The Illustrated London News ,1875 Rain Taxi Review of Books ,2000 African Cultural Production and the Rhetoric of Humanism Jean-Blaise Samou,Lifongo J. Vetinde,2019-11-29 A broad range of cultural works produced in traditional and modern African communities shows a fundamental preoccupation with the concepts of communal solidarity and hospitality in societies driven by humanistic ideals African Cultural Production and the Rhetoric of Humanism is an inaugural attempt to focus exclusively and extensively on the question of humanism in African art and culture This collection brings together scholars from different disciplines who deftly examine the deployment of various forms of artistic production such as oral and written literatures paintings and cartoons to articulate an Afrocentric humanist discourse The contributors argue that the artists in their representation of civil wars massive corruption poverty abuse of human rights and other dehumanizing features of post independence Africa call for a return to the traditional African vision of humanism that is relentlessly being eroded by the realities of postcolonial nationhood Scientific American ,1876 Monthly magazine devoted to topics of general scientific interest The Literary World ,1885 German Political Thought and the Discourse of Platonism Paul Bishop,2019-01-18 Taking Plato s allegory of the cave as its starting point this book demonstrates how later European thinkers can be read as a reaction and a response to key aspects of this allegory and its discourse of enchainment and liberation Focusing on key thinkers in the tradition of European and specifically German political thought including Kant Marx Hegel Nietzsche Heidegger and the Frankfurt School it relates them back to such foundational figures as Rousseau Aristotle and in particular Plato All these thinkers are considered in relation to key passages from their major works accompanied by an explanatory commentary which seeks to follow a conceptual and imagistic thread through the labyrinth of these complex yet fascinating texts This book will appeal in particular to scholars of political theory philosophy and German language and culture *Books In Print 2004-2005* Ed Bowker Staff,Staff Bowker, Ed,2004
