Bear In Mind The California Grizzly:

Bear in Mind Susan Snyder, 2003 Unless otherwise noted all material is from the collection of The Bancroft Library University of California Berkeley T p verso **Animal Madness** Laurel Braitman, 2014-06-10 For the first time a historian of science draws evidence from across the world to show how humans and other animals are astonishingly similar when it comes to their feelings and the ways in which they lose their minds After the Grizzly Peter S. Alagona, 2013-05-28 This book traces the history of threats to species and habitat in California from the time of the Gold Rush to the present The author shows how over the course of more than a century scientists and conservationists came to view the fates of endangered species as dependent on the ecological conditions and human activities in the places where those species lived The story begins with the tale of the the state s extinct mascot the California grizzly and the conservation movements and laws that followed its disappearance The second half of the book focuses on four high profile endangered species the California condor the desert tortoise the San Joaquin kit fox and the Delta smelt The author offers an account of how Americans developed a civil system in which imperiled species serve as proxies for broader conflicts about the politics of place The book concludes that the challenge for conservationists in the twenty first century will be to expand habitat conservation beyond protected wildlands to build more diverse and sustainable landscapes **The Bear Doesn't Know** Paul Schullery, 2021-09 In *The Bear Doesn't Know* Paul Schullery honored naturalist storyteller and former Yellowstone ranger has given us a bear lover s book of wonders It is rich in the joy beauty inspiration and pure fun to be had during a life well lived in bear country While exploring the cultural complications of an animal we have long both feared and adored he chronicles the bumpy course of our coming to terms with the mysteries of bear ecology and behavior Schullery brings to the matter of bears a long view of our centuries long and always evolving perception of wild bears of the scientific exploration of bear ecology and behavior and of the sometimes bitter struggles to protect bear populations for the future Featuring Schullery s trademark gifts for historical inquiry and scientific translation as well as for mixing humor with telling insight Schullery enlivens *The Bear Doesn't Know* with many of his own quirky tales of life in the wildlands of North America and in the obscure realms of bear folklore and literature North America s bears have become universally recognized symbols of wild landscapes and the struggles to preserve them In this collection Schullery illuminates and celebrates the bears and their world making plain why they always have and always will matter so much to us Gold Rush Stories Gary Noy, 2017-05-01 From the author of *Hellacious California* deeply human stories of the California Gold Rush generation full of brutality tragedy humor and prosperity In less than ten years more than 300 000 people made the journey to California some from as far away as Chile and China Many of them were dreamers seeking a better life like Mifflin Wistar Gibbs who eventually became the first African American judge and Eliza Farnham an early feminist who founded California s first association to advocate for women s civil rights Still others were eccentrics perhaps none more so than San Francisco s self styled king Norton I

Emperor of the United States As Gold Rush Stories relates the social tumult of the world rushing in so too does it unearth the environmental consequences of the influx including the destructive flood of yellow ooze known as slickens produced by the widespread and relentless practice of hydraulic mining In the hands of a native son of the Sierra these stories and dozens more reveal the surprising and untold complexities of the Gold Rush Seamlessly fuses academic rigor original reporting and emotional intensity into one meditation on an era If the task of the historian is to be faithful to lost truths then Noy s latest exploration succeeds on every level and does so in a way that will keep readers wanting to dig deeper into the past Scott Thomas Anderson Sierra Lodestar An original and lively look at all the usual suspects plus bears weather women Joaquin disappointment and dissipation Exhaustively researched and highly entertaining JoAnn Levy author of They Saw the Elephant Women in the California Gold Rush Speaking of Bears Rachel Mazur,2015-05-01 As majestic as they are dangerous and as timeless as they are current bears continue to captivate readers Speaking of Bears is not your average collection of stories Rather it is the history compiled from interviews with over 100 individuals of how Yosemite Sequoia and Kings Canyon National Parks all in California s Sierra Nevada created a human bear problem so bad that there were eventually over 2 000 incidents in a single year It then describes the pivotal moments during which park employees used trial and error conducted research invented devices collaborated with other parks and found funding to get the crisis back under control Speaking of Bears is for bear lovers national park buffs historians wildlife managers biologists policy and grant makers and anyone who wants to know the who what where when and why of what once was a serious human bear problem and the path these parks took to correct it Although these Sierran parks had some of the worst black bear problems in the country hosted much of the research and invented the bulk of the technological solutions they were not the only ones For that reason intertwining stories from several other parks including Yellowstone the Great Smoky Mountains and Banff Canada are included For anyone seeking solutions to human wildlife conflicts throughout the world the lessons learned are invaluable and widely applicable

Backcountry Bear Basics Dave Smith,2006 Practical strategies for avoiding dangerous bear encounters Debunks commonly held myths about people and bears Provides tested strategies to help you avoid conflict with black bears and grizzlies Bear expert Dave Smith gives you the basics like how to choose a good campsite and properly store your food so that you don t have to worry whether that pepper spray you brought will work on the bear that wanders into camp He debunks commonly held myths about people and bears Forinstance menstruating women don t have to stay out of bear country he says And no don t roll up in a ball when faced with a charging bear So much of conventional wisdom about bears is often just plain bad advice Smith tells you what you should do instead and why He also reviews specific outdoor activities from fishing to mountain biking to hiking with young children to trail running assessing the likelihood of bear encounters and suggesting tactics for coping in different settings and situations This second edition incorporates new research Do bear bells work Does tent color or shape make a difference in attracting bears and adds more charts and sidebars to make material accessible at a

glance Smith provides key information on bear behavior and biology to help you understand rather than fear this most misunderstood animal This book is in the Mountaineers Outdoor Basics series Restoring the Pacific Northwest Dean Apostol, Marcia Sinclair, 2012-09-26 The Pacific Northwest is a global ecological hotspot because of its relatively healthy native ecosystems a high degree of biodiversity and the number and scope of restoration initiatives that have been undertaken there Restoring the Pacific Northwest gathers and presents the best examples of state of the art restoration techniques and projects It is an encyclopedic overview that will be an invaluable reference not just for restorationists and students working in the Pacific Northwest but for practitioners across North America and around the world **Last of the Giants** Jeff Campbell, 2019-08-01 Today an ancient world is vanishing right before our eyes the age of giant animals Over 40 000 years ago the earth was ruled by megafauna mammoths mastodons saber toothed tigers and giant sloths Of course those creatures no longer exist and there is only one likely reason for that the evolution and arrival of the earth s only tool wielding hunter the wildly adaptive comparatively pint sized human species Many more of the world s biggest and baddest creatures including the black rhino the dodo giant tortoises and the great auk have vanished since our world became truly global Last of the Giants chronicles those giant animals and apex predators pushed to extinction in the modern era The book also highlights those giant species that remain even though many barely survive living in such low numbers that they are on the brink of leaving this world within the next few decades However there is hope for many endangered species can still be saved As it profiles each extinct and endangered animal Last of the Giants focuses on the conservation efforts that are trying to preserve the world s remaining charismatic species before they are lost forever **California Grizzly** Tracy I. Storer, Lloyd P. Tevis, 1996-12-27 The California Bear Flag and the University of California football team the Golden Bears emblemize the great animal that has been extinct in California since the 1920s but once numbered perhaps as many as ten thousand in the state Forty years after its original publication University of California Press proudly reissues California Grizzly still the most comprehensive book on the bear s history in California The lessons of the book resonate today as the issues of protection of wildlife habitat versus unfettered development of land for human use are debated with increasing urgency **Bancroftiana** , 1950 Bears Bernd Brunner, 2007-01-01 A delightfully illustrated history of the complex relations between people and bears around the world **Bear in Mind** , 1996 Offers reproductions of rare and unique materials on display at the Bancroft Library from Aug 26 to Nov 27 2002 including over 150 digital images related texts item checklist a listing of online resources about the California Grizzly bear and a digital reproduction of A walking tour of the Berkeley bears a campus map of bear statues and artwork **California Historian** , 2003 *Los Angeles Magazine* , 2004-01 Los Angeles magazine is a regional magazine of national stature Our combination of award winning feature writing investigative reporting service journalism and design covers the people lifestyle culture entertainment fashion art and architecture and news that define Southern California Started in the spring of 1961 Los Angeles magazine has been addressing the needs and interests of our

region for 48 years The magazine continues to be the definitive resource for an affluent population that is intensely interested in a lifestyle that is uniquely Southern Californian Mustang Deanne Stillman,2008 This epic story offers a sweeping tale of the wild horse in the culture history and popular imagination of the American West **California History**,2005 *Chasing the Ghost Bear* Mike Stark,2022-04 Winner of the 2023 New Mexico Arizona Book Award Reading the West Longlist for Nonfiction No animal shakes the human consciousness quite like a bear and few compare to the giant short faced bears that stalked North America during the Pleistocene Even among the mammoths and saber toothed cats they were a staggering sight on all fours the biggest would stare a six foot person in the face and weigh close to a ton On hind legs they towered more than ten feet with jaws powerful enough to crush skulls and snap bones like twigs The bears weren t invincible however Despite their size they were swept off the planet in a mysterious wave of Ice Age extinctions more than ten thousand years ago then mostly forgotten Chasing the Ghost Bear is Mike Stark s journey into the bear s enigmatic story its life disappearance and rediscovery and those trying to piece it together today An engaging guide through his intrepid search Stark s story leads us from the La Brea Tar Pits in Los Angeles to a cornfield in Indiana the far ends of the Arctic the plains of Texas and the swamps of Florida Part natural history part travelogue and part meditation on extinction and loss Chasing the Ghost Bear returns these magnificent beasts to their rightful place in our understanding of the world just an epoch past

CALICO Lee Goldberg,2023-11-07 From 1 New York Times bestselling author Lee Goldberg comes an explosive page turning investigative thriller with a mind blowing twist There s a saying in Barstow California a decaying city in the scorching Mojave desert The Interstate here only goes in one direction Away But it s the only place where ex LAPD detective Beth McDade after a staggering fall from grace could get another badge and a shot at redemption Over a century ago and just a few miles further into the bleak landscape a desperate stranger ended up in Calico a struggling mining town also hoping for a second chance His fate all those years ago and hers today are linked when Beth investigates an old skeleton dug up in a shallow sandy grave and also tries to identify a vagrant run over by a distracted motorhome driver during a lightning storm Every disturbing clue she finds every shocking discovery she makes force Beth to confront her own troubled past and a past that s not her own until it all smashes together in a revelation that could change the world *The Five Threes--33,333 Miles by Land and Sea* Robert Walker,1884
