Accounting at War Warwick Funnell, Michele Chwastiak, 2015-03-24 Accounting is frequently portrayed as a value free mechanism for allocating resources and ensuring they are employed in the most efficient manner Contrary to this popular opinion the research presented in Accounting at War demonstrates that accounting for military forces is primarily a political practice Throughout history military force has been so pervasive that no community of any degree of complexity has succeeded in Through to the present day for all nation states accounting for the military and its operations has primarily served broader political purposes From the Crimean War to the War on Terror accounting has been used to assert civilian control over the military instill rational business practices on war and create the visibilities and invisibilities necessary to legitimize the use of force Accounting at War emphasizes the significant power that financial and accounting controls gave to political elites and the impact of these controls on military performance Accounting at War examines the effects of these

controls in wars such as the Crimean South African and Vietnam wars Accounting at War also emphasizes how accounting has provided the means to rationalize and normalize violence which has often contributed to the acceleration and expansion of war Aimed at researchers and academics in the fields of accounting accounting history political management and sociology Accounting at War represents a unique and critical perspective to this cutting edge research field Accounting for Risk, Hedging and Complex Contracts A. Rashad Abdel-Khalik,2013-10-08 With the exponential growth in financial derivatives accounting standards setters have had to keep pace and devise new ways of accounting for transactions involving these instruments especially hedging activities Accounting for Risk Hedging and Complex Contracts addresses the essential elements of these developments exploring accounting as related to today s most relevant topics risk hedging insurance reinsurance and more The book begins by providing a basic foundation by discussing the concepts of risk risk types and measurement and risk management It then introduces readers to the nature and valuation of free standing options swaps forward and futures as well as of embedded derivatives Discussion and illustrations of the cash flow hedge and fair value hedge accounting treatments are offered in both single currency and multiple currency environments including hedging net investment in foreign operations The final chapter is devoted to the disclosure of financial instruments and hedging activities The combination of these topics makes the book a must have resource and reference in the field With discussions of the basic tools and instruments examinations of the related accounting and case studies to help students apply their knowledge this book is an essential self contained source for upper level undergraduate and masters accounting students looking develop an understanding of accounting for today s financial realities Federal Register ,2013-10 Code of Federal Regulations, Title 48, Federal Acquisition Regulations System, Chapter 2 (PT. 201-299), Revised as of October 1, 2012 U S Office of the Federal Register,2013-01-28 British Audit Practice 1884-1900 (RLE Accounting) Roy A. Chandler,J. R. Edwards,2013-12-04 This book sheds light on the nature of the late nineteenth century audit by reference to the views expressed in 26 legal cases The treatment of late nineteenth century legal issues which might appear somewhat unbalanced viewed from today s stand point is shown to be more even handed when seen against the back ground of a vigorous contemporary debate concerning all aspects of the auditors duties This text therefore informs readers of the full breadth of the debate and discusses a range of issues which may since have been overlooked such as the Kingston Cotton Mill case 1895 normally referred to only in the context of stock valuation but which also had a great deal to say about the appropriate method for valuing fixed assets Accounting in Australia (RLE Accounting) Robert H. Parker,2013-12-04 The history of accounting in Australia is of interest because it provides an opportunity to examine how accounting techniques institutions and concepts have been imported and adapted to an environment similar to but not exactly the same as that of the exporters The book emphasizes private sector accounting over public sector accounting which is a reflection of the available literature but not of the real world of Australian accounting and is divided into 7 sections Early Accounting Records The Financial Year

Ministry of Defence main estimates 2011-12 Great Britain: Parliament: House of Commons: Defence

Committee, 2011-07-28. The Ministry of Defence (MoD) must put into the public domain the full cost of military operations in Afghanistan. This report notes that although there are obvious standing expenses, the Afghan deployment brings with it additional costs in terms of training opportunities cancelled or deferred and equipment wear and tear that will eventually have to be met. The Committee is also disappointed by the Department's inability to provide the detailed information requested about expected write-offs such as Nimrod and the Type 22 Frigate. The MoD was not clear, but the Committee deduced that some of the 2010-11 provision for depreciation and write-offs will be carried forward to 2011-12 or even later.

years There is also concern that the voluntary redundancy programme has been over subscribed and that applications or even resignations have been received from individuals who might have achieved high command and asks the MoD to show how it will ensure that the voluntary redundancy process does not impact on the future leadership capability and effectiveness of the Armed Services *Appendix, Budget of the United States Government, Fiscal Year 2012* Office of Management and Budget (U.S.),2011-02-14 Contains detailed information on the various appropriations and funds that constitute the budget and is designed primarily for the use of the Appropriations Committee The Appendix contains more detailed financial information on individual programs and appropriation accounts than any of the other budget documents It includes for each agency the proposed text of appropriations language budget schedules for each account new legislative proposals and explanations of the work to be performed and the funds needed and proposed general provisions applicable to the appropriations of entire agencies or group of agencies Information is also provided on certain activities whose outlays are not part of the budget totals *Minerals Yearbook* Geological Survey,Interior Department,Mines Bureau,2018-04-19 This volume of the Minerals Yearbook provides an annual review of mineral production and trade and of mineral related government and industry developments in more than 175 foreign countries It is normally published in separate books that cover specific regions In this publication the regional books are combined into one commemorative volume These annual reviews are designed to provide timely statistical data on mineral commodities in various countries Each report includes sections on government policies and programs environmental issues trade and production data industry structure and ownership commodity sector developments infrastructure and a summary outlook More information is available on the three volumes of the Minerals Yearbook Regional Areas Covered Africa and the Middle East Asia and the Pacific Europe and Central Eurasia North America Central America and the Caribbean South America *Accounting in Conflict* Cheryl R. Yesterday, Today, and Tomorrow Roslyn Arlin Mickelson,Stephen Samuel Smith,Amy Hawn Nelson,2017-11-14 *Yesterday Today and Tomorrow* provides a compelling analysis of the forces and choices that have shaped the trend toward the resegregation of public schools By assembling a wide range of contributors historians sociologists economists and education scholars the editors provide a comprehensive view of a community s experience with desegregation and economic development Here we see resegregation through the lens of Charlotte North Carolina once a national model of successful desegregation and home of the landmark Swann desegregation case which gave rise to school busing This book recounts the last forty years of Charlotte s desegregation and resegregation putting education reform in political and economic context Within a decade of the Swann case the district had developed one of the nation s most successful desegregation plans measured by racial balance and improved academic outcomes for both black and white students However beginning in the

1990s this plan was gradually dismantled Today the level of resegregation in Charlotte has almost returned to what it was prior to 1971 At the core of Charlotte s story is the relationship between social structure and human agency with an emphasis on how yesterday s decisions and actions define today s choices
