O'Meara,2019-12-01 International Education Inquiries is a book series dedicated to realizing the global vision of Education 2030 This vision involves ensuring inclusive and equitable quality education and promoting lifelong learning opportunities for all The founding editors seek to provide a forum for the diverse voices of scholars and practitioners from across the globe asking questions about transforming the vision of Education 2030 into a reality Published chapters will reflect a variety of formats free of methodological restrictions involving disciplinary as well as interdisciplinary inquiries We expect the series will be a leading forum for pioneers redefining the global discussion about the people places and perspectives shaping Education 2030 outcomes Education 2030 topics of interest include but are not limited to Improving access to quality early childhood development care and pre primary education Ensuring equal access for all women and men to affordable and quality education Increasing the number of youth and adults who have skills relevant for sustainable living and livelihoods Ensuring equal access for the vulnerable including persons with disabilities indigenous peoples and children in vulnerable situations Achieving levels of literacy and numeracy required to engage in communities and employment Acquiring the knowledge and skills needed to promote sustainable development including Human right Gender equality Promotion of a culture of peace and non violence Global citizenship education The appreciation of cultural diversity and of culture s contributions to sustainable development Providing safe non violent inclusive and effective learning environments for all Recruiting preparing supporting and retaining quality teachers Community Participation in School Management Kazuro Shibuya,2022-09-12 Nobody denies that trust in schools is key to success in generating any educational outcomes However trust is often eroded resulting in conflicts alienation and differentiation among school level stakeholders This book analyses school based management SBM of education through the lens of relational trust in the context of Ghana revealing how community participation in school management leads to educational outcomes Conducting quantitative

analysis of headteacher questionnaires from public basic schools and qualitative analysis of case study schools in the Akatsi South District of Ghana Shibuya offers critical insights into building sustainable relationships between individual households and geographical school communities He argues it is critical to highlight relational trust as an analytical tool to examine relationships between actors and factors in school management The research finds that trust in schools is a two way mechanism and the mutuality of expectations and obligations among stakeholders is essential if children s learning outcomes are to improve With its mixed methods approach this book will be a valuable resource for scholars in comparative education those in educational development and those interested in African contexts *Adaptation to Climate Change and Variability in Rural West Africa* Joseph A. Yaro, Jan Hesselberg, 2016-04-12 This book presents conceptual and empirical discussions of adaptation to climate change variability in West Africa Highlighting different countries experiences in adaptation by different socio economic groups and efforts at building their adaptive capacity it offers readers a holistic understanding of adaptation on the basis of contextual and generic sources of adaptive capacity Focusing on adaptation to climate change variability is critical because the developmental challenges West Africa faces are increasingly intertwined with its climate history Today climate change is a major developmental issue for agrarian rural communities with high percentages of the population earning a living directly or indirectly from the natural environment This makes them highly vulnerable to climate driven ecological change in addition to threats in the broader political economic context It is imperative that rural people adapt to climate change but their ability to successfully do so may be limited by competing risks and vulnerabilities As such elucidating those vulnerabilities and sources of strength with regard to the adaptive capacities needed to support successful adaptation and avoid maladaptation is critical for future policy formulation Though the empirical discussion is geographically based on West Africa its applicability in terms of the processes structures needs strategies and recommendations for policy transcends the region and provides useful lessons for understanding adaptation broadly in the developing world Ghana International Monetary Fund.
