The Race Underground Doug Most, 2014-02-04 In the late nineteenth century as cities like Boston and New York grew more congested the streets became clogged with plodding horse drawn carts When the great blizzard of 1888 crippled the entire northeast a solution had to be found Two brothers from one of the nation's great families Henry Melville Whitney of Boston and William Collins Whitney of New York pursued the dream of his city digging America's first subway and the great race was on The competition between Boston and New York played out in an era not unlike our own one of economic upheaval life changing innovations class warfare bitter political tensions and the question of America's place in the world The Race Underground is peopled with the famous like Boss Tweed Grover Cleveland and Thomas Edison and the not so famous from brilliant engineers to the countless sandhogs who shoveled hoisted and blasted their way into the earth's crust sometimes losing their lives in the construction of the tunnels Doug Most chronicles the science of the subway looks at the centuries of fears people overcame about traveling underground and tells a story as exciting as any ever ripped from the pages of U S history The Race Underground is a great American saga of two rival American cities their rich powerful and sometimes corrupt interests and an invention that changed the lives of millions *Lost Towns of the Swift River Valley*

Elena Palladino, 2022-10-10 In April 1938 Swift River Valley residents held a farewell ball to mark the demise of the quintessential New England town of Enfield and its three smaller neighbors Greenwich Dana and Prescott The Commonwealth of Massachusetts sacrificed these three towns to build the Quabbin a massive reservoir of drinking water for residents of Boston Three prominent residents attended the somber occasion Marion Andrews Smith was the last surviving member of an important manufacturing family Willard Doc Segur was the valley's beloved country doctor and town leader And Edwin Henry Howe was Enfield's postmaster and general store proprietor They helped build their beloved community for decades only to watch grief stricken as it was destroyed by 400 billion gallons of water Author and historian Elena Palladino recounts the story of these communities as seen through eyes of those who lived there until the end **Boston in Transit** Steven Beaucher, 2023-03-07 A richly illustrated story of public transit in one of America's most historic cities from public ferry and horse drawn carriage to the MBTA A lively tour of public transportation in Boston over the years Boston in

Restaurant Republic Kelly Erby, 2016-09-01 Before the 1820s the vast majority of Americans ate only at home As the nation began to urbanize and industrialize home and work became increasingly divided resulting in new forms of commercial dining In this fascinating book Kelly Erby explores the evolution of such eating alternatives in Boston during the nineteenth century Why Boston Its more modest assortment of restaurants its less impressive but still significant expansion in commerce and population and its growing diversity made it more typical of the nation's other urban centers than New York Restaurants clearly segmented along class gender race ethnic and other lines helped Bostonians become more comfortable with deepening social stratification in their city and young republic even as the experience of eating out contributed to an emerging public consumer culture Restaurant Republic sheds light on how commercial dining both reflected and helped shape growing fragmentation along lines of race class and gender from the elite Tremont House which served fashionable French cuisine to such plebeian and ethnic venues as oyster saloons and Chinese chop suey houses The epilogue takes us to the opening in 1929 near Boston of the nation's first Howard Johnson's and that restaurant's establishment as a franchise in the next decade The result is a compelling story that continues to shape America
