Bbc News International:

International Statebuilding in West Africa Abu Bakarr Bah, Nikolas Emmanuel, 2024-08-06 At the turn of the twenty first century manipulation of the democratic process coupled with preexisting political and economic grievances led to years long civil wars in Sierra Leone Liberia and Cote d'Ivoire During and after these conflicts international peacekeeping efforts and humanitarian intervention became the dominant paths for restoring stability by rebuilding the state Using these three countries as case studies this manuscript sheds light on internationally driven state building in war torn West African nations the problematic nature of the postcolonial state and the difficulties of securing its people's wellbeing Connecting peace and conflict democracy and international development studies Bah and Emmanuel argue that there is a clear nexus between the concepts and practices of peace building and statebuilding that peace building and statebuilding are not domestic matters alone but also matters of global intervention and that civil wars can be viewed as opportunities for state building through creative postwar partnerships and organization This study goes beyond the familiar concepts of failed states R2P peacekeeping and peace mediation and introduces and enhances the concepts of state decay new humanitarianism people centered liberalism and institutional design In doing so it provides critical lessons that local and international actors can draw on as they try to figure out practical solutions to the political economic and social problems that impede the development of peaceful and democratic multiethnic postcolonial states in Africa and beyond Applying comparative historical methods and theory to archival materials and expert interviews International Statebuilding in West Africa seeks to shift the discourse on civil wars from their causes and implications to the opportunities they provide to rework failed states and to shift the discourse on African states from their colonial and neocolonial legacies to their shared moral and security interests with the rest of the world

The Responsibility to Protect and the International Criminal Court Serena Sharma, 2015-12-22 This book provides an account of how the responsibility to protect R2P and the International Criminal Court ICC were applied in Kenya In the aftermath of the disputed presidential election on 27 December 2007 Kenya descended into its worst crisis since independence The 2007/08 post election crisis in Kenya was among the first situations in which there was an appeal to both the responsibility to protect and a responsibility to prosecute Despite efforts to ensure compatibility between R2P and the ICC the two were far from coherent in this case as the measures designed to protect the population in Kenya undermined the efforts to prosecute perpetrators This book will highlight how the African Union sponsored mediation process effectively brought an end to eight weeks of bloodshed while simultaneously entrenching those involved in orchestrating the violence Having secured positions of power politicians bearing responsibility for the violence set out to block prosecutions at both the domestic and international levels eventually leading the cases against them to unravel As this book will reveal by utilising the machinery of the state as a shield against prosecution the Government of Kenya reverted to an approach to sovereignty that both R2P and the ICC were specifically designed to counteract This book will be

of interest to students of the Responsibility to Protect humanitarian intervention African politics war and conflict studies and IR Security Studies in general **Negotiating Sovereignty and Human Rights** Michaelene Cox, 2016-04-22 Providing an overview of institutional developments and innovations in human rights politics this volume discusses some of the most important current and emerging human rights issues It takes stock of the initiatives policy responses and innovations of past years to identify some of the challenges that will likely require bold and innovative solutions The contributors focus on actors and or issues that are outside the mainstream of international human rights politics the chapters address issues that have only emerged as an important part of the international human rights agenda and generated much advocacy diplomacy and negotiations since the end of the Cold War These issues include the International Criminal Court the norm of Responsibility to Protect R2P the proliferation of small arms and light weapons and its human rights impact truth commissions and the rights of persons with disabilities The contributions offer a direct challenge to entrenched notions of state sovereignty and represent a departure from established ways of policy making *Tourism and Development* Richard Sharpley, David J.

Telfer, 2015 This book explores the relationship between tourism and development and establishes a conceptual link between the interconnected disciplines of tourism studies and development studies This new edition includes updated chapters drawing on contemporary knowledge as well as 5 new chapters that consider emergent themes in tourism and development

The Security Dimensions of the Syrian Civil War Serhat Ahmet Erkmen, Mehmet Emin Erendor, 2024-12-16 Syria's bloody civil war has plunged the cradle of the Levant into a painful spiral of violence This spiral of violence has caused profound social political economic and strategic changes in Syria But the effects of the civil war are not limited to Syria The civil war in Syria has become a direct problem not only for Syria but also for T rkiye Iraq Lebanon and Jordan However most observers agree that of all Syria's neighbors T rkiye has been the most affected by the civil war When one thinks of T rkiye and Syria together in recent years two concepts come to mind most often Military operations and migration However conflicts in Syria have been perceived in a broader security paradigm in T rkiye The main topics of the book can be summarized as follows Border issues sovereignty disputes alliances and military interventions in T rkiye Syria relations The effects of the civil war in Syria on T rkiye's foreign policy economy social structure and internal security Reflections of the civil war on T rkiye's relations with Iran the US and Russia Increasing separatist and radical Salafist terrorism in T rkiye in line with the spillover effect of civil wars Cross border operations and T rkiye's military capacity The problem of migration Within the framework of the topics addressed the book provides a comprehensive reading of the security problems caused by the Syrian Civil War on T rkiye We believe that this book will shed light on why T rkiye perceives what is happening in Syria from a security perspective In fact the main idea of the book is simple Syria has been a security issue for T rkiye since the 1930s and it is still a security issue now After approximately 100 years the main idea has not changed The only thing that has changed is how security is defined Global Health Solomon Benatar, Gillian Brock, 2021-02-18 Offers theoretical and practical guidance for

addressing global health and a deeper understanding of the challenges humanity faces The Gulf Wars with Iraq Jane Bingham, 2013 Why has the recent War in Iraq been so contentious whereas the First Gulf War was supported by a broad coalition of nations Why are they of such global significance And how did the wars affect people on both sides of the conflict This book seeks to relate the overall events and chronology of the wars and shows their impact on everyday lives U.S. Security Cooperation with Africa Robert J. Griffiths, 2016-04-14 As Africa's strategic importance has increased over the past decade and a half United States security cooperation with the continent has expanded The most visible dimension of this increased engagement was the establishment of the U S Military Command for Africa AFRICOM Some critics are skeptical of AFRICOM's purpose and see the militarization of U S Africa policy while others question its effectiveness Recognizing the link between development and security AFRICOM represents a departure from the traditional organization of military commands because of its holistic approach and the involvement of the Department of State as well as other U S government stakeholders Nevertheless AFRICOM's effort to combine security and development faces formidable conceptual and operational challenges in trying to ensure both American and African security interests The human security perspective's emphasis on issues that go beyond traditional state centered security to include protecting individuals from threats of hunger disease crime environmental degradation and political repression as well as focusing on social and economic justice is an important component of security policy At the same time the threat of violent extremism heavily influences U S security cooperation with Africa In this examination of the context of U S African security relations Robert J Griffiths outlines the nature of the African state traces the contours of African conflict surveys the post independence history of U S involvement on the continent and discusses policy organization and implementation and the impact of U S experiences in Iraq and Afghanistan on the U S Africa security relationship Africa's continuing geostrategic significance the influence of China and other emerging markets in the region and America's other global engagements especially in light of U S fiscal realities demonstrate the complexity of U S African security cooperation **Global Radical Islamist Insurgency: AL QAEDA AND ISLAMIC STATE NETWORKS FOCUS** Dave Dilegge and Robert J. Bunker, 2016-02-11 This anthology the second of an initial two volume set specifically covers Small Wars Journal writings on Al Qaeda and the Islamic State spanning the years 2012-2014 This set is meant to contribute to U S security debates focusing on radical Islamist global insurgency by collecting diverse SWJ essays into more easily accessible formats Small Wars Journal has long been a leader in insurgency and counterinsurgency research and scholarship with an emphasis on practical applications and policy outcomes in furtherance of U S global and allied nation strategic interests The site is able to lay claim to supporting the writings of many COIN counterinsurgency practitioners This includes Dr David Kilcullen whose early work dating from late 2004 Countering Global Insurgency helped to lay much of the conceptual basis focusing on this threat and as a result greatly helped to facilitate the writings that were later incorporated into these Al Qaeda and Islamic State focused anthologies This volume is composed of

sixty six chapters divided into sections on a radical Islamist OPFORs opposition forces and context and b U S allied policy and counter radical Islamist strategies The work also contains a preface by Matt Begert a foreword by Dr Daveed Gartenstein Ross and Bridget Moreng an introduction a postscript an extensive notes section and editor and contributor biographies on sixty four individuals as well as an acronyms listing and an initial About SWJ and foundation section

Europe's World

Knud Erik Jørgensen, Tonny Brems Knudsen, Laura Landorff, 2025-05-27 The EU's international environment is increasingly characterized by power politics great power rivalry ideological contestation and war This has challenged the liberal internationalist identity that has been at the heart of the EU since its birth This book examines how the EU has responded to these new realities It analyses the introduction of a flurry of concepts including European sovereignty strategic autonomy civilization responsibility and strategic compass and asks whether these signal a reconsideration of foreign policy objectives a new strategic orientation or possibly a paradigm shift The book develops a theoretical framework on policy paradigms worldviews grand strategy strategic narratives and the drivers of institutional change followed by chapters on the anti liberal challenge the evolution of the EU framework of ideas the search for grand strategy and strategic autonomy the response to Russian aggression and imperial thinking and continuity and change in EU unity working groups green leadership and strategic communication

Boko Haram and International Law John-Mark Iyi, Hennie Strydom, 2018-06-27 This book focuses on Boko Haram and terrorism in Nigeria framing the conflict in an international law context It analyses the nature of political violence and the dominant roles of a violent nation state in both colonial and post colonial experiences and the rise of terrorism in Nigeria The book unearths embedded evidence of religious nepotism on the part of state officials using such state institutions as Islamic Preaching Boards to promote one Islamic sect over another in mainly Muslim Northern Nigeria The book offers insights into this subtle sectarian divide and how this and other subterranean elements have contributed to the rise of Boko Haram in Northern Nigeria beyond the dominant poverty terrorism nexus narrative Furthermore the book analyses the various components of Boko Haram's radical ideology situates them in Islamic Jurisprudence and examines the philosophy of the group both in doctrine and practice their interpretation of the Koran and the waging of Jihad and the extent to which they conform to the Islamic Sect Boko Haram claims to follow The book then examines the basic doctrinal features and characteristics of Boko Haram waging Jihad prohibiting revealing dresses for women and mixing of genders rejecting western values and institutions denouncing scientific inquiry and democracy hostage taking sexual exploitation of captives and other aspects of jus ad bellum and jus in bello in Islamic jurisprudence and international law Finally the book analyses the plight of vulnerable groups such as internally displaced persons the atrocities committed against women and girls in the Boko Haram insurgency and the inability of international law to enforce the protections offered to the victims From the perspective of critical intellectual inquiry the book also challenges a number of fundamental assumptions and encourages us to revisit our legal characterisation of certain concepts such as gender based crimes It then goes further to analyse some

legal grey areas in the Boko Haram insurgency such as the legal status of the Civilian Joint Task Force CJTF and the legal framework for holding members accountable for violations of international human rights and humanitarian law Overall the book represents a valuable contribution to scholarship deepens our understanding and delineates how international law could respond to the Boko Haram insurgency in Nigeria in particular and terrorism in Africa in general

The International Criminal Court and Global Social Control Nerida Chazal, 2015-12-14 The International Criminal Court was established in 2002 to prosecute war crimes crimes against humanity and genocide At its genesis the ICC was expected to help prevent atrocities from arising or escalating by ending the impunity of leaders and administering punishment for the commission of international crimes More than a decade later the ICC's ability to achieve these broad aims has been questioned as the ICC has reached only two guilty verdicts In addition some of the world's major powers including the United States Russia and China are not members of the ICC These issues underscore a gap between the ideals of prevention and deterrence and the reality of the ICC's functioning This book explores the gaps schisms and contradictions that are increasingly defining the International Criminal Court moving beyond existing legal international relations and political accounts of the ICC to analyse the Court from a criminological standpoint By exploring the way different actors engage with the ICC and viewing the Court through the framework of late modernity the book considers how gaps between rhetoric and reality arise in the work of the ICC Contrary to much existing research the book examines how such gaps and tensions can be productive as they enable the Court to navigate a complex international environment driven by geopolitics The International Criminal Court and Global Social Control will be of interest to academics researchers and advanced practitioners in international law international relations criminology and political science It will also be of use in upper level undergraduate and postgraduate courses related to international criminal justice and globalization

The Responsibility to Protect and a Cosmopolitan Approach to Human Protection Samuel James Wyatt, 2018-09-21 This book conceptualizes Responsibility to Protect doctrine R2P as part of a global cosmopolitan agenda drawing on the work of Jürgen Habermas and argues that R2P is reflective of a shift towards a more cosmopolitan approach to human protection The author also proposes a framework of analysis that includes a strong legal dimension in order to advance reforms to the international legal political and military structures in order to better prevent humanitarian crises and protect civilians in times of conflict The volume explores the cosmopolitan moral and legal progress that has occurred and could yet occur under R2P as the approach to human protection transitions in the Post Cold War era

State Responses to Human Security Courtney Hillebrecht, Tyler R. White, Patrice C. McMahon, 2013-11-07 The aim of this book is to analyse why and how states respond to human security both at home and abroad Although states still define security as the defense of territory from military attack increasingly security pertains to the protection of human beings from violence This violence can emerge from rebels drug traffickers terrorism and even environmental and demographic changes While previous literature in this field has provided rich empirical detail about

human security crises it is generally quiet about how states respond to these crises State Responses to Human Security fills this lacuna by bringing in concepts from international security studies and focusing on states perceptions of power and the changing nature of human security Instead of debating whether or not human security exists the authors in this volume agree that human security has been redefined to include policies associated with violence toward individuals and groups and draw on recent events in the Middle East China and Mexico to understand how and when human security issues prompt state responses and affect international relations The case studies analysed in this book suggest that states respond to human security threats differently but in both the domestic context and abroad power and perceptions matter greatly in shaping states reactions to human security concerns This book will be of much interest to students of human security foreign policy international relations and security studies in general Russia's Border Wars and Frozen Conflicts James J.

Coyle,2017-07-03 This book examines the origins and execution of Russian military and political activities in Moldova Georgia Ukraine and Azerbaijan Using a realist perspective the author concludes that there are substantial similarities in the four case studies Russian support for minority separatist movements conflict Russian intervention as peacekeepers Russian control over the diplomatic process to prevent resolution of the conflict and a perpetuation of Russian presence in the area The author places the conflicts in the context of international law and nationalism theory US-China Rivalry Brian C. H. Fong,2024-11-30 US China Rivalry offers a holistic analysis of the unfolding of US China competition in the Indo Pacific using a novel theory called neo offensive realism It synthesises quantitative and qualitative data to examine the intensification of US China competition across the Indo Pacific in recent years with a focus on why the competition is intensifying under the interplay of system level and unit level forces where the competition is unfolding across states and quasi states in the region how the competition is conducted through economic and military influence mechanisms and whether the competition is developing in the future **The Muslim Brotherhood** Beverley Milton-Edwards,2015-12-14 The Muslim Brotherhood is the

most significant and enduring Sunni Islamist organization of the contemporary era Its roots lie in the Middle East but it has grown into both a local and global movement with its well placed branches reacting effectively to take the opportunities for power and electoral competition offered by the Arab Spring Regarded by some as a force of moderation among Islamists and by others as a facade hiding a terrorist fundamentalist threat the potential influence of the Muslim Brotherhood on Middle Eastern politics remains ambiguous The Muslim Brotherhood The Arab Spring and its Future Face provides an essential insight into the organisation with chapters devoted to specific cases where the Brotherhood has important impacts on society the state and politics Key themes associated with the Brotherhood such as democracy equality pan Islamism radicalism reform the Palestine issue and gender are assessed to reveal an evolutionary trend within the movement since its founding in Egypt in 1928 to its manifestation as the largest Sunni Islamist movement in the Middle East in the 21st century The book addresses the possible future of the Muslim Brotherhood whether it can surprise sceptics and effectively accommodate

democracy and secular trends and how its ascension to power through the ballot box might influence Western policy debates on their engagement with this manifestation of political Islam Drawing on a wide range of sources this book presents a comprehensive study of a newly resurgent movement and is a valuable resource for students scholars and policy makers focused on Middle Eastern Politics

The World's Water 2008-2009 Peter H. Gleick, Michael J. Cohen, 2013-03-05 Produced biennially The World's Water provides a timely examination of the key issues surrounding freshwater resources and their use Each new volume identifies and explains the most significant trends worldwide and offers the best data available on a variety of topics related to water The 2008 2009 volume features overview chapters on water and climate change water in China status of the Millennium Development Goals for water peak water efficient urban water use business reporting on water This new volume contains an updated chronology of global conflicts associated with water as well as brief reviews of issues regarding desalination the Salton Sea and the Three Gorges Dam From the world's leading authority on water issues The World's Water is the most comprehensive and up to date source of information and analysis on freshwater resources and the political economic scientific and technological issues associated with them It is an essential reference for water resource professionals in government agencies and nongovernmental organizations researchers students and anyone concerned with water and its use

The Global News Challenge Anne Geniets, 2013-12-13 The Global News Challenge tackles one of the timeliest topics in mass communication today the challenges facing international broadcasters with universal branding strategies in developing countries In these heavily government controlled media environments with a scarcity of reliable information international news providers traditionally had an influential position With the ongoing media liberalization however commercial domestic providers have gained in strength to become strong competitors Additionally in a number of countries pan Arab broadcasting enterprises have widened their reach contributing to the growing competition for traditional international providers such as the BBC or France 24 This book employs a global perspective to explore the subject across the whole population and different media platforms in select developing markets of Africa and South Asia It is unique in providing a theoretical framework by which to analyze demand and usage of and trust in news from international broadcasters across the whole population not just opinion leaders It outlines the strategic options for international broadcasters in these evolving market contexts

A Machine Learning Based Model of Boko Haram V. S. Subrahmanian, Chiara Pulice, James F. Brown, Jacob Bonen-Clark, 2020-12-11 This is the first study of Boko Haram that brings advanced data driven machine learning models to both learn models capable of predicting a wide range of attacks carried out by Boko Haram as well as develop data driven policies to shape Boko Haram's behavior and reduce attacks by them This book also identifies conditions that predict sexual violence suicide bombings and attempted bombings abduction arson looting and targeting of government officials and security installations After reducing Boko Haram's history to a spreadsheet containing monthly information about different types of attacks and different circumstances prevailing over a 9 year period

this book introduces Temporal Probabilistic TP rules that can be automatically learned from data and are easy to explain to policy makers and security experts This book additionally reports on over 1 year of forecasts made using the model in order to validate predictive accuracy It also introduces a policy computation method to rein in Boko Haram s attacks Applied machine learning researchers machine learning experts and predictive modeling experts agree that this book is a valuable learning asset Counter terrorism experts national and international security experts public policy experts and Africa experts will also agree this book is a valuable learning tool
