Constructing Professional Discourse Concepción Orna-Montesinos, 2012-01-17 This book explores the fascinating role that language plays in the construction of non verbal objects by mapping out the ontological meaning of the specialised concepts and the domain specific knowledge embedded in them In doing so it provides a comprehensive linguistic insight into the discourse of professional domain specific communities and hence into the communication practices and procedures of those communities In this respect the book offers a response to the claims made by many of the most influential applied linguists today such as Vijay Bhatia 1993 2004 John Swales 1990 2004 or Ken Hyland 2002 among others who have consistently defended the need for applied linguistic research into the textual generic and social perspectives on the under researched interrelatedness of the discursive and professional practices of a discipline Specifically this book provides readers with an integrative multi perspective approach to the study of professional domain specific discourses While it mainly draws on the tenets of genre theory and discourse semantics it also nurtures from the theoretical and empirical foundations of applied linguistics cognitive linguistics corpus linguistics and ontological engineering The book starts from the analysis of domain specific texts as final written products with specific lexico grammatical semantic and rhetorical features to later enquire into the written products as textual artefacts closely linked to the social context of production and interpretation of the text This integrative approach provides fresh new insights into the way the processes of writing are affected by the community specific institutional and socio historical circumstances in which domain specific texts are produced **History,**

Performance and Conservation Barry Bridgwood, Lindsay Lennie, 2013-09-13 Ideal for students of architectural technology this volume of the Technologies of Architecture series covers the technologies available and the processes necessary for the conservation of existing buildings and environments This book provides in a single text the tools for students to be able to evaluate such buildings as well as an extensive understanding of the mechanisms which cause their deterioration and knowledge of the technologies available to correct their status The ever higher standards set for buildings especially in energy conservation contexts demand that practitioners appreciate how the performance of existing structures can be enhanced which is also covered Considering the work of conservation within a holistic perspective and historical context this

book is additionally invaluable for architecture and construction students *The Architects' Journal* ,2001-05 Brickwork and Paving for House and Garden Michael Hammett,2013-08-01 This is a comprehensive guide to clay bricks and mortars their physical and aesthetic properties and their use in a wide range of building projects RIBA Journal ,2006

Sustainability of Construction Materials Jamal Khatib,2016-08-12 Sustainability of Construction Materials Second Edition explores an increasingly important aspect of construction In recent years serious consideration has been given to environmental and societal issues in the manufacturing use disposal and recycling of construction materials This book provides comprehensive and detailed analysis of the sustainability issues associated with these materials mainly in relation to the constituent materials processing recycling and lifecycle environmental impacts The contents of each chapter reflect the individual aspects of the material that affect sustainability such as the preservation and repair of timber the use of cement replacements in concrete the prevention and control of metal corrosion and the crucial role of adhesives in wood products Provides helpful guidance on lifecycle assessment durability recycling and the engineering properties of construction materials Fully updated to take on new developments with an additional nineteen chapters added to include natural stone polymers and plastics and plaster products Provides essential reading for individuals at all levels who are involved in the construction and selection assessment and use and maintenance of materials Survey and Assessment of Traditionally Constructed Brickwork Moses Jenkins,2022-03-28 The principal aim of this book is to improve the practice of surveying traditionally constructed brickwork It aims to ensure that those who have a cause to survey buildings constructed of traditional pre 1919 brickwork have a well developed clear methodology for undertaking effective comprehensive surveys The book will help readers gain the proper level of knowledge expertise and skill to be able to survey these buildings correctly to recognise not just defects within the brickwork itself but also crucially the cause of these defects Experienced author Moses Jenkins presents a clear and concise methodology for the survey of brickwork in existing buildings with coverage including identifying repair needs understanding the cause of decay within brickwork ascertaining the age and significance of traditionally constructed brickwork and identifying significant technical and decorative features Despite the extensive use of traditionally constructed brick worldwide the knowledge and expertise to properly survey buildings of this type has not to date been laid out in a reliable and methodical way This book addresses this deficiency and provides an invaluable resource to all those who survey and assess buildings constructed of brickwork This includes building professionals such as architects surveyors engineers and those working in building conservation but also construction managers and students studying built environment disciplines *Ajfocus* ,1994 Information Sources in Architecture and Construction Valerie J. Nurcombe,1996 The new edition first 1983 comprises 24 chapters each written by an expert in the field who describes sources and in addition provides instructions in methodology and hints on keeping up with advances in information Coverage includes architectural history conservation contracts and liability **The British National**
