Building Engineering** David Bienvenido-Huertas,María Luisa de la Hoz-Torres,Antonio Jesús Aguilar Aguilera,2024-06-19  
This book presents contributions on teaching innovation in university architecture and building engineering studies The  
authors explain how the construction sector demands that future architects and building engineers have the knowledge and  
skills that allow them to meet the decarbonization objectives established by international organizations and that this causes  
the level of knowledge to be higher The contributors further discuss new technologies and the internationalization of studies  
presenting new challenges university studies must face This heterogeneity is represented in the chapters that make up this  
book developed by researchers from different countries The book is divided into three blocks i Active learning methodologies  
ii Innovative methodologies applied to learning process and iii Traditional vs Advanced Techniques The chapters of the book  
represent an advance in the current knowledge of teaching innovation techniques in university architecture and building
