **The Oxford Handbook of Electoral Systems** Erik S. Herron, Robert J. Pekkanen, Matthew S.

2007-8 financial crisis and its aftershocks international capitalism has once again been in crisis The crisis has been particularly marked in the UK and its outcome is currently unclear Based upon a wealth of sources from newspapers journals government political party and polling organisation publications as well as archival and secondary material Neville Kirk examines the systemic crisis facing the nations of the UK The book traces the crisis from the period following the 2016 EU referendum up to 2022 a period during which the crisis intensified and became more widespread Kirk covers the elections of 2017 and 2019 political fragmentation Scottish nationalism Brexit the coronavirus pandemic continuing economic problems and conflicts around class gender race and nation Finally the book considers competing pathways out of the current impasse Through his thorough examination of the UK's main political parties and players Kirk offers the reader a new and original understanding of how we reached the present situation **UK Politics** Andrew Blick, 2021 UK Politics is the ideal

Daigle, Joséphine Neulen, Austin Hofeman, 2018-11-17 This project offers an in depth look at the three 2017 elections held in Western Europe France Germany and the UK With events like Brexit and a general rise in right wing populism across highly industrialized nations understanding the underlying causes of increasingly extreme electoral behavior is both valuable and prescient A highly theoretically focused and current project it provides a consistent methodological and

analytic approach that uses election study data and primary sources to offer a complete and cogent picture of this complex phenomenon as can only be found by examining the attitudes and behaviors of the most powerful of democratic participants the voters
