Michael Byers

Bbc News Zimbabwe Timeline:

A History of Zimbabwe A. S. Mlambo, 2014-04-07 The first single volume history of Zimbabwe with detailed coverage from pre colonial times to the present this book examines Zimbabwe's pre colonial colonial and postcolonial social economic and political history and relates historical factors and trends to recent developments in the country Zimbabwe is a country with a rich history dating from the early San hunter gatherer societies The arrival of British imperial rule in 1890 impacted the country tremendously as the European rulers exploited Zimbabwe's resources giving rise to a movement of African nationalism and demands for independence This culminated in the armed conflict of the 1960s and 1970s and independence in 1980 The 1990s were marked by economic decline and the rise of opposition politics In 1999 Mugabe embarked on a violent land reform program that plunged the nation's economy into a downward spiral with political violence and human rights violations making Zimbabwe an international pariah state This book will be useful to those studying Zimbabwean history and those unfamiliar with the country's past

Explaining Foreign Policy in Post-Colonial Africa Stephen M. Magu, 2021-01-02 This book explores foreign policy developments in post colonial Africa A continental foreign policy is a tenuous proposition yet new African states emerged out of armed resistance and advocacy from regional allies such as the Bandung Conference and the League of Arab States Ghana was the first Sub Saharan African country to gain independence in 1957 Fourteen more countries gained independence in 1960 alone and by May 1963 when the Organisation of African Unity OAU was formed 30 countries were independent An early OAU committee was the African Liberation Committee ALC tasked to work in the Frontline States FLS to support independence in Southern Africa Pan Africanists in alliance with Brazzaville Casablanca and Monrovia groups approached continental unity differently and regionalism continued to be a major feature Africa's challenges were often magnified by the capitalist democratic versus communist socialist bloc rivalry but through Africa's use and leveraging of IGOs the UN UNDP UNECA GATT NIEO and others to advance development the formation of the African Economic Community OAU's evolution into the AU and other alliances belied collective actions even as Africa implemented decisions that required cooperation uti possidetis maintaining colonial borders containing secession intra and inter state conflicts rebellions and building RECs and a united Africa as envisioned by Pan Africanists worked better collectively

Vamos Joseph Kling, 2012-03-23 A book on traveling through Africa Asia Europe and parts of the United States

Economic Statecraft and Foreign Policy Jean-Marc F. Blanchard, Norrin M. Ripsman, 2013-07-18 This book develops a unified theory of economic statecraft to clarify when and how sanctions and incentives can be used effectively to secure meaningful policy concessions High profile applications of economic statecraft have yielded varying degrees of success The mixed record of economic incentives and economic sanctions in many cases raises important questions Under what conditions can states modify the behaviour of other states by offering them tangible economic rewards or by threatening to disrupt existing economic relations To what extent does the success of economic statecraft depend on the

magnitude of economic penalties and rewards In order to answer these questions this book develops two analytic models one weighs the threats economic statecraft poses to the Target s Strategic Interests TSI while the other stateness assesses the degree to which the target state is insulated from domestic political pressures that senders attempt to generate or exploit Through a series of carefully crafted case studies including African apartheid and Japanese incentives to obtain the return of the Northern Territories the authors demonstrate how their model can yield important policy insights in regards to contemporary economic sanctions and incentives cases such as Iran and North Korea This book will be of much interest to students of statecraft sanctions diplomacy foreign policy and international security in general

Amnesty, Human Rights and Political Transitions Louise Mallinder, 2008-09-10 Amnesty laws are political tools used since ancient times by states wishing to quell dissent introduce reforms or achieve peaceful relationships with their enemies In recent years they have become contentious due to a perception that they violate international law particularly the rights of victims and contribute to further violence This view is disputed by political negotiators who often argue that amnesty is a necessary price to pay in order to achieve a stable peaceful and equitable system of government This book aims to investigate whether an amnesty necessarily entails a violation of a state s international obligations or whether an amnesty accompanied by alternative justice mechanisms can in fact contribute positively to both peace and justice This study began by constructing an extensive Amnesty Law Database that contains information on 506 amnesty processes in 130 countries introduced since the Second World War The database and chapter structure were designed to correspond with the key aspects of an amnesty why it was introduced who benefited from its protection which crimes it covered and whether it was conditional In assessing conditional amnesties related transitional justice processes such as selective prosecutions truth commissions community based justice mechanisms lustration and reparations programmes were considered Subsequently the jurisprudence relating to amnesty from national courts international tribunals and courts in third states was addressed The information gathered revealed considerable disparity in state practice relating to amnesties with some aiming to provide victims with a remedy and others seeking to create complete impunity for perpetrators To date few legal trends relating to amnesty laws are emerging although it appears that amnesties offering blanket unconditional immunity for state agents have declined Overall amnesties have increased in popularity since the 1990s and consequently rather than trying to dissuade states from using this tool of transitional justice this book argues that international actors should instead work to limit the more negative forms of amnesty by encouraging states to make them conditional and to introduce complementary programmes to repair the harm and prevent a repetition of the crimes David Dyzenhaus This is one of the best accounts in the truth and reconciliation literature I ve read and certainly the best piece of work on amnesty I ve seen Diane Orentlicher Ms Mallinder s ambitious project provides the kind of empirical treatment that those of us who have worked on the issue of amnesties in international law have long awaited I have no doubt that her book will be a much valued and widely cited resource

War Law Michael

Byers,2007-12-01 Professor Byers's book goes to the heart of some of the most bitterly contested recent controversies about the International Rule of Law. Chris Patten, Chancellor of Oxford University, International law governing the use of military force has been the subject of intense public debate. Under what conditions is it appropriate or necessary for a country to use force when diplomacy has failed? Michael Byers, a widely known world expert on international law, weighs these issues in *War Law*. Byers examines the history of armed conflict and international law through a series of case studies of past conflicts ranging from the 1837 Caroline Incident to the abuse of detainees by US forces at Abu Ghraib prison in Iraq. Byers explores the legal controversies that surrounded the 1999 and 2001 interventions in Kosovo and Afghanistan and the 2003 war in Iraq, the development of international humanitarian law from the 1859 Battle of Solferino to the present, and the role of war crimes tribunals and the International Criminal Court. He also considers the unique influence of the United States in the evolution of this extremely controversial area of international law. *War Law* is neither a textbook nor a treatise but a fascinating account of a highly controversial topic that is necessary reading for fans of military history and general readers alike. Should be read and pondered by those who are seriously concerned with the legacy we will leave to future generations.

Noam Chomsky *Routledge Handbook on Palestine* Michael Dumper, Amneh Badran,2024-12-30 This Handbook provides a broad overview of Palestinian history, society, politics, and culture across different contexts and periods, revealing the rich and varied dimensions of Palestine. To capture the diversity of Palestinian scholarship and to introduce readers to a mix of approaches and perspectives, both internationally established and emerging Palestinian scholars have contributed. The Handbook attempts to avoid narrowly framing Palestine around the Israeli-Palestinian conflict, incorporating postcolonial approaches attentive to a broader range of hitherto overlooked actors. While a significant proportion of the Handbook examines the contemporary period, it is divided up into four sections that together provide a detailed overview of the main developments in the region: A historical section that contextualizes the complex historical formation of contemporary Palestine, perhaps best regarded as a country but not yet a state; A section exploring the society, geography, economy, and identity of Palestine; A section on the political significance of Palestine, covering the dynamics between Jewish nationalism, Zionism, and Palestinian nationalism; A final section on culture, touching on architecture, literature, music, cuisine, education, and contemporary art. Providing a deep analysis of the Palestinian perspective, the Handbook will prove valuable reading for anyone interested in the history, politics, and society of Palestine and the Middle East.

How Regional Organizations Sustain Authoritarian Rule Maria J. Debre,2025-02-11 Authoritarian regional organizations have experienced a remarkable rise in numbers and importance. Autocracies across the world have joined organizations such as the Shanghai Cooperation Organization (SCO), the Gulf Cooperation Council (GCC), and the Bolivian Alliance for the People of Our America (ALBA) over the last few decades. But why do autocracies institutionalize cooperation and join regional organizations, considering the possible sovereignty costs? Do authoritarian regional organizations differ from their democratic counterparts in terms of activities and

design What are the domestic effects of membership for authoritarian rule How Regional Organizations Sustain Authoritarian Rule explores the rise in and the impact of authoritarian regional organizations the Dictators Clubs in world politics It examines how and why incumbent autocratic regimes sort into regional authoritarian organizations compares their activities and designs to their democratic counterparts and considers the political effects on member states With a combination of statistical survival analysis and case studies from the Middle East Eur Asia Sub Saharan Africa and Latin America Maria J Debre reveals that regional organizations have helped to defend autocratic regimes from pro democratic protestors co opt political elites legitimize flawed elections regulate behavior among members to prevent unwanted domestic interference and shield regimes against the fallout from international sanctions While regionalism has long been associated with the aspiration of states to promote democracy and human rights Debre illustrates that these dictators clubs bolster authoritarian rule worldwide

State Formation After Civil War Derek M Powell, 2016-08-05 State formation after civil war offers a new model for studying the formation of the state in a national peace transition as an integrated national phenomenon Current models of peacebuilding and state building limit that possibility reproducing a fragmented selective view of this complex reality Placing too much emphasis on state building as design they place too little on understanding state formation as unplanned historical process The dominant focus on national institutions also ignores the role that cities and civic polities have played in constituting the modern state Mining ideas from many disciplines and evidence from 19 peace processes including South Africa the book argues that the starting point for building a systematic theory is to explain a distinct pattern to state formation that can be observed in practice Despite their conflicts people in fragile societies bargain terms for peaceful coexistence they make attempts to constitute the right to rule as valid state authority in circumstances prone to conflict over which they have imperfect influence not control Though the kind of institutions created will differ with context how rules for state authority are institutionalized follows a consistent basic pattern That pattern defines state formation in peace transitions as both a unified if contingent field of normative practice and an object of comparative study Where the national centric models see local government as a matter belonging to policy on decentralization for later in the reconstruction phase the book uncovers a distinct local government dimension to peace transitions A civic dimension to national conflicts that must be explained incipient or proto local authorities that emerge even during civil war in peace making after state collapse the fact that it is common for peace agreements and constitutions to include rules for local authority for local elections to be held as part of broader democratization and for laws to be enacted to establish local government as part of peace compacts The book develops the concept of local peace transition to explain the distinctive constitutive role of this local dimension in peace making and state formation This path breaking book will be of compelling interest to practitioners scholars and students of comparative constitutional studies international law peace building and state building

Military Assistance on Request and the Use of Force Erika De Wet, 2020 This book examines the

extent which the proliferation of military assistance on request is changing the rules governing the use of force The author explores the authority to make these requests particularly during civil wars where some territorial control may be lost and there is a risk of systematic violations of international humanitarian law

An Economic History of Organized Crime

Dennis M. P. McCarthy, 2011-05-15 This book is a comparative study of organized crime groups from five different parts of the world Europe North America Central America South America Caribbean basin Africa and Asia Western Pacific Each part contains two case studies and a shorter essay a vignette From Europe the case studies focus on the Italian mafias and the Russian mafia the vignette on the Albanian mafia From North America the case studies highlight the US Mafia and the Mexican drug cartels the vignette organized crime in Canada From Central America South America Caribbean basin the case studies concentrate on the Colombian drug cartels and gangs of the Caribbean the vignette on organized crime in Cuba From Africa the case studies examine resource wars and Somali piracy the vignette relations among international drugs trafficking organized crime and terrorism in North and West Africa And from Asia Western Pacific the case studies spotlight the Chinese Triads and Japanese Yakuza the vignette relations among international drugs trafficking organized crime and terrorism in Afghanistan Written in non specialist language An Economic History of Organized Crime provides an original overview of a crucial problem of our times the growing scourge of global organized crime This book can be read with profit by the general public but it also has value for academic specialists and professionals in law enforcement

Dictator's Handbook

Randall Wood, Carmine DeLuca, 2012-06 Ever wonder if the world's tyrants are all using the same instruction manual They are here it is From getting to power to dividing your enemies suppressing revolution stealing elections and making your fortune this 320 page volume shows you how the pros have been doing it for centuries Fully factual with a complete bibliography and footnotes the Dictator's Handbook gives you a road map to tyranny step by step Beautifully illustrated by a professional artist the text is funny and deadly serious This is truly a practical manual for the aspiring tyrant

Justice and Peace

Thompson, Milburn J., 2019-06-26 The third edition of this popular classroom text provides thoroughly revised and updated discussions of key topics including ethno nationalist conflict terrorism and poverty and development as J Milburn Thompson masterfully brings a Christian perspective to bear on the world situation With this book he provides an introduction to current obstacles to justice and peace across the globe and encourages Christians to draw upon an informed faith to transform themselves and the world

Trafficking in Slavery's Wake

Benjamin N. Lawrance, Richard L. Roberts, 2012-08-22 Women and children have been bartered pawned bought and sold within and beyond Africa for longer than records have existed This important collection examines the ways trafficking in women and children has changed from the aftermath of the end of slavery in Africa from the late nineteenth century to the present The formal abolition of the slave trade and slavery did not end the demand for servile women and children Contemporary forms of human trafficking are deeply interwoven with their historical precursors and scholars and activists need to be informed about the long history of trafficking in order to better assess and

confront its contemporary forms This book brings together the perspectives of leading scholars activists and other experts creating a conversation that is essential for understanding the complexity of human trafficking in Africa Human trafficking is rapidly emerging as a core human rights issue for the twenty first century Trafficking in Slavery s Wake is excellent reading for the researching combating and prosecuting of trafficking in women and children Contributors Margaret Akullo Jean Allain Kevin Bales Liza Stuart Buchbinder Bernard K Freamon Susan Kreston Benjamin N Lawrance Elisabeth McMahon Carina Ray Richard L Roberts Marie Rodet Jody Sarich and Jelmer Vos

Teaching with Primary Sources for Cultural Understanding, Civic Mindedness, and Democracy Scott M. Waring,2024 Contributors explore methods of incorporating primary source materials into classroom instruction to promote civic engagement

Social Movements, 1768 - 2012 Charles Tilly,Lesley J. Wood,2015-12-22 The updated and expanded third edition of Tilly s widely acclaimed book brings this analytical history of social movements fully up to date Tilly and Wood cover such recent topics as the economic crisis and related protest actions around the globe while maintaining their attention to perennially important issues such as immigrants rights new media technologies and the role of bloggers and Facebook in social movement activities With new coverage of colonialism and its impact on movement formation as well as coverage and analysis of the 2011 Arab Spring this new edition of Social Movements adds more historical depth while capturing a new cycle of contention today New to the Third Edition Expanded discussion of the Facebook revolution and the significance of new technologies for social movements Analysis of current struggles including the Arab Spring and pro democracy movements in Egypt and Tunisia Arizona s pro and anti immigration movements the Tea Party and the movement inspired by Occupy Wall Street Expanded discussion of the way the emergence of capitalism affected the emergence of the social movement

History of Zimbabwe , Africa is NOT for sale Abdelaziz Sulaiman Yasin,2025-07-30 The African continent has never been proffered upon the bazaar of imperial titans by its own peoples alas it has been and remains dangled for auction by those who subjugated its inhabitants ruling them through the iron fist of tyranny and terror wielded by the machinery of militarism armaments and legions sustained from the very coffers of the people s toil and the bounties of their homeland This resplendent continent teeming with the vigor of youth in the majority of its denizens is paradoxically governed by despots whose years have eclipsed eighty or seventy in the most merciful of reckonings The earth once vast and welcoming has constricted around its young in this beauteous realm casting them adrift upon shoreless seas into merciless metropolises and nations that siphon the nectar of their prime In this tome the author beseeches every government and sovereign of the magnificent continent to forge unbreakable bonds of unity charting a primordial course toward the reclamation of African dignity and exalted pride let the militarists eschew the siren call of coups d tat yielding the stage to a democracy attuned to the rhythms of their peoples and the cadence of their existence The author summons all Africans to forsake the shadows of charlatanry sorcery enchantment the veneration of the departed and the deification of the living let them pivot toward the luminous realms of science illuminating their multitudes

with the radiant torch of cognitive enlightenment Elevate the stipends of educators to summits surpassing those of presidents parliamentarians and politicians those notorious purveyors of hypocrisy The author insists with unyielding conviction that no path unfurls before Africans save this to coalesce and birth the United States of Africa graced with a singular currency and a covenant of mutual defense For Africa shall be exalted by none but her own steadfast sons and daughters await not the white man nor the yellow nor ethereal visitors from the stars to exalt your stature if you do not exalt it with your own indomitable will

The Columbia Guide to Central African Literature in English Since 1945 Adrian A. Roscoe, 2008 Columbia's guides to postwar African literature paint a unique portrait of the continent's rich and diverse literary traditions This volume examines the rapid rise and growth of modern literature in the three postcolonial nations of Zimbabwe Malawi and Zambia It tracks the multiple political and economic pressures that have shaped Central African writing since the end of World War II and reveals its authors' heroic efforts to keep their literary traditions alive in the face of extreme poverty and AIDS Adrian Roscoe begins with a list of key political events Since writers were composing within both colonial and postcolonial contexts he pays particular attention to the nature of British colonialism especially theories regarding its provenance and motivation Roscoe discusses such historical figures as David Livingstone Cecil Rhodes and Sir Harry Johnston as well as modern power players including Robert Mugabe Kenneth Kaunda and Kamuzu Banda He also addresses efforts to create a literary historical record from an African perspective an account that challenges white historiographies in which the colonized was neither agent nor informer A comprehensive alphabetical guide profiles both established and emerging authors and further illustrates issues raised in the introduction Roscoe then concludes with a detailed bibliography recommending additional reading and sources At the close of World War II the people of Central Africa found themselves mired in imperial fatigue and broken promises of freedom This fueled a desire for liberation and a major surge in literary production and in this illuminating guide Roscoe details the campaigns for social justice and political integrity for education and economic empowerment and for gender equity participatory democracy rural development and environmental care that characterized this exciting period of development

Public Health in Postcolonial Africa Olukayode Faleye, Tanimola Akande, Inocent Moyo, 2023-11-03 This fascinating multi-disciplinary collection examines how public health interventions in postcolonial Africa mirror wider manifestations of power in the region Beyond the role of public health intervention in tackling disease and prolonging life the book measures the social and political determinants of health which continue to exist in the postcolonial era The volume features contributions from scholars across both the social sciences and humanities exploring ongoing debates across a broad range of themes including Infopolitics biopolitics and healthcare Emerging infectious diseases environment and food cultures Health interventions and economic security Church administration and healthcare Livelihood sex sexuality and HIV/AIDS Offering a fresh and insightful understanding of health issues in this important global region and including chapters on issues around the Covid 19 pandemic the book will interest

students and researchers across a range of disciplines including global health politics and African studies
